WHAT DO YOU KNOW ABOUT ME (CHRIST)

You speak about the eternal, but you don't know him.

Am I God at hand. Am I not God too far?
Someone will be there in a hidden place, without I see him?
Don't I fill the heavens and the earth?

Who do you compare God?
Who fathomed the spirit of the ETERNAL and who informed his advice?
With who did he intentionally receive instruction?
Who taught him the path of justice?
Who taught him wisdom and made him know the path of understanding?
Who do you compare me, so that I look like him?
Request the ETERNAL?
I the ETERNAL, the first and the same even to the last ages.
Who do you compare me to do my equal?
Who will you make me look like for us to be like?
It is I who am the first, but also I am the last.
Whoever wants to be boasted, boast, of having the intelligence and know me
Knowing I am the ETERNAL.
I, who exercise kindness, law and justice on earth, for these I delight.

Writing a book about God, or talk about him is something obvious to a believer, but also from the author, to show affection towards him. It also exorcise the taboos, all misunderstood or distorted ideas about him, but also the core concern of raising its profile in silencing criticism and the deniers to say he exists, cause I met him.

I write about God not only for the reasons mentioned above, but also and especially because I am among those who are entitled to know. Another reason not least, like the fact that I had small honor to meet and get his aid, advice, lessons, props in my trials and difficulties. On the other hand, he allowed me to see hidden things, to meet those men called angels. These gave me the honor and privilege to discover data related to the incarnation. I can in that capacity say that I got the rare advantage granted by God to men, to penetrate this mystery. What I say is true and demonstrates the reality of what Christ says when he states: "I give you what no eye has seen, no ear has heard, no hand has touched, which is not entered in the heart of men."

This book also aims to respect the wish of God, on which we have accrued in relation to men teaching us that the creator prodigal.

Did he not say:

"What I say to you in the dark, tell in the light; and what you hear whispered, proclaim from the housetops."

Obviously the question does not arise regarding the believers because they know, but atheists deserve our attention. They are in my eyes, blind and deaf. How can one not believe in the Holy Spirit.

Many Holocaust deniers claim that everything is a coincidence, and follows a slow but progressive evolution. But finally, as far as I am concerned, it is a notorious aberration. How to think that the universe is the fact of no divine intervention?. Let us dig this subject. As far as scientific datas are concerned, our universe is the resultant of the big-bang, the latter resulting in the formation of our universe and everything in it, Now we all know that the big bang is neither more nor less than a gigantic explosion. Even there, opinions differ, some scientists argue that this explosion was the size of an atom, that is to say tiny. Regardless, this explosion would have followed a slow and gradual expansion of our universe. Now we know that for an explosion to occur, there must necessarily be a convergence of elements of particles that enter into contact, causing the explosion. According to researchers, the moment that preceded the big bang plunged into nothingness.

My question is simple.

Whence came these particles?

It was necessary that they come from somewhere. They necessarily have an origin, and that's the bottom hurts, because scientists do not respond, and some for spurious reasons, refuse, however current data do not permit. However, researchers build assumptions, up to admit the existence of other mother universes.

Regrettably, there will always be materialists men who like Saint Thomas will say:

" If the scientists cannot explain the origin of the big-bang, then we shall wait before pronouncing us. In the meantime, we leave the principle that the origin of the world is due at random ".

What a sadness! This shortsighted distressing concerns me. How can we not believe in a divine origin?

In their researches concerning the mass of the universe, the astrophysicists arrived at the conclusion that he was to be binary, because a big part of this mass is missing. Our universe thus has by deduction a visible face and the other one invisible, both parts inter-penetrating. It is not because the man cannot answer all the questions, resolve all the equations or the enigmae, because it is necessary to claim arbitrarily that the creator, the supreme God does

not exist. It is very often the ignorance which brings us to argue so. Let us have the honesty to say that we do not know, rather than to claim self-assuredly that it is false.

I can assure you that I know God. He really exists.

It is written:

Anyone looking, always looking until he finds, and when he has found, he marveled, he will reign over all.

Since ancient times, when man is aware of its limitations in solving specific problems or provide solutions to specific situations, he has continued to pose a number of existential questions. Given the emerging vacuum of his mind, he sometimes awkwardly tried to give answers like:

Are we the only intelligent and thinking beings on earth and the universe?

Was there a beginning, if so how to explain it. And if there was a creator?

Very quickly this has given major germinated in his mind up to be obsessed and become obvious. How could it be otherwise. We come from somewhere, he should ask himself, because how can we justify the existence of our planet and everything in it, the various plants, rivers, mountains, animals and even more men.

And the sky he said, he has had someone creates all these galaxies with their processions of stars, the sun, the moon ...?

After being tortured mind to think, going all the cases reviewed, it had to go obviously, he could not imagine it otherwise. I can not bring myself to believe he said that all this is a coincidence. How to believe in a slow natural mutation, not original source of divine order. Yes, God does exist, but where is he and where he lives?

Perhaps we have already met without knowing it, he should ask himself.

By moving around the planet earth, we can see that the men through the ages and continents, have given a shape and a different name, using it for various materials. We are witnessing the birth of idols, the false god who flourished in antiquity and until not so long ago. These deities created by man, sought simply to fill a void, and answer to no obvious to him.

In fact the approach of humans this time follows an intellectual sense, to fill a space on their lives, their presence on earth, their relationship with the divine, see their real reasons for being. They therefore felt the urge in some circumstances to obtain the help of these deities, not only for their personal well-being, but also to enslave their fellow citizens by highlighting the teachings of that god created from scratch in him conferring powers imaginary. We can see from alleged priest character supposed to be connected, in contact with this hypothetical God. To be listened to and respected, they have introduced a range of directives, prohibitions, rites, to the people to join, then to believe in the supernatural powers of divinity, but also to those whom God He was granted.

We have been able to attend to human sacrifices to appease the supposed wrath of the gods, but in order to get them many benefits. The intervention of the gods, however many. We note that the peoples of Africa, the Pacific, America, often using them in all areas of life, particularly to bring down rain, fertility, fertility, healing diseases, enslavement a clan, etc. ... The various deities were themselves frequently placed under the authority of a supreme God. We're back to the starting point. Even if this information was sometimes admitted, many people were content to deify beings with supernatural powers, without being able to demonstrate the existence of a supreme being. This idea has also been ignored for centuries. Penetrate for a moment the mind of men of that time, and look for different reasons that led them to make idols, and to the divine.

We note initially that they were in a state of extreme destitution intellectual, and thus unable to respond to major aggression constant some of them, and thus regulate their behavior. Then bring the desired therapeutic solutions to many different diseases that often decimated all. On the other hand, the absence of rules preventing the clan leaders to channel the actions of their subjects. We must also understand that at that time, the disease almost always had a supernatural origin. For these people, the primary source of these had no connection with the microbial factor, this data was then ignored.

The rationale of divine spirits, was to rule over the various phases of daily life, channeling migration flows and to secure them by placing them under a protective cloak salutary.

This appeal to the gods, often finds its origin in the apathy of men in its lack of sense of reasoning, initiative regulated, its inability to accurately discern right from wrong, truth from falsehood, to project in the future, but also to build useful projects for the community.

A truth emerges from this brief analysis, it is the men's aphasia or stroke which led to this profusion of gods or idols, made by self-proclaimed priests. Silence has often been the seed of ignorance of the latter, given the questions they were asked about the origin, origin, place of residence of those idols, see their area of evolution.

If we refer to the sacred books, data that I fully share, God from the beginning in the Garden of Eden, then during the installation of the couple Adam and Eve on earth has been in constant contact with them, marking his interest in mankind.

However, this frequency was essentially intended to help them correct their mistakes committed earlier, but also evolve in their new environment, and to enter new data. God and hoped that our first parents reportedly aware of the true reasons for their expulsion from the Garden of Eden, and thus they would be able to reject evil in all its forms, and mainly, they no longer meeting the demands of satan.

Having children now, they had a new responsibility of importance, of transmitting to their offspring the actual data, just, healthy, on the existence of God. Celestial bodies, the universe and spiritual education to help them free themselves from evil, to resist being unclean source of misfortune, the man who hates and wants to ruin, Satan, knowing that they changing now in the material universe-bit where they are imprisoned, and where they are by their behavior, their actions are free.

If early contact was easier between God and Adam and Eve, because they were aware of the reality of spiritual entity, who still remember the living expenses of their previous residence in the spiritual world. God spoke to them as spiritual beings, and has never been otherwise. This approach continued with relatives descended from our first parents, and it gradually faded because of non delivery of instruction of truth in the chain of descent from the first couple on earth.

Thus little by little, the first inhabitants of the earth, the descendants of Adam and Eve, spreading over the entire surface of the earth, have lost all bearings, all realities, wandering aimlessly, the truth has completely disappeared of the collective consciousness of memory, the contact with God was therefore discontinued, and this lack of transmission of data related to truth, reality has persisted over time. Men growing and evolving in complete ignorance of celestial data.

Man has thus continued to evolve in an environment devoid of reality, a total lack of knowledge, where knowledge bases were simply non-existent and / or data concerning not only the reality on the creation of our universe, the various celestial universe, the existence of God, let alone those of the celestial bodies, education on the rationale for his presence on earth, but the purpose it was set was regard to his spiritual evolution. Consequently, reality has set its own existence, linking it to his environment, his space, his world, his world, he believes now unique.

If one looks at Darwinism, referring to the slow evolution of species, it is clear that in this respect it is not wrong. The body of man from the beginning of his presence on earth today has undergone a slow evolution. This added to the lack of data related to knowledge, science, technology, is confined in the dark, forcing him to start over, repeating like a child, teaching focused on discoveries based on nothing .

Therefore, the evolution of man has had the knowledge base, also a slow discovery of actions and effects on the environment, minerals, plants, its similar to the thought, but speculation, assumptions have gradually given way to certainty that persist today. Added to all this chain, a total loss of memory of his own reality of spiritual entity, having finally identify with his body, cutting off the network and especially spiritual knowledge heavenly. It was indeed locked in materialism, remaining a prisoner of this universe-bit hardware, which is itself isolated or marginalized, see the antechamber of the real main spiritual universe. The previously maintained contact with God is no more.

The man followed from the time a slow increase, which was both that of his body, but also and especially that of knowledge, seeking to answer many questions of life, including those concerning its own reality, its presence on earth, the universe, etc. ...

How in these conditions, answer these questions, without a solid foundation with respect to the truth.

We are witnessing the emergence of data all the more outlandish than the other. But how in these circumstances, claim that such and such are based on a reliable basis or not, real or not. It has been a plausible starting point, thus gradually clan chiefs have set up arbitrary rules based on the foundation of their power, creating any number of false gods, including the reasons multiples of their arrival, consisted primarily to maintain their hegemony over their people and thus better to enslave them.

Strange as it may seem, the man in his ignorance, seemed to perceive the existence of a higher power, and needed to cling to this idea, hence the appearance here and there, gods multifaceted faces and various powers. Everything of course orchestrated and nurtured by shamans, sorcerers, medicine men, healers, priests self-proclaimed, with powers, quotes, communicate with deities and which they hold a special knowledge, that they put the mission of serving the people.

Consider how an invisible god, the source of ALL, in a world of palpable matter in a universe governed by the material.

The man has naturally created false gods, the various representations, depending on the geographical continents, manners, etc ...

The people in ignorance of spiritual information, not trying to know or understand the reality of this divine place, the origin of planets, let alone the universe, not to mention the rationale for its own existence and confident leaders, clan leaders or priests, were right, quite naturally followed the movement, taking at face value the allegations of religious adhering blindly to their guidance, finding nothing to complain about the sudden appearance of these strange gods.

They must certainly have the powers attributed to them wondered men.

Is it different today?

Some scientists, not least, for example deny that our material universe-bit has a beginning. I mean, the moment that preceded the Big Bang.

Even today in some parts of Africa, South America or the Pacific, it is not uncommon for men to use the marabout and other witches, so that they intercede for them to close hypothetical gods, ancestors and other deities were born from the fertile imagination of shamans, to get them benefits, healings, expectations, or actions based on materialism or with intent to gratify the desires pernicious.

The man lived for a very long period in the absence of actual data spiritual, based on the truth of existence. Therefore, self-proclaimed priests have created a climate of suspicion based on the cult of secrecy. Nobody of course should know that the link they maintain with the false gods are based on wind, on arbitrary data and is based on rituals invented from scratch. It was unwise to reveal the character and the virtual absence of these false gods. The fallacy of intention should never be revealed because it was necessary for leaders to impose a policy to the people, by rules and guidelines and directive, require him to comply with orders, to better manipulate and make people ignorant.

The men then through the centuries, shaped the gods according to their ideals, often based on speculation, hypocrisy, cynicism, lies, and sometimes to fill a void. It is true that among men, one or two enlightened beings posed the right questions and lack of accurate data, raced in the design of false gods to make a realistic response to desideratives the people.

These gods had fashioned for basic design, nature, environment, a mythical character, and foundation, a spiritual lack, and that it is supposed supernatural powers. At that time, men needed to cling to something, to imagine a power greater than man, to pursue certain values, certain ethics, hence the multitude of gods that emerge in the world.

Then going back ages, are made up of religious brotherhoods, operating in a vacuum, which vowed course worship one or more deities, the occult powers. These gods had their own powers and had already, though shaped by man linked to a residential area different from that of humans.

We already are Coming, the belief in a divine being created by man, endowed with will, but do not enter the field of transcendence, extended knowledge of heaven, yet unknown to those religious congregations.

Then much later, wisdom penetrating the inner being of some 'enlightened', emerges the hypothesis of the existence of one God, creator of all things and mankind.

Since new issues emerge and gradually raised to worship the One God moved. Thus was born the resurgence of divine knowledge. Data for the truth about existence could again spread over the surface of the earth.

It is a fundamental fact which must be revealed to men is that concerning the lighting of spiritual knowledge brought to the attention of men. No man, in his imperfection, not previously purged its spiritual essence, can not penetrate the divine knowledge, much less get in connection with the divine consciousness and receive knowledge.

The revelation is made mainly by GOD, and only by him, and transmitted to humans who have reached a state of arousal, and thus able to transmit to men hidden knowledge.

Some Asian religions speak of God in terms of praise, and described as follows:

BEING represents the power, the "absolute" as the source of the universe, the first principle. SPIRITUAL ENTITY, INFINITE BEING, eternal, ineffable, present in all creatures.

If I penetrate deep into the philosophy and cosmology of Asian religions, I realize that the people of this geographical region have sought early on to know God better, and the only real divinity, entering its reality.

It is even said this:

DIVINE ENTITY, both stable and perfect, immanent and transcendent, which is derived from the creative principle of all things, including the matter itself.

It is this creative force, qu'émergèrent different particles and elements that gave birth to the binary world of ours, both visible and invisible, or matter and antimatter, just to

interpenetrating form one, while having two sides and separate or autonomous teeming life.

The creative principle has also established the source of knowledge or emanation of universal knowledge, that relating to the universal conscience and those relating to the mental.

Recognizing that the human soul is derived directly from SUPREME GOD.

Hinduism provides the key states like to support my comments:

SOVEREIGN GOD, which knows no definition agree. He is a nobleman active and inactive, interior and exterior.

The purpose of this definition makes me think of the hidden words of Christ, revealed to Thomas the Apostle.

"Why do you wash the outside of the cup? Don't you understand that the one who made the inside is also the one who made the outside?". What is remarkable about these writings is that depth, this narrowly, this approach real GOD. The priests of this early period, those who introduced him to this religion men began to describe the SOVEREIGN GOD as well and proved they were very close to him, is somehow the first to be approached d 'so close.

True, he is hardly given a penetrable, understandable to ordinary people. They were really not far from describing God in its reality and fullness. The men, unable to penetrate this mystery and thus refer, preferred, either simple or justify their actions, either for convenience, stop at the gates of accepting the understandable absence of superior beings, that they called Gods.

Thus we find:

GOD the creator of heaven and earth.

GOD holder of universal knowledge of divine secrets.

The SUPREME GOD.

Talking about God is even more difficult than I will have imagined, because I wanted to be both respectful, honest, accurate while saying that he really is.

For thousands of years, whenever the man of God spoke, it was so vague and superficial in terms of design, reference, attitude and behavior type. Throughout history, when studying the evolution of peoples, it is clear that there is no room for complacency. The word of God has never been respected. There were only desolation, chaos, destruction, speculation, war and death.

The emphasis has never been on a construction of evolutionary thinking, morality.

Socrates once said in his time:

"How sad that the man has very little progress in terms of morality."

This truth is still relevant today.

Given this intellectual desolation, the darkness of mind, this denial of truth, it was necessary that the Divine Being to intervene to make known to men the rules of conduct, as well as tables of the law in order to allow the emergence of a stable nation, and the establishment of specific data to provide men with the weapons necessary for their spiritual development, and awareness of the existence of negative forces, brakes any spiritual elevation. Since the beginning, God has constantly to prevent the men, asking them to leave, to abandon this darkness, intellectual confinement in which they are confined, and no sense of reasoning in which they are immersed.

Attitude which does not allow them to see something other than the material universe in which they are confined, and which they believe to be the only ones.

God has always wanted men to know that other universes exist, but also make them aware of their reality, that is to say what they really are, namely spiritual beings identical to him. I personally prefer the term spiritual entity. But before going further, which is GOD?

I must admit that it is with great emotion that I will try to answer this question. The reasons which lead me there are many, but the main belong to the feelings and the ultimate desire of raising its profile, while saying the denial that there really.

What I say is true, since I know him because he is my father. If I said otherwise, I am a liar.

My other wish, bring undecided skeptics, atheists to reconsider their position, providing an explanation again on my father, so they no longer deny its existence and like me they finally say:

YES, we know God.

Hinduism says of him:

"It has taken everything down here, everything moves in the universe in motion. The acts do not affect the essence of his being. Unique and moving, it moves faster than thought.

He did not move, and yet it transcends all those who are. It is activated and not activated. It is far and near. It lies within everything and outside everything.

It is bright and bodiless, it can not hurt since it is not flesh and bones. We can not defile him, since evil can not reach. It is knowledge and not knowledge, both. Who will know death through knowledge, and the unknowing gain immortality.

One thing is sure, men have always had a false idea of God, and have a misrepresentation.

Thus the painters of the Renaissance by ignorance, represented in the guise of an old man with long hair and a long white beard.

All this of course is wrong because it is not so. As much as you know, time does not affect it.

God is spirit, and remains SUPREME SPIRITUAL ENTITY.

This data is incomprehensible to men, either because they have not yet achieved the ability to understand, or because the knowledge developed by humanity does not allow it. In my opinion, doubt is the result of reflection for not believing in something, for reasons of crass materialism, but also in terms of our lack of knowledge. Is this a flaw to recognize that we do not know something, rather than deny the evidence for no apparent reason?

On the contrary it is obvious to say that for men for sinister reasons, turned to unbridled pursuit of profit, grow their kind, sensible and searching for the truth, to depart from the right path by forcing them to remain in matter, and confine them to forget the true values, including those related to spirituality.

The man still has much to learn, discover, before being able to make not even a preliminary answer to a problem cloudy or clear up a mystery. But in the case that concerns us, I say that that is not tomorrow the day before. This would not only develop a technology hitherto unknown, but does not assume or otherwise confined, that the visible matter is the only existing.

Then go back all the time.

Our research SUPREME GOD, SPIRITUAL BEING this behind everything that exists and moves, has often been unsuccessful due to lack of precise data concerning him. In fact when we follow the chronology of human evolution, we see an obvious gap.

If God exists wonder men, where is it and how is it?

In what direction to look?

We were at the beginning of enlightenment, with the arrival of God himself, when he took human form to convey knowledge to men, and they reveal the actual data and the truth about things celestial. We all know the name of Christ.

Our knowledge remains very limited, do not allow us to penetrate and understand correctly the truth, to identify the essence, and to understand its fullness. It is clear that our ignorance of celestial data, prevent us from seeing clearly. We must humbly admit, that if we want to know and find God, we must go back in time, back to the original source, and there it must be admitted, the mystery is complete.

In the beginning there was void, it must be admitted, there was nothing that the real vacuum. In the beginning was the void. If this idea is commonly accepted, it must go to the evidence, that everything has a beginning and an end. Since it refers to the divine, we must recognize that data GOD ENTTE major spiritual, are radically different, as outsized and fall of the inexplicable.

If the beginning was nothing, I mean by that, the non-existence, non-being, lack of life, we need to face facts. For something emerges from nothing, it is necessary that it does not totally. Because of this void, this absolutely NOTHING has shown, became the Supreme Being, spiritual entity MAJEURE, the Holy Spirit, source of all existence, of all things of God. No one can call God, or give it a name, because only the father gives a name to his son. But God is the first and on that basis and out of respect, we call GOD, a dignity above that there is nothing.

It would be incorrect and inappropriate to speak of God in other words in saying what he really is a spiritual being. It is also essentially the owner of the original source of truth, it is the ordering intelligence and dispenser, it is the source of life and life is the source of all intelligence, wisdom, purity, and source of purity He is love and source dispenser of love, there is peace and source of peace, is perfection and flawless, it is the possessor of knowledge, knowledge source and dispenser of knowledge and knowledge, it is the 'absolute.

God is unique and he often showed the men that he hates evil and wickedness in all its forms. Therefore, especially because he knows the effects of evil, he urges men to reject evil. It is the FIRST, and nothing has been before him. Since pure SPIRIT, he can not be represented. For this reason he first forbade men to represent, portray the human form, as would be pure fantasy, pure invention and a gross error. The man has never seen a spiritual entities, how these conditions could allow himself to represent God is the ENTITY SPIRITUELLEM MAJEURE.

GOD is the one in whom is concentrated, collected, all the divine qualities. It is the fullness, the immensity, infinity.

Therefore, nothing exists initially has somehow dissolved, vanished, no longer exists, since filled in its entirety by the LORD, the One God. We can therefore say with force:
In the beginning was the LORD.

Pascal wrote:

"God is an infinite sphere whose center is everywhere and circumference nowhere."

This definition is obviously flawed and inaccurate, it clearly shows that Pascal does not know God, and had not approached. On the contrary he has this to him, and he told the truth when he says the LORD, it is infinite.

CHRIST, GOD said, when taught his apostles:

"It's a great kingdom infinite, ever the eyes of an angel did on him. Never thought of the heart has not embraced, he was never called by name.

God, eternal in essence and by nature, is both the first being the one to be purely spiritual entity, and the sole custodian of all the sources or principles propagators of life, truth, knowledge, existence. As purely spiritual entity, no being, except the Son, has seen as it really is, because the molecular structure of its spiritual essence is such, that the LORD is invisible to all. That is why, when the Supreme Being wants to make known, communicate or meet someone, male or celestial body, it is the occasion for a specific form. To Moses He appeared in a burning bush, donning for the occasion, the etheric form of a flame.

GOD is certainly a spiritual entity, but it is also and especially those which have sprung all the particles that gave rise to different celestial regions, aided by the Son, as we shall see later. Having life in himself, being the life of his divine essence gush all sparks of life that gave birth to celestial beings such as angels, for example, the spiritual entities, categories to which humans belong, and plants, minerals, etc.. It is also the fullness, the immensity and to be more precise, it is existence itself. It is by whom all things exist, because EVERYTHING in him.

It is part of the TOTAL ALL that exists and lives, as containing within it, forming and penetrating all things, and remains the perfect component of every living being. The LORD whose greatness, size, if I may use these terms to give a clear idea of the extent of his BEING, referring to the human level, I would say it is infinite. It is both container and contents.

One of the primary qualities of God, if we can talk about that in terms of nobility, remains in the ability of its spiritual essence to have within it the seeds of eternity. Having him in life, is essentially life, given that most GOD gives that provision only natural, he offered us moreover, do not change, remain in the state, not to be affected by time.

I call this the static state.

The LORD has in its essence, the seeds of life which prevents any movement, blocks and stagnant throughout evolution, immobilizing the time as we hear on earth. The time given for a period leading to degradation of cells in the kingdom of heaven is not infinite and has no control.

Hinduism says that GOD is a static, not moving, while in motion. This notion is correct, because it is everywhere at once as being ALL.

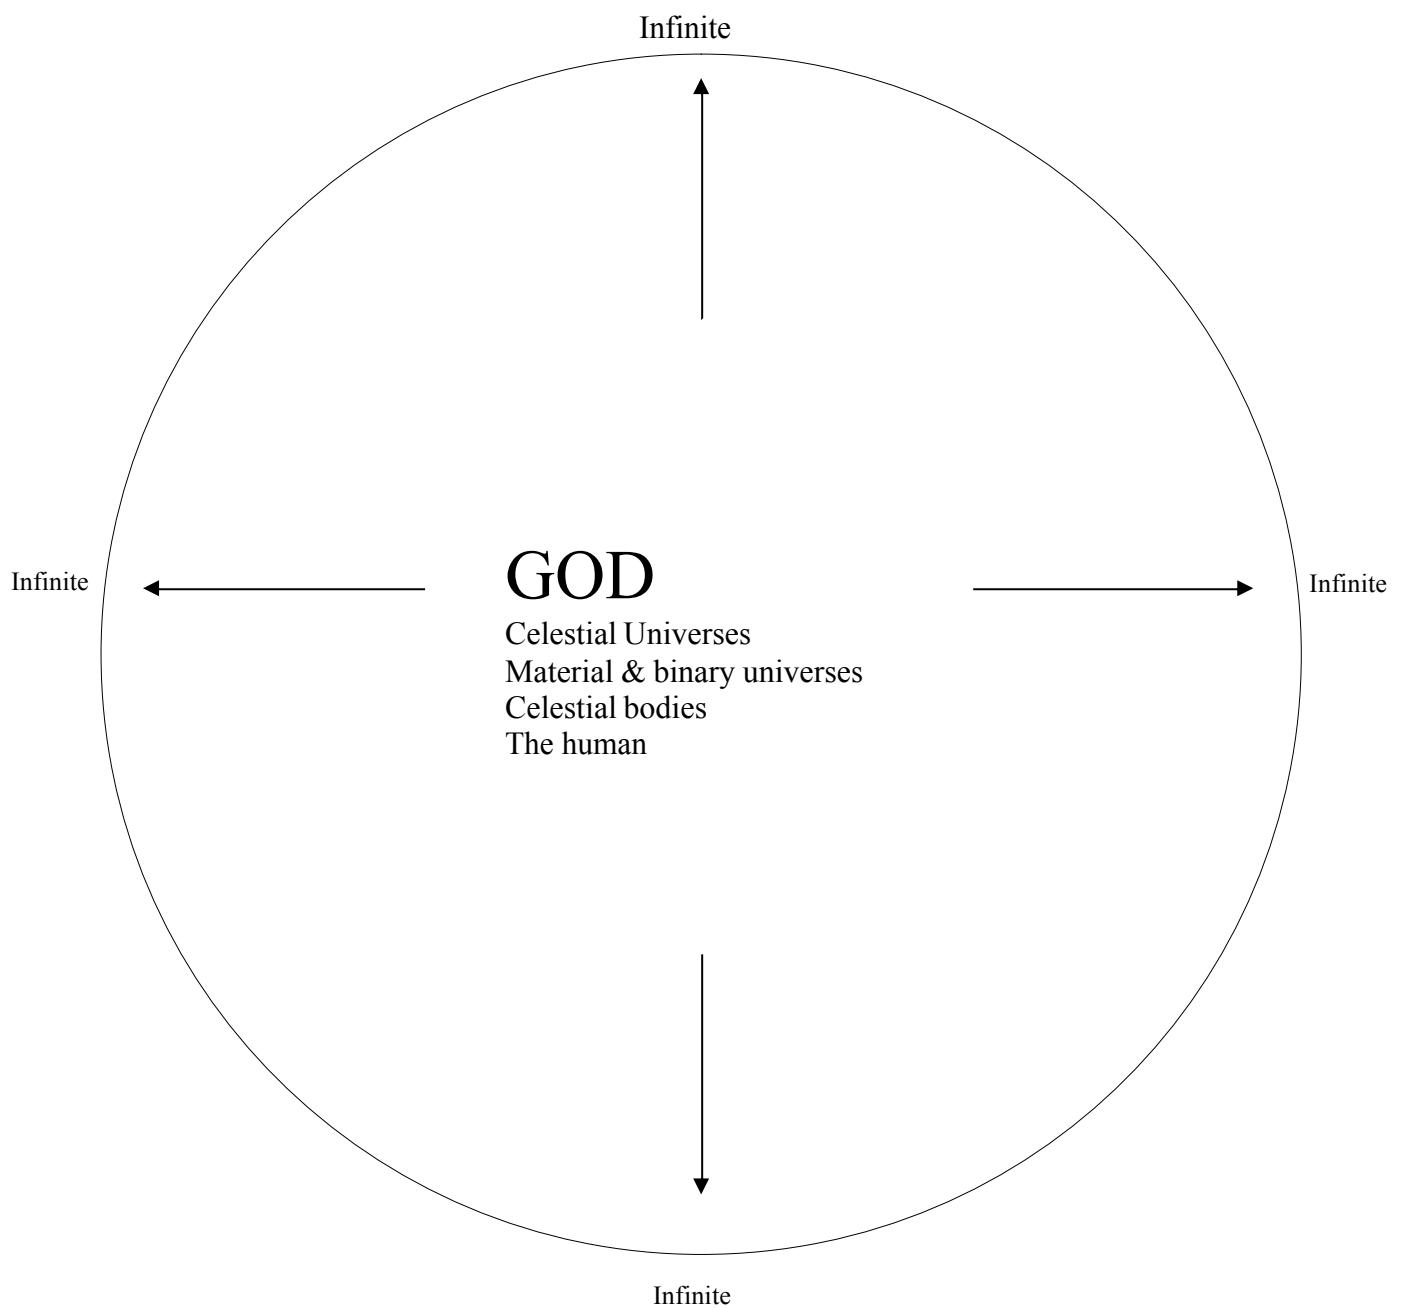

Do we not say to just pull of GOD it is:

Omnipotent, omnipresent, omniscient.

It is the first to reveal truth to men, which remains an axiom, we live and operate within all of God.

If we are not allowed to represent GOD, this is because it is above all and most importantly, spiritual entity. The spiritual essence has no definite form in the sense that we agree on earth as it would for example to represent or give a specific shape to the wind which is simply absurd and simple-minded. On the contrary, to explain more clearly and precisely who is the LORD, I take the liberty of representing the symbolic circle, a representation of perfection,

the avowed purpose of determining the over all existence, by relation to man and so that it is and have a clear idea of the harmony that binds him to God, knowing where he is. In essence, spiritual entity FIRST, GOD has sprung from the beginning of nothingness, having somehow "self generated", and gradually filled the entire nothingness, which it took place. Since its shape and "size" can not be defined because it has become is INFINITE.

- GOD contains in himself the different worlds, celestial beings, and of course humans.
- It is all made up and contains the whole.

There was at that moment that God, as we respectfully call the Holy Spirit, one spiritual entity.

The first moments have been utilized to realize fully the LORD wanted to pursue his creative and innovative, adding him since he was now all of the existing space, regions or celestial universe, and as spiritual beings. But for this it needed to emerge from its divine essence, the creative principle.

So to fill the emptiness of all existence of anything, which is the component, the LORD, whose essence is a spiritual union of five spirits in one, five or divine sources, each with specific skills, giving a unit in their extraordinary power to the Divine Being, use one of its sources or divine principles, to form in him a being of light, which is itself the representation. It is as if the LORD GOD was in a split or self-generated again, so that the double divine act, be and become the Word, God the Creator.

God has therefore again somehow from one of the five divine sources, self-created, giving his new representation, his new self, a new spiritual form with other skills, have always been its spiritual essence the same qualities and especially the life-giving source and the creative principle. This first of BEING OF LIGHT, which is none other than God himself, is best known men as the Word, God the creator of all things, the only Son, the Word.

It is written:

In the beginning was the Word and the Word was with God and the Word was God. It was in the beginning with God. All things were made through Him, and nothing has been done has been done without it. In him was life, and life was the light of men.

You know now, the first Being of Light, is none other than the Holy Spirit, one God, the firstborn son. Having its divine source quickening which he alone is the possessor and dispenser, it is also the creative source and origin of all lives. Under this new spiritual form, that of the FIRST BEING OF LIGHT, GOD proceeded to the creation of five regions or celestial universe.

The intentions of the FIRST BEING OF LIGHT, were put in place universe or life is good, reflecting the underlying personality of the LORD, based on kindness, affinity, peace, love, justice, the humility, self-giving. Nature is exuberant, vibrant, the atmosphere exudes a rich fragrance. The darkness is naturally absent, because in these worlds, the light always shines and the temperature constantly tempered.

These celestial spiritual universe, created by the Son to his kingdom itself infinite, were founding principle, the data related to eternity, or can only evolve as spiritual beings or celestial beings (angels) are allowed. Once these heavenly universe created the first BEING OF LIGHT creation of principles from which he is owner and invigorating his source in his divine essence, FIVE CELESTIAL ENTITIES he placed in their breasts, so that 'they will each assume stewardship. And to help them in their tasks, the Son created assistants I call heavenly angels.

God created them ALL, spiritual celestial bodies on the same principle that he, with base in its spiritual essence.

No being, it is heavenly, spiritual entity as we created in the image of God, that is to say the same divine principle that God himself can not live if he did not received the spark of life from the life-giving source whose God is the sole owner and sole propagator.

Therefore, only the Son, the first being of light, creates and gives life, being itself the Supreme Being.

After this first phase, or God has confined its creation, universe and celestial bodies celestial or heavenly kingdom, that is to say, by placing them at higher chain of evolution and spiritual elevation, area or spiritual entities can access after having purified their spiritual essence.

God, or rather his other self, the first Being of Light, decided to create a world of lower level, giving this region a new texture different from previous ones, ensuring that the material that

composes or any other but also for a close link is maintained. Unlike other spiritual worlds, this one will be twofold, both material and spiritual.

Birth of our universe-bit hardware. To develop this chapter, I will use two data, one spiritual, the other materialistic.

The enthusiasm aroused in decades various discoveries, new interpretations on the creation of the universe is such that men through scholars, researchers have continued to make sustained attention. Certainly, if the answers on the subject does not furnish a new light, it is obvious that one should in my view reflect the sacred texts, and scientific data. The assumptions are many, and scientific explanations of the creation of our universe, taking into account as a starting point the big bang, can penetrate further and to penetrate into this mystery party. But again, the debate is passionate, and many researchers showing greater rationality to incorporate after careful consideration in their activities, data related to divine revelation.

The different religions, through the data transmitted by the LORD to the prophets, and transcribed in the sacred books, without making any tangible explanations, merely relate specific facts, patents, concerning the establishment, leaving the men aujourd 'Today in the expectation of a truth that not only is expected, but also seems incomplete or undeveloped. It is clear that their primary mission is to know God, to bring the importance it accords to men, interest and love he rocks at them.

But if some truths are not yet accessible to men, because of their inability to analyze other than materialistic terms, they reveal little by little, since the analysis will be data-spiritual, the As of advanced technology and people's desire for human progress and improve his knowledge.

Do not forget a basic fact. GOD, SPIRITUAL ENTITY par excellence, has always addressed to men as such, and never otherwise. Therefore, understanding and analysis of his remarks can be understood by men, until they admitted that they are above all of them as spiritual beings and not beings of flesh.

This is not because science can provide explanations tangible, specific on a particular phenomenon or mystery related to the creation of our world, let alone the existence of God, that we should at the obviously denying reality and obscure the divine origin of man.

Suffice it to reason objectively, and we like it or not, I'm racking my mind, I can not bring myself to imagine a moment that the man, as some imagine, n would not of divine origin. From these materials, it would be the result of a long process of evolution of matter. This simple assumption to me repellent to me backward.

Some researchers have gone to the theory that the initial void as such was not because he had done in his bosom a minimum energy, latent, fluctuating, which gradually expanded, increased in power to give birth to the famous explosion that we know.

Others, starting from the same hypothesis also specify that the initial universe was bathed in extremely cold temperatures, near absolute zero. Research in the laboratory, using complex devices, highlight hitherto unknown reactions. Absolute zero, or extreme temperatures, slowing the movement of cells, atoms, but in no case does make static. They remain alive and can move slowly. When the concept of vacuum is increased, or supposedly so, it is clear that particles are endless. They are certainly far from each other, thus accentuating the concept of nothingness.

Although it has been created, we must recognize that even matter at this stage, can spring from nothing on, to give birth to particles, atoms. Thus absolute zero has sprung matter.

Now I know to have penetrated the hidden truths that at the beginning was GOD. We must also understand that God, spiritual entity, is also by the extent of his being, his divine essence, a spiritual saint, an infinite spiritual realm.

You know now that we all move in this realm infinity.

This universe saint, is in no way comparable to ours because of chemical elements consisting of particles of a different nature. Some atoms in their composition have a totally different atomic mass, and some vibration totally dissimilar from those encountered in the material world of ours.

These two assumptions, based on scientific data, have this for them is that they approach the truth.

You have now understood that the various celestial worlds or regions, created by the first BEING OF LIGHT, were within the HOLY INFINITE UNIVERSE.

If the concept of nothingness in the deep and noble sense of the word has a purpose, it does not warrant that the period which preceded the advent of the SUPREME BEING. Since this word has no reality, no rationale, because since the void as we understand it, the absolute void, no longer exists.

So if the Son has completed the creation of our universe, it was used for this task, elements, spiritual universe particles previously created, combined them, causing a huge explosion, it was expelled from the area spiritual outside of the five celestial regions, the final goal, giving birth to a new universe.

But this huge explosion mingled elements and particles outside the five celestial regions, which somehow evolved in a virgin area.

These elements, atoms, cells were mixed at the heart of the gigantic explosion, giving rise to a new universe with different properties of the previous, which is characterized by bi-polarity.

This universe is composed of two interpenetrating parts, one physical and one spiritual.

BINARY MATERIAL WORLD was born, this world of ours.

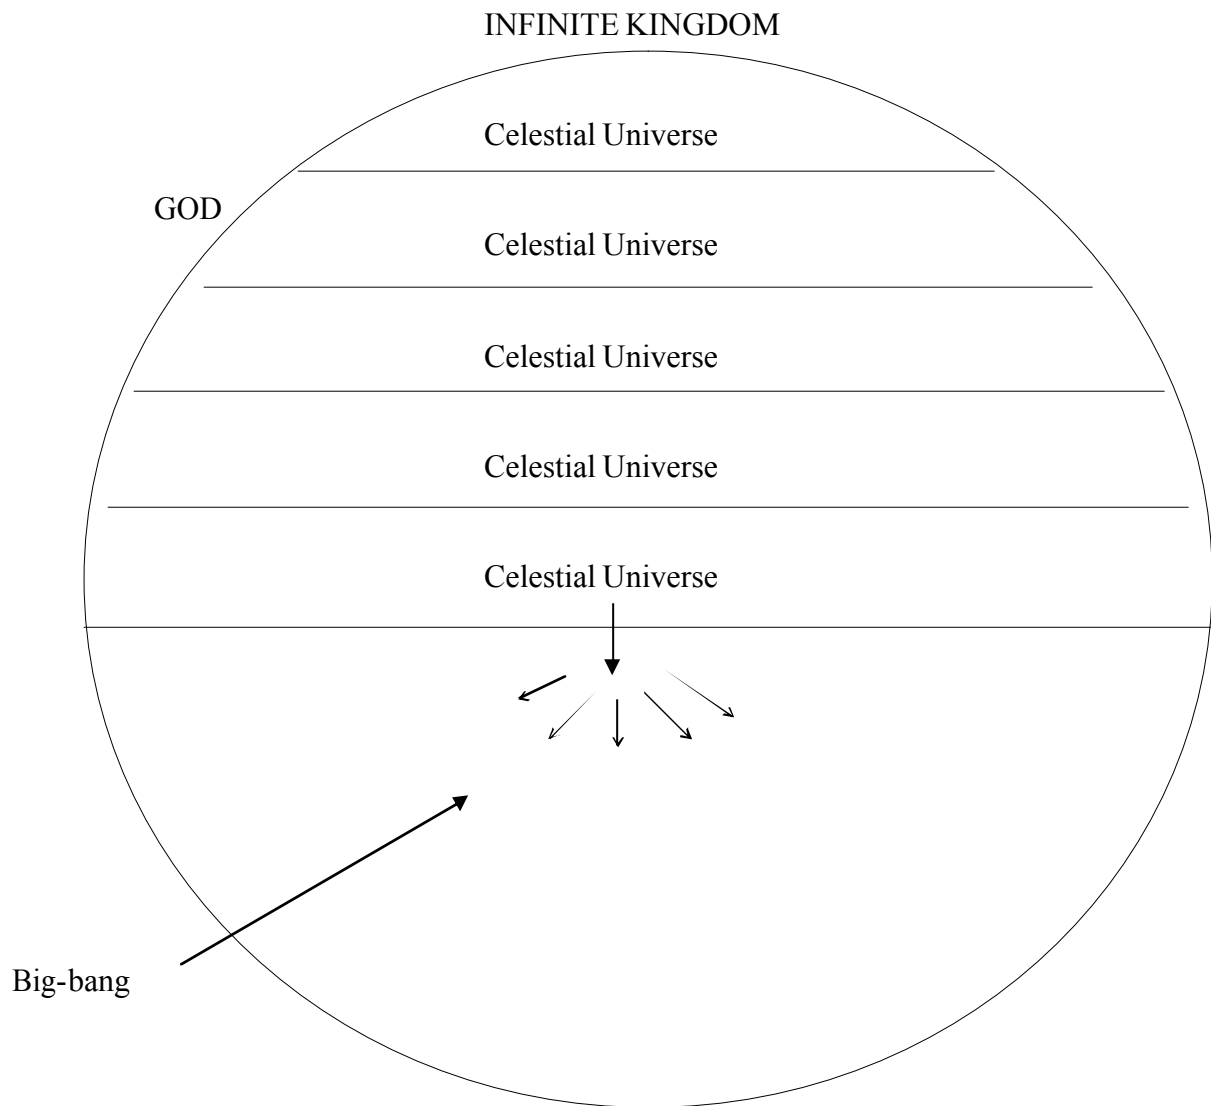

The moments that preceded the big bang are finally revealed, and shed new light on real and what was the creation of our universe-bit hardware.

ORIGIN OF OUR UNIVERSE

- (1). Universe reserved for holy spiritual beings, free from all stains.
- (2). Expulsion of molecular compound elements, which will create the big bang.
- (3). Birth of our binary universe.
- (4). Original explosion, spread of the original kingdom, then creation of the binary universe, to which the earth belongs.

ORIGIN OF THE MATERIAL-BIT UNIVERSE

Original blast, spread of radiation in all directions. Creation of the material-bit universe.
In the original blast, other chemicals were mixed with compounds of the holy universe and the infinite kingdom.

We ignorantly thought very long, there were only the visible side of our universe, that we know that we see, we are exploring with our rockets and we seek to know better. With no rational explanation given as to the existence of the holy spirit world, we remain blind because we are immersed in matter. We have weakness or convenient denied its existence. To take as a starting point for science, the latter admits not knowing the exact component of the field after the spiritual world, but the solution to some researchers believe, requires the existence of elementary particles have low interact with ordinary matter, at least that we know.

The intruder, admit they would be the neutrino, an elementary particle, electrically neutral, which is decoupled from the original material a few moments after the big bang, like many others elsewhere, such as organic molecules, with within them the properties that were thought previously only available to the worlds of the living, as a signature of life.

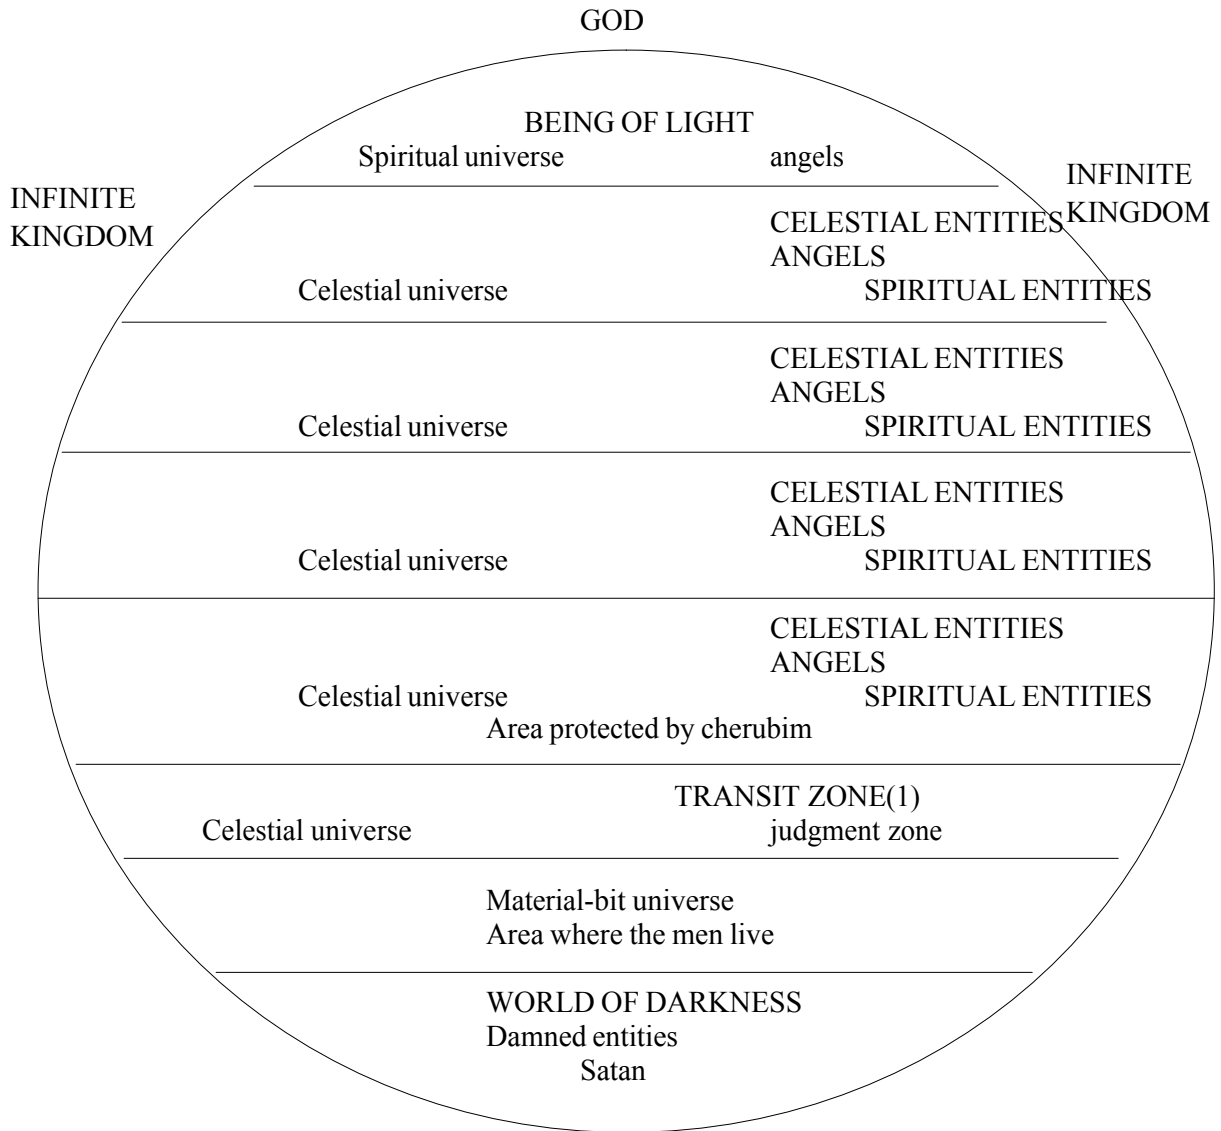

If the neutrino has mass, then it could be an important part of missing matter. We enter no doubt in the spiritual world, since a component element structure penetrates our material world, even if we are not possible to detect that from hyper-sophisticated devices. For it must be clear, the neutrino is an element that runs through the area.

But remember that our material universe-binary comes from a double combination of elements from the celestial world, and those of gravity in the celestial kingdom. Men do not know matter what they see as any object or substance with mass, shape, weight. For them, it can not be that heavy, solid, palpable.

Scientists, even if they are still in infancy, admit the existence of another aspect of the matter, even the optical instruments can not see, let alone identify, except perhaps be the neutrino.

Researchers try to find, enter, what may be many years from now what they call the "missing mass of the universe." Given that our universe is bi-polar, consisting of two parts, one material and one spiritual, the two interlocking parts, we now have the answer.

GOD OR THE INFINITE KINGDOM

(1). The transit zone is the place where the spiritual entities reach , when they left their bodies, after they die.

This area is also the place or spiritual entities are directed and judged according to their deeds on earth.

Once the binary material world completed, GOD, the BEING OF LIGHT was pleased with this achievement and decided the same way as other universes of higher levels previously created, to place human beings. He then created spiritual entities to its "image", to borrow a term used in the various holy books.

Contrary to what people think, image must include a perfect representation of a being identical in all respects to the BEING OF LIGHT, that is to say, spiritual entities and not as many seem to believe, be one of flesh and blood.

The spiritual essence of the BEING OF LIGHT, in no way the human body shape as the man imagines. This idea is false, and can lead to error, confusion and lead to misinterpretation of the truth in lending GOD a shape that he had not.

GOD could have created us differently, giving us an essence other than his, but he wanted to act as he did, we show his love and attachment that carries us, in us creating identical to him. He wanted us to know that a strong virtual link us to it, and so we did not forget. That is why he spoke early alliance.

Give our fleshly envelope the importance it should not be at the expense of our spiritual essence, is a fundamental error. This lock us in the blindness we ensnare more in the area, forbid us, by remaining locked up, to become aware of our reality, our true essence, our real self, the spiritual entity of created identically, with the image of God.

I indicated a moment ago, the love we bear our Father, God. By creating us in his image, he gave us a gift far more beautiful than anything we can imagine. He who is life, which is the sole trustee, in which flows the life-giving source, creating in us the same, he offers us a gift, the fact of integrating our spiritual essence, eternal life. This shows the interest from the beginning that we wore, and the designs he had founded upon us.

God, the first, the being of light, created us like him, spiritual entity.

To create us, the being of light has used elements of his own divine essence, which he added a spark of life after the life-giving source that flows into it, thus giving us the same characteristics as him.

The particularity of our spiritual essence is special, the gift of life placed in her womb, that God gave us, based on several specific non-standard.

The being of light created us immortal like him.

He made sure that our spiritual essence does not suffer the effects of time, remains unchanged, does not move, do not change, not endure the effects of aging, remaining in a static state.

As a spiritual entity, our gasoline does not meet the same criteria as our fleshly envelope, not the same function, do not play the same role. This is the major reason why she has no sex.

The reproductive organ in the sphere has no spiritual meaning, it is completely absurd. On this point we are on the same terms as the heavenly bodies, angels, for example, asexual.

Our spiritual essence is in fact static, that is to say, it does not move, I mean as I said earlier that its molecular structure remains as it was in its design, and does not suffer the effects of time, which affects in any manner while moving. It is both still and moving. The envelope body which she adorns herself, plays for the fact that either materially or spiritually, as a carrier. For if we have an earthly body, spiritually another body adapted to the heavenly universe is offered to us.

God has wanted us to show that he proposes, he himself has done, experienced. Thus, to proceed with the creation of different worlds, he was self-generated dressed for the occasion in the form of the being of light.

Similarly in our case, we have established him as a spiritual entity, allowing us following the case, we are in the spiritual world or the universe-bit hardware, to assume a specific body, adapted in order to will evolve.

But the specificity of our spiritual essence, like the fact that it passes through matter. That is why God gives us a body, so that we can on earth to spend a period of study. In the spiritual world, the body that is offered in response to the specific inherent in the heavenly zone, has no connection with the carnal envelope, because there the body that we did not have sex, and takes a different form on earth.

In our material universe-binary, the human body with male and female, plays essentially the role of procreation. The man and woman coming together, creating a body (baby who will serve as a receptacle, a vehicle for a spiritual entity who has incarnated to learn lessons on earth. This feature is unique to our world, and does not in any way the heavenly universe.

Also, so that we can evolve, we move, move on earth, the being of light has created a human body using for that matter, perfect component, from the earth. I am of course referring to the planet earth. As I said earlier, our spiritual essence with a special molecular structure, through all matter. That is why God has used to unite the human body, a third element to the data close to our spiritual essence, and our fleshly envelope.

Christ brings about this new clarification and said:

That which is born of the flesh is flesh, and what is born of the Spirit is spirit. Then God gives him (the spiritual entity) a body as he pleases. All flesh is not the same flesh, but there is one flesh of men, another of beasts, another of birds, another of fishes, the other spiritual entities. There are also heavenly bodies and earthly bodies. But another is the brightness of celestial bodies, the other terrestrial bodies.

To evolve in the physical land area, the being of light was given to the entity that we are spiritual, carnal envelope. But to be united, while the body comes from the land and meets the criteria of the terrestrial environment, and not enough properties to accommodate us, so we can accommodate, God is bound us adding an etheric body which combined elements have a dual chemical composition, both close to those of our fleshly envelope, and those of our spiritual essence. The latter thus plays an essential role in the union of three parts.

Spiritual entity + + etheric body. It is through the etheric body, we can be connected to our fleshly envelope, and without which we could not have total control.

Saint Augustine wrote:

Modus quo spiritus corporibus member comprehendi ab homine non potest, et hoc tamen is home.

The way the mind is united to the body can not be understood by humans, and yet it is man. Now you know.

Once completed the material universe and celestial binary-created entities celestial and spiritual, as well as fauna and flora, a major question is:

We now know that is the only true God, we also know that in essence it is possible to multiply, to split, to transform, being a "union" of seven entity of light in a single BEING. So in all of creation, where is he, where is he?

Christ gives us the answer.

Understanding that Christ was God come to earth to teach and bring the truth to men, release and save them, we shall see all this.

His answer is clear.

I am the light that enlightens every man.

I am EVERYTHING. EVERYTHING came out of me and EVERYTHING has come to me.

Split wood, I'm here.

Lift a stone, you will find me there.

These words are explicit and enlighten us. GOD is everywhere and in everything. This is the only being capable of the composition of its spiritual and celestial light, and one of BEING OF LIGHT able to enter into the composition of all things be content and container, for

containing the infinite realm containing all other world and heavenly-bit hardware, the bodies housing the spiritual and celestial bodies.

Sole possessor of the life-giving source, it provides the seeds of life to various entities, celestial and spiritual, without which none of them could live.

However, we must differentiate the scope, rationale, sparks or seeds of life. Out of GOD given to plants, flora, fauna a spark of life whose existence is limited in time, so they are men of devotion.

On the contrary, the germ of life as being of the universe was implanted into the essence of the spiritual entity, is granted for eternity. This shows the importance that God gives and manifest respect for the man.

This is the first facet of GOD.

It may at the same time as we have seen above, take the form of the being of light, moving around the infinite realm happens to be somehow divine essence and its "body".

This is why Christ told the apostles:

If asked, what is the sign of your Father God, say.

It is a movement and rest.

If God, the one and only true God is in everything, fauna, flora, material such as it is in humans, especially in the essence of the spiritual entity as we are.

The human body, as well as plants, flora and fauna, in the service of the spiritual entity, a spark of life that has been granted for a limited time. Deadline for the spiritual entity to evolve on Earth. Then it is withdrawn, the body is found lifeless in fact. The man calls it death. As you now know, death does the carnal envelope.

So if you want to talk to God, you need to turn in all directions, or look towards the sky, made it as a spiritual entity, and turn inward to yourself, because God is there.

That is why it is said of God, he is omnipresent, omniscient, omnipotent, eternal. All that the LORD has done has been with great love. This is the spiritual beings that God created through love. He has maintained this condition despite our wrongdoing, and no feeling in it by men.

One question often asked by people on the fundamental reasons for his presence on earth.

The main reason goes back to Adam and Eve. These have disobeyed God, did not understand the lesson that we passed the LORD, neither penetrated the deeper meaning. By their attitude, not only have they condemned, but they also proved to God that they were like satan, spiritual entities unstable, able to create disturbances in the celestial universe, and thus to impart wave or negative masses. Taking off to the celestial sphere, its total cohesion, its rationale, its purity, based on the well-being, rest, the affinity between the entities, the love that must prevail and the atmosphere full of perfect serenity. Because of them, the balance was broken. Therefore, the LORD settled on Earth, with punishment to repent, to learn the lessons necessary to purify their spiritual essences and this harshly. It goes without saying, that being their descendant, we inherited the original sin.

Access to the heavenly plan is subject to purifying our spiritual essence, the rejection of all that is material, the forces of evil and rebirth in the saint as a spiritual entity. The spiritual rebirth is the result of beneficial actions performed on earth.

And God created man in His own image, that is to say, spiritual entity like him. He has wanted to express his love, and make him aware of the importance he attaches. We are His Son, as coming from him, and us with its animating principle.

By the time Adam and Eve lived in the Garden of Eden, rather than being in the spiritual world, who interpenetrates ours, and had not yet biological body. This is a result of their disobedience to God, after they preferred ignorance to believe and listen to the prince of darkness, that the Father may be moved from this mythical place on earth, after having created a body using this material for composing the soil of this planet.

God placed them on earth, so that they realize the enormity of their error, they measure the scope, extent and negative consequences that their actions could produce for them and for this world that St. ' they lived, and which should remain safe from all impurities. No waves or masses negative, some negative acts should be committed. The evil in all its forms can not penetrate. That is why the father was cherubs whose mission is to prevent BEING with the evil in him to have access. By placing them on earth, the father also wanted to follow a series of tests, whose purpose was to help by being confronted, they are overcoming them and thus they eventually reject evil in all its forms. They purify their spiritual essences, and finally they return whence they came, the kingdom of God.

As descendants of Adam and Eve, we have somehow benefited from original sin like them. Our presence on earth is subject to the same criteria. Not only are there are theoretically only temporarily, while depends on the uncertainties due to our behavior, our attitude, our actions, but our ultimate aim is precisely to return to the kingdom of the Father, to remain there forever. Original sin is imputed to us did. We shall see later how to purify our spiritual essence, and how to strengthen our resistance against forms of evil, while consolidating our gains through the events encountered throughout his life. The latter are designed to help us avoid the traps laid by the evil beings, whose ardent desire is to keep us trapped in this material world, making us believe that there is no other.

We are spiritual beings, the term is more precise because it refers to BEING himself discusses his real identity, and distinguishes the spiritual being acting in the body which is only the receptacle, the vehicle . I prefer the term spiritual entity, in analogy with soul or spirit, that men do not catch with the actual truth. The latter does not allow a man to join, on the contrary, he feels like talking to someone else, or something which it is attached. The term entity means we really spiritual and therefore constitutes our ego, our representatives to be spiritually alive.

Our body is therefore its true role, fulfilled its full function of the vehicle to enable us to evolve in our universe governed by the material, which is itself derived.

But the man through the centuries, eventually forgetting their true identity, identifying with his body, taking it.

Imagine a motorist, who ask you to tell you who it is and you answer:

Me, but I am a Renault.

Sad is not it?

It is written:

It is the spirit that quickens, the flesh is useless.

When you see who you look like, you rejoice. But when you see your images (photos, you represent) those who were before you, which neither die nor become manifest, what size.

This is about you as a spiritual entity.

These words of Christ are clear, crisp and clear, because they want to bring people to remember what they were before their current state of human being. If they remember, and they revert to what they have always been, spiritual entities, becoming close to God himself, they are from the divine essence.

Blessed is he who is conscious, and behaves as such, it has attained enlightenment. That is the essential message of these words. Remind yourself as you were before taking a human body, review you be spiritual, review your original spiritual essence true, and you've taken a big step towards your back toward the infinite realm, to your father.

To illustrate, ponder these words of Christ:

Blessed are the unified and politicians, as you will find the kingdom, since you are from him, you will return.

Not without reason if the stresses and Christ, because his primary concern is to assist and lead men to remember where they come from, what they are. They finally enter the data essential for awareness of the realities of the truth before they can finally wake up from the lethargy into which they are bathed in decades, which has the effect of keeping them in blindness and ignorance. It is time that man ceases to believe it is the only intelligent thinking being in the universe.

In asking us to watch our image or our photo see our representation, what we really intended to make us ask the right questions about our true self, while making us aware that we are not this world, and thus lead us to change our behavior, that is to say, abandon the bad, the various violent actions, nasty, cruel, whose consequences keep us trapped in this material universe.

Also remember that you are spiritual beings, and that your body is nothing but a vehicle, receptacle, a fleshly envelope.

If the Father has given us a human body is a major reason. As a spiritual entity, elements chemical, biological essence of our having a different molecular structure of this existence in the material universe or we live today is such that without the outward man, we would cross a natural area and could not therefore remain. So in order to evolve on earth, God has given us a body so that you can either live there.

When Christ sent the apostles teaching, he went slowly. This is the first time that men could penetrate the mysteries of heaven. A revelation size was transmitted. By addressing CHRIST-GOD opened a corner of the veil that remained hidden from men, and brought them finally to know the actual composition of the TSE. On the other hand, he wanted above all to reveal new data concerning the divine essence of man, and the vivifying principle which connect to the Holy Spirit, the divine essence of God.

Hence the question he asked the apostles:

That one of you finds the strength to stand up to me and reveals the spiritual being within him.

The lights appear to man and the light within it is hidden. In the image of the Father's light, it will manifest itself and the image will be obscured by the light.

Hinduism added:

If men can know God is that they are of the same nature as himself. They are the duality of the creator. They were responsible for themselves, a spiritual principle hidden (soul, spirit) what they really are.

Now that truth has been revealed to men, they finally know what they are, it is now important clean them, to renounce the forces of evil, because they suffer the effects and especially the consequences.

To restore the truth and to lift the veil of the true intentions of the Gnostics, the last real Son of Satan, I'll tell you what they are capable of doing, to maintain the blind men and prevent them from moving towards the spirituality.

The latter example, deliberately changed the word of Christ, with the obvious aim of creating in the minds of men a profound disturbance, which would lead to reject the teaching of Christ, to detach, and therefore away from the truth.

In writing the Gospel of Judas, the Gnostic not only denied the divine mission of Christ, but also changed the actual scope of the Magisterium of the being of light, pretending that it was a mere mortal having worked for personal and transmitted knowledge incoherent with no real consistency.

Judas really betrayed Christ, and it, verily I say unto you, really came to liberate and save mankind.

To prove that the Gnostics were deliberately paint a false picture of Christ, and modify the teaching of the Divine Being came among men, by writing a false gospel, and giving written by the traitor.

I'll take a passage from the Gospel of Judas, specifically where Christ is supposed to be a traitor, that some men are mortal and not others.

Verily I say unto you, these words are not the being of light and you will understand better now, given what I've shown above.

That is what this passage says apocryphal.

"The souls of every human generation will die. But when these people have consumed their time in the kingdom, and that spirit will separate them, their bodies will die but their souls will receive life, and they will be swept up.

Judas asked Jesus:

The spirit of man is he mortal?

Jesus replied:

It is impossible to sow grain on rock and reap the fruit.

Judas asked Jesus:

The spirit of man is he mortal?

Jesus replied:

This is why God ordered Michael to give the minds of men, as a loan, so they can offer their service of devotion, but the Great Spirit ordered Gabriel to give the mind to the great generation without a king that is to say, the mind with the soul. "

This text is apocryphal and heretical.

That is the truth, the actual words of CHRIST, one that reveals the mysteries of man, he said, and what will happen. What happens to the body, and spiritual entity.

"The envelopes flesh of every human being will die. But when these men will have consumed their time realm (have completed the time given to them on earth) and the spiritual entity separate them, their bodies will die, but their spiritual essences receive life, and they will be removed in high.

This is why God ordered Michael to give the seeds of life to the body as a loan, so they can offer their service by devotion (the body being in the service of the spiritual entity). But the Great Spirit ordered Gabriel to give the spark of life to the great generation without a king (spiritual entities) that is to say, given the spark of life to the spiritual entity to bind the germ life to the spiritual essence.

That is the true word of Christ.

The Gospel of Judas was not written by him but by the Gnostics, they have always been opposed to the truth, speaking and teaching of CHRIST. This is come to bring light to men, let alone release and save them. In writing this apocryphal text, the Gnostics knew they would cause a disturbance in the minds of men. It was precisely the objective sought, and ultimately make them turn away from true God. They have invented one, created from scratch, the obvious purpose of attracting men in the wrong direction, one that leads to destruction.

The heretics around the gospel of Judas the traitor, even pushed to the Vice claim that Christ needed the help of the perfidious and treacherous Judas to discharge its carnal envelope.

To suggest that Christ needed the traitor to free himself from his earthly body, is not only a heresy, but if it proves is that the Gnostic heretics were ignorant of heavenly mysteries, and especially not only unfamiliar GOD, but mostly they did not know the divinity of Christ.

To all those who wish to penetrate the mysteries of heaven, I'll reveal the truth that no known already. Christ was truly God. The One God, the being of light on the origin of all creations.

He came to earth humbly is making "man," bring light and reveal the mysteries of heaven.

To awaken the consciousness of men despite multiple contacts with the prophets, the latter acting as relay mission was to retransmit all received words of God, without omitting a word.

But not only this was not the case, but the prophets did not fulfill their task properly. The being of light had no other solution than to come among men. It was the only option, the safest and efficient, able to bring men to listen, finally waking up. They could now be saved. It all started with the birth of Jesus, Mary, having been warned by the angel Gabriel, the birth of the next child she would give birth, and the role he would play. But I can not write a book about the truth, and silence is important and ignored homes.

The spiritual entity that has been put on the body, the baby Mary was a celestial entity level, because the mission that the being of light he was assigned, was to prepare the body and keep the envelope carnal in a perfect state of purity. Only one entity top "lineage" could be embodied in this body, because the purity of the resultant state of complete purification of the human body, is the cinema qua non condition to enable the being of light can penetrate the right time. The celestial body, first and last occupant of the body of men received the name of Jesus.

During the first years of its existence, celestial entity Jesus made sure by his behavior, attitude worthy of his high spiritual level, prepare and preserve the body for the big day of the coming of Christ.

That day, John the Baptist at the Jordan, proceeded to the baptism of these people, when presented himself, the entity incarnate Jesus. When John the Baptist baptized Jesus, a divine manifestation occurred. Through baptism, John, was to purify the body.

That is what he saw:

I saw the Spirit descending from heaven like a dove and abode upon him. Then the Holy Spirit entered the carnal envelope. The celestial entity Jesus ceded control of the body to the being of light. The teaching of Christ begins.

Satan, master of evil, enraged to learn the coming of the Lord, has its temptations tried to thwart the beginnings of terrestrial beings of light. After the tribulations he has undergone, Christ answered Satan.

Thou shalt not tempt the Lord thy God.

Accordingly, we find that the Holy Spirit took possession of the body, Jesus celestial entity giving up the place and control the carnal envelope. As we have seen, the being of light entered freely into the body prepared by Jesus, and can now move among men.

The being of light, the one God, is best known men in the word of Christ.

During the time that Christ spent among men, in addition to teaching he sent them, the revelation of heavenly mysteries, he has sought to make men aware that the data were revealed words of truth. Besides the men themselves, had noticed the different nature of the remarks. The role of Christ, has many dimensions.

Besides what I have revealed above, Christ knew that man needs to see one of his own act differently, behave differently, make a profound words of meaning and truth to believe. And finally, put an end to the first generation of men putting up the new generation, to which we belong. CHRIST course, set up new perspectives, and allowed men to be freed from the clutches of the prince of evil.

The first phase of the teaching of Christ began on earth, among men, and most important has continued and has been implemented in the celestial universe. But it is a fundamental of the utmost importance, it is the latter.

The major world is not ours, but where is the being of light, celestial entities, spiritual entities holy angels. Our universe is not anti-chamber of the main universe, it is somehow the hyphen. The second phase started when Christ was on the cross. This episode is a major character because he has created an awakening of conscience, this salutary shock, allowed men to get out of the lethargy in which they were immersed, and measure the outside dimension of the standard DIVINE BEING.

Here begins the major action of Christ. As freely and easily the being of light has entered the body prepared by Jesus as easily have been the start of the carnal envelope. Leaving the body then nailed on the cross, Christ, the being of light leaves the body in the celestial entity, first occupant of the body, I named Jesus. Confused by this departure, and felt abandoned, the celestial entity Jesus reads:

My God, my God, why hast thou forsaken.

CHRIST-GOD leaves the body before life there is removed, because life with him in his divine essence, is itself life, as he remained in the body, death could not occur. That is why the being of light, Christ, leaves the body and leave the body celestial Jesus.

The being of light leaving the body and the material universe, travels to the spiritual world-binary to meet the spiritual entities who remain trapped, and which are part of the first generation. Christ did he not say:

I have other sheep that are not of this fold.

Now all spiritual beings who lived on earth since Adam and Eve until the advent of Christ, and in fact are part of the first generation, have remained trapped in the spiritual world. None have had access to the heavenly universe. This is why Christ went there too, they bring good news and free too.

Therefore Christ, again become the being of light, has established a major act.

It relies on the establishment of a road giving access to our material universe-binary to the hitherto inaccessible celestial universe. Christ had told the apostles:

I'll prepare a place.

By raising the earth, the being of light wished to demonstrate his divinity among men, by creating in their minds a salutary shock, so they definitely know the truth, and finally they walk on the path of CHRIST . On the other hand it back was to make men understand that God always keeps his promises, and he wanted to consolidate the place of love. The alliance that CHRIST-GOD put in place, took all its meaning. Then leaving his apostles, Christ made a promise to return.

This promise, the being of light was given. But there is a fundamental understanding. Man must remove from his mind, that the material universe-binary is the only existing. Our universe is not the only, but remains the smallest, least developed and least advanced in spirituality of all worlds. Now the area of evolution of spiritual beings is naturally in the celestial spheres, and equipment out of the plane where we reside.

Therefore you must understand that Christ came back, never spoken of in material terms, but refers to the spiritual plane that we interpenetrates, which remains invisible to us. In this spiritual space that prisoners are held all spiritual entities, good and bad, having lived in the material since Adam and Eve until the advent of Christ, and called the first generation. CHRIST like you come to understand it, is really INCOME as he had promised, but by visiting this spiritual space. He also told the apostles:

I tell you truly, you will not have gone through the cities of Israel, the Son of man comes. You know now who is Christ. It is the being of light, he is the GOD, the one and only true God.

The last act of Christ as he left the world of men, is a powerful dimension, because it is major. On the one hand it is to the being of light create the place hitherto non-existent between the material universe-binary and the celestial spheres, the doors were closed infinite kingdom far, and secondly Christ has given to answer the call of spiritual beings trapped in "hell", which happens to be as I said earlier, the spiritual and invisible side of our universe, the part that we interpenetrates.

I have another revelation to make to most men. Not only Christ has already returned as he had promised, but it was by this return, to make that final decision. Men in their ignorance, until these two phases, which have already occurred, as I will explain later.

MAN wake up and watch.

Before turning to more reliable data, those that allow people to find and walk confidently on the path to light, this road safe, secure and safe, let me tell you what will happen to the man at the end his earthly life. This topic is very important because it brings to any entity or not prepared, or when it releases its carnal envelope, to the last breath of the latter. The men call the wrong moment, death.

As you see, death does only that the human body, for us, spiritual entities, we continue to live under another form, and continue our lives in another universe, spiritual one.

As I said earlier, God gives to every man who has attained the state of alert, to penetrate the hidden data, to see and hear new things and hence relay to turn to information to the rest of humanity. The primary mission of this man, if light is to make men prove the truth of the Word of God, so they know that whatever the Supreme God says is true.

Christ said:

Anyone looking, always looking until he finds. And when he has found, it will be in turmoil. Having been found, he marveled, he will reign over all.

Recognize what is before your face, and which is your secret will be revealed to you. There is nothing hidden which will be shown.

He who seeks finds, to him who knocks on the inside, it opens.

He who drink from my mouth will become like me, and I'd be him, and hidden things are revealed to him.

Also, if God made me know what happens with spiritual entities when they leave their earthly bodies is to enable them not only to prepare, but also to give the ways for men to know the truth, which in this case has many aspects and is designed primarily for unbelievers and atheists.

This is to bring men demonstrate their continued existence in another universe. They know that life after death 'is fine and well, that the afterlife is a reality. In terms of our behavior on earth, we are directed in specific directions, the wicked, those whose works focused on evil, go to the world of darkness where Satan lives, and good will towards the holy universe .

Advise skeptics, atheists, what will happen at the precise moment they leave their bodies. I would like to clarify them, those who assumed that the death was an end, their surprise and astonishment will be enormous, when they find that they continue to live in their true form, that of spiritual entity. They know when they were in error.

I will now tell you that fateful moment that I actually lived this moment I left without knowing my body, and found myself in "the beyond".

Social Worker at night, I operate in a social hostel managed by the association EMMAUS, located in the 10th arrondissement of Paris. As always, the day I took the subway station Laumière, and I'm sitting on the seat center, opposite the entrance door of the car. As always, once the metro starts, I open my journal and begin to read until Jacques Bonsergent station where I must go down. The train stops once, then again and off again when suddenly, without which I can explain it, it seems to me briefly go through a black hole, and suddenly found myself in what seems to be a hall station.

What am I doing here, I thought? How did I get here?

I looked everywhere, all around me, and do not recognize this stop. But was this one?

The hall seemed to be circular, with large openings Gothic giving outward, located to one on my left, and the other the opposite, is to my right. The ceiling was very high, as the central part of the hotel overlooking a cathedral. The lights were yellow and relaxing.

My surprise was such that I could not understand anything. How was I came here because I was finally sitting in the subway line 5. Everything around me was moving very many people, men and women alike. Upon reflection, I note the absence of children. At one point, I noticed a dimly lit hallway seems it and it comes to my mind, it is surely through the tunnel that I got here.

I must read the name of the station I thought, that thou mayest know where you are. I look at the wall located on my right, and mark halfway up two plates bearing what seems to be the name of this station. I thought, why go to the station where I was down. But when I started reading the plates, they appeared to me unclear.

Ah yes, I said, adjust your glasses.

This is another strange fact, since my view is not only good from afar, but I noticed that since my arrival, it was perfect. My glasses I can just see better up close. Gold plaques bearing the name of the channel remain unclear. And here I must confess that I started to worry.

Where am I said I again?

But how have I done to get here?

In the end, I sent the person in front of me.

Excuse me, I am lost and do not know how I got here. But by reading the plates, the latter seem to me unclear. Can you inform me please?

The person looked at me without saying anything. His attitude surprises me. So without losing my cool or my composure, I turn to another person to obtain an initial response. Ditto, also did not answer. What does that mean, I thought?

As I turned to my right, I noticed as isolated, a lady with graying hair.

Excuse me madam, I do not know where I am, and identifying signs seem to me unclear.

Could you inform me please?

Seeing me, she had recoiled. His face looked at least it seems, is the surprise or fear. Without answering, she turned back, and left towards the exit. Without understanding his behavior towards me, I followed him in repeating my question, I was eager to have an answer. I wiped another silence.

I must know I said again. Continuing my way in the same direction, I found myself in what seems to be a rest area, kind of waiting room. There before me was a row of tables, around which there were people. The tables were empty, no glass bottles or not there. I decided to address the first persons to me. Seated at a round table, I asked my ritual question to a young Asian couple. I wiped another silence, when I noticed five meters away, a group of three or four men, arguing cheerfully. They were informed as more strongly than anything else. While my anxiety progressed, one of them noticed my distress and gave me this answer:

You should look for the channel 13.

Without even thinking, after thanking him, I rushed into the lobby to read the sign bearing the inscription denoting the direction of the channel 13. The problem is that I have not seen any.

There was nothing. What direction to take, where will I find this famous track. So I took a direction at random and found myself following a corridor leading to a wharf located in the basement. I was ten yards from the pier when I saw a train that was leaving.

Too late I said, I missed it!

It is not surprising, I would take a train to an unknown direction, especially since I did not know if it was the right platform. I was already lost, I was going to lose more when I heard a voice say:

Anyway it was already full.

Why anyway? Was this a way to warn me that this was not the right train or track?

I returned to my feet, determined to understand, when another voice told me that I had to go to the police station to have more information. I decided to go in search of the police station.

The finding, I do not know yet how I went and got directed to an officer sitting behind a table.

Hello Sir, I have a serious problem. I do not know where I am or how I got here. I took the subway to work as usual, when suddenly, without knowing how or why I found myself here.

Could you help me please?

Show me your papers and your ticket.

I did so, handed him my papers and my orange card.

I must say that at this moment, I thought finally get an answer. A second person approached, looked at my documents. Both men have worked together for a moment, then the first officer spoke to me telling me he had no response. In other words, I was still in the dark. I then left the police station and myself decided to go in search of the famous route 13.

I again found in the great hall, which assumed for the occasion, the central point to give all directions. I took a few moments before a trip, so I decided to take that which was the opposite, hoping that this time, the channel 13 it was.

The weather was beautiful. There was a beautiful sun. I was so worried about my situation, that at no time did I tried to admire the scenery. Again, there was not too crowded. I looked straight ahead, hoping to see the rails me proving that I was finally at the docks. But nothing, no rails. Strange as it may seem, I was not worried. In front of me, about ten meters, there was like a mound on top of which there was a sort of courtyard.

Without even thinking or trying to verify, I said:

That's channel 13.

While looking, I see a train is now leaving.

Really I thought you all rats. Never mind, I thought, you will take next.

I cast a quick glance around to find the path that Wed will go there. Looking to my left, I hope to find either stairs or a gateway that drive me up the hill or I can wait for the train that will take me. I must confess that I head a little to chance, because at no time have I seen signs indicating the direction or the exact location of the docks. It really is not strange?

And was it a station?

What a strange station I said. I absolutely must find a way out.

I decided to take on my left, and no sooner had I taken four steps, appears on my left, as emerging from the wall and therefore for me to nowhere, a huge locomotive followed by another. I stopped short, saying that I had almost got run over. Then I noticed by looking more closely at this machine, it moves through the air and not on rails. Great was my surprise. Then all became clear in my memory. I finally came to understand. I was finally an answer to what happened.

I AM DEAD, I tell myself. That is why I am no longer on earth.

In fact I had left my body suddenly. I had when I read my newspaper in the subway, a ruptured aneurysm. My death had been devastating. I thought then people who were sitting next to me, they have been very surprised, shocked to see that someone could die so suddenly. Indeed they all rushed to an empty body, since I had left and found myself now in the spiritual world and specifically in the transition zone, where come the spiritual disembodied entities. They are greeted and directed to their final destinations. Yes, I no longer belonged to the world of men. I understand better why people interviewed did not answer. They were mostly in the same situation as me.

Then I thought of the lady with graying hair. I better understand his reaction, she was part of beings on earth who deny the existence of the spiritual universe. These people assume that death is an end, it puts an end to existence and after that nothing. For them, everything disappears. This lady was very surprised that she continued to live, though in a different form, but she was still alive. Finally she discovered a different world, which she did not know existed. Let us just like most men, she denied that there may be other universes. For this lady, the shock has been terrible.

I also understand the role played by those who have contacted me or told me advised. In this transition zone, they act as guides and counselors. Others are established to guide the entities according to their earthly works.

In the case that concerns me, these beings could not tell me exactly the situation for fear that I would react badly. I had to find the one that I become aware of the situation, and where I was. How to tell an atheist to be incredulous and moreover, he left his body and on the earth plane,

he died, and he continues to live under his real appearance, and he now resides in a new sphere of existence. Everything depends of course his behavior on earth.

If God wanted me to live these moments rewarding for the departure of spiritual beings in the world of men to the spiritual world is of course to explain the human being a reality unknown to them.

In fact in this story living, we can draw several lessons.

The first is the awareness of the existence of different intellectual worlds, which are directed spiritual beings of good or evil, facing each according to his works in a specific universe. We distinguish the case and in order of importance:

The kingdom infinite, the infinite universe. By infinite, we must understand the contours, dimensions unlimited. This universe, as we have seen above is none other than God himself. ENTITY pure spiritual, whose kingdom is the infinite component, and which encloses and contains carefully in all others.

Just immediately below in terms of importance, the universe or is the Holy angels and holy entities.

Then the transition zone we shall see the role combined with what men call purgatory. This transition zone is itself separated from the celestial spheres as protected by superior beings whose mission is to prevent access to entities who have not attained the state of holiness.

Then we have the binary universe, ours, which has a dual composition, ie, material, area to which belong the earth and the material universe, spiritual interpenetration. Entities who do evil, but mitigating circumstances residents. They are those whom the Father gives a second chance to reincarnate, thus giving them the opportunity to finally purge their spiritual essence. Sine qua non for access to the celestial spheres.

Then finally, one who is cut off from all other the world of darkness where Satan resides, and all entities who have the disease, including among others, have shed blood. There is no justification for a crime. All those who shed blood will go in this universe is called also for men: HELL. Remember the commandment of God:

Thou shalt not kill.

Another lesson concerns the awareness of our own reality, allowing us to know with certainty, given the situation that we are spiritual entities. To verify the correctness and share them, words of God through Christ, in the sacred texts.

Knowing that the world's most important is not the terrestrial sphere, but the infinite kingdom. CHRIST said:

If a man sees me again he can not see the kingdom of God.

What is born of the Spirit is spirit.

The fact of us being on the other hand, after leaving our body the death of the latter is actually a birth in the spiritual world. We now measure the exact scope. We are spiritual beings born in the image of God, we remain spiritual entity. It is this awareness that Christ was referring when he spoke of a second birth. Finally, God wants us to know the confusing situation in which there is a spiritual entity who does not believe in life after death.

The latter is then in a desperate situation and worrying, especially if she has lived in evil.

The second lesson concerns the existence of a transition zone, which are found all spiritual entities from leaving their bodies to the latter's death. Knowing what we find, to know its exact role and what it serves. In fact it has several functions.

In this area converge all spiritual beings having left the earth plane. They are greeted by higher entities whose mission is not only to receive us, but we also secure in explaining where we are, how long and where we are facing. In sum what our final destination. Beings who wish may stay for a moment before continuing toward the appropriate universe, according to their earthly works.

The celestial world is divided in degree or stage of development, I mean it is composed of seven different worlds or universes. The spiritual worlds, each representing a specific stage of development, which is accessible only to the spiritual beings who have reached the level of change required, and whose waves or vibrations vibrate in perfect harmony. The spiritual entities can not have access to celestial mansions, if not previously purified their spiritual essence.

The transition zone is reserved for the spiritual entities that have just disembodied. It is logical, the route taken by any compulsory BEING who left his body at death of the latter, the animating principle was no longer there. They are first directed here to regenerate, but also to "cleanse" the filth (wave or negative masses) accumulated on the ground. These operations are headed by their degree of evolution in three different directions.

The entities have engaged in conduct consistent with the dogma Deific on earth, which have also penetrated and understood the truth, assimilated data relating thereto, become aware of their reality, and pure spiritual essence, have a real chance not to be reincarnated and thus continue their journey to higher spiritual spheres. These entities are directed to the first track, leading directly to the spiritual world with its specific stage of development. This pathway is to prepare them to continue their path to a higher plane of existence, after having spent time in this area. Here they can regenerate.

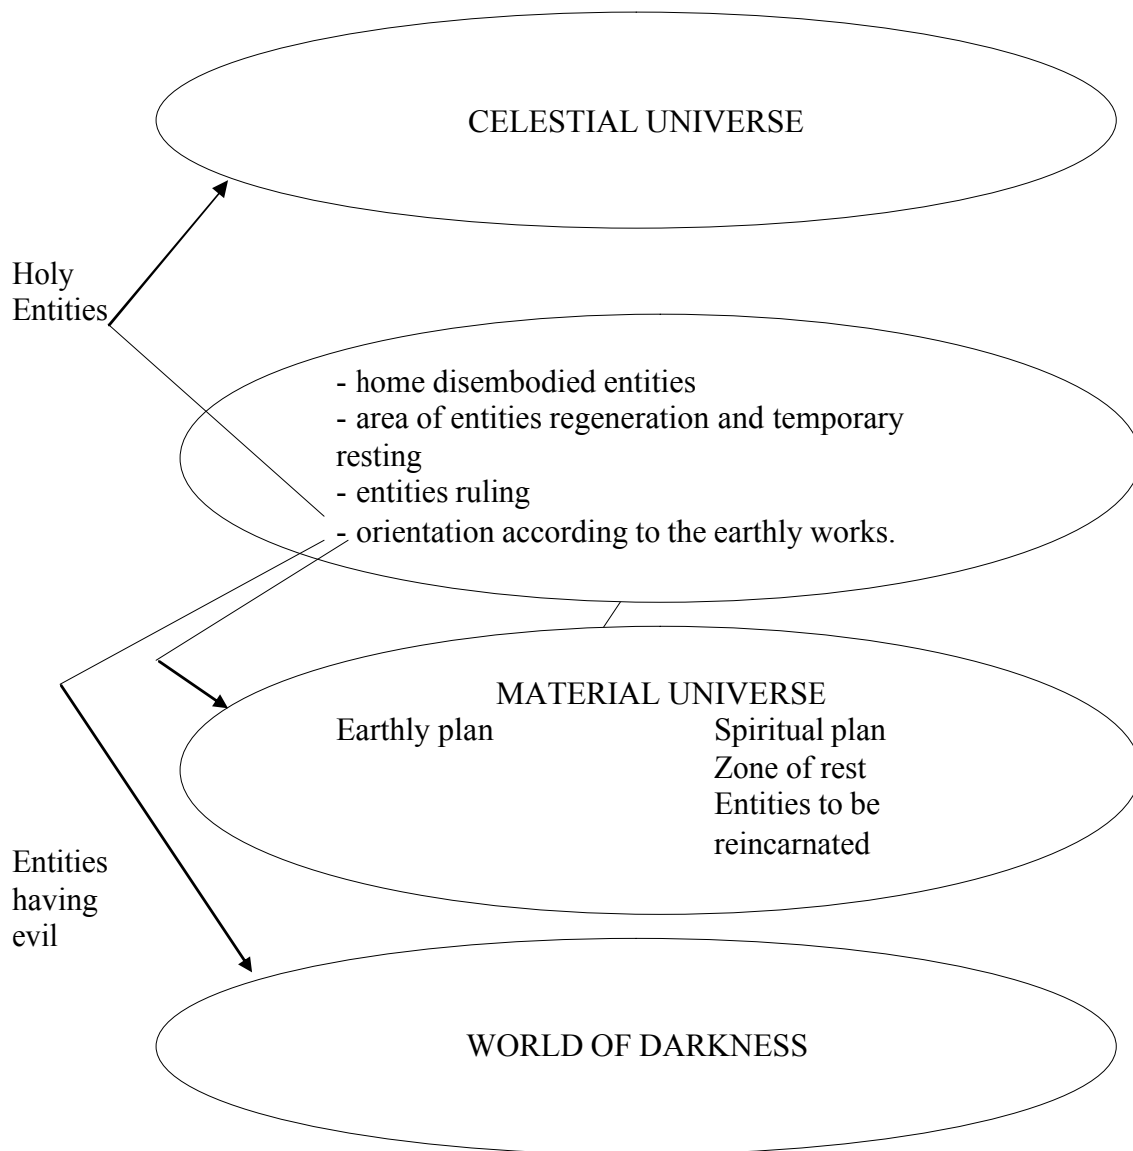

I use this term pure explain the process of getting rid of all the false data accumulated on earth, and all masses stored negative throughout his earthly journey whose effects are primary cause severe disturbances of body, to isolate more of the spiritual world, to reduce his sense of reality, by bringing it more in depth in this area.

These entities have clearly strengthened their resistance, improved their ability to confront and counter the forces of evil. They are showing kindness, serenity, love, self-giving as little, and are indeed justly, oriented towards advanced celestial spheres. The universe and the various holy abode of God ahead. Supreme award given to the most deserving, so they can receive the eternal rest promised.

The second way is used by entities who had a mixed behavior, neither good nor bad. Not free from materialism, and yet deeply rooted in their bodies which they identify, these beings refuse all realities, ignoring the truth through ignorance, complacency and to remain in error. They obviously follow the same process of purification before being granted a temporary well-deserved rest. After properly reclaimed, they are carried to the Earth or universe, they will be reincarnated.

On the contrary the third track is reserved for all entities who during their earthly sojourn, showed malice, cruelty, greed, depravity, hatred, interest overflowing with material possessions, especially damaged temple rights, the crime of blood, take life, shedding the blood is the supreme wrongdoing. All these, do not remain in the transition zone, because they are oriented towards illico lower sphere. Life belongs to God, only He can give or take away. It is forbidden to man to touch. There is no justification and can not justify a crime. Any man who dares to take the life of one of his fellows, especially on the pretext of doing God's name, is in fact condemned to damnation, and eternal fires. For him this is the second death, that is to say nothing. All access doors to other worlds their closed. The spiritual sphere than is commonly known as the area of residence of Satan.

TRANSIT ZONE

Access to the heavenly plan is subject to purifying the spiritual essence, the rejection of all that is material, the forces of evil, and rebirth as a spiritual entity. This is the result of beneficial actions performed on earth.

The third lesson we can learn from this adventure lived on the fate of spiritual entities, and pathways that are proposed. It is one thing established is that which is to understand that God has set up a divine law, specifying the action to any act, attitude, behavioral intention, good or bad, and therefore a reward or punishment is the result. Nobody on the spiritual plane can not escape. A trial is conducted and penalties imposed.

The fourth lesson concerns the unity of spiritual beings, the primacy of the spiritual essence, the primacy of the spiritual essence of the body, and the identification of spiritual entities. Only the initiated or awakened, that even in his outward man, able scope. It becomes real, tangible, practical for all others, once they have left their bodies and find themselves in the spiritual world. And again, they need an adjustment period before they have no conscience, and they do not measure the reality. They finally understand, but it is often too late. They knew then, eyeing all, they are identical, and that skin color is given a specific earthly plane. In fact, this reality does not concern the spiritual spheres, because the essence of spiritual beings is the same for everyone and has no color. We finally know who we are.

It must be admitted that this situation is confusing for anyone who has any reality, and remains ignorant of heavenly things. That man knows what follows the earthly death. Nothing is not it? So now you know.

The last lesson of this passage in the transition zone, for clarification, the doomsday.

Indeed, all men without exception, can not escape, and here I am referring to those who have committed a crime and then shed blood, and to escape the justice of men commit suicide, are wrong. They especially will not escape. All men are concerned. A Justice and Trial of God is impossible.

Some scholars, analysts and translators have changed the exact meaning given to the word of Christ on the doomsday. Some have assumed that the ruling put an end to all earthly existence, others are left in questionable because diatribes based on ignorance, arguing that the famous trial would take place at the end of the world or a certain date and would sound the death knell. In other-words, according to these dreamers, life would cease to be, all this is false.

The dogma of doomsday is certainly based on sacred texts and thus interpreting the word of Christ, but has also been analyzed risky, flawed and not directly linked with the profound and real connection of Christ.

Obviously, if one refers to the parable of the reaper, Christ allegory in that gives what has really happened since Adam and Eve in His coming, and then explains that the man in his blindness and his propensity to follow the advice of the prince of darkness rather than useful and enlightened of God, led the entire previous generation to work alongside the path to salvation.

This parable of profound meaning and truth, explains what happens and the follow-up to the generation before his coming among men, who happens to be affiliated with obscurantism. No parentage of Adam and Eve and the remaining contemporary in Christ, could have access to the kingdom, because she was a carrier for a large majority of the seed of evil in all its forms. At harvest, the owner of the field, asking its workers to pull the weeds first, so it is put into boot and thrown into the fire. The ripe wheat will be harvested separately and stored in the attic for this purpose. Christ gives the exact meaning of this parable, which relates to the generation referenced, or discussed it at the trial to proceed through the angels, the separation be far from those of evil.

His words are even clearer, they are precisely the location of the trial, and when it will occur.

The Son of man shall send his angels to gather out of his kingdom all scandals and those who know the inequity.

For the Son of man shall come in the glory of his Father with his angels. Then he will reward each according to his works. I tell you truly, some of those here do not die, they see the Son of man coming in his kingdom.

I tell you the truth, this generation shall not pass till all these things.

Now is the trial of this world, and I when I am lifted up from the earth, will draw all men unto me.

It is time for men, not only awake, but also to understand at last. Remember my friends, we are really spiritual entities, as the field area, the plane of existence most important is not the material universe which owns the land, but the spiritual universe.

We are somehow in the universe basic, imperfect in its fullness, in the evolution of lower and whose importance is less. On the other hand, real life, there majeure occurs, remains and is in the spiritual universe Holy part of the kingdom infinity and nowhere else.

That is why it is important to understand that the last trial has already taken place and, from the ascension of Christ into the world holy, and has retained all the generations of Adam and Eve in the contemporary CHRIST.

It is in the spiritual world has held the last ruling said, because ending a generation imperfect, obscurantist and blind, and nowhere else.

Christ had told the apostles who questioned him about the arrival of the kingdom, he replied: The kingdom has already arrived, but that you do not.

This phrase encapsulates the relevant time, for after all my friends, when you understand that the harvest had already amended, and the advent of Christ has been the only trigger, but above the light which brought life-giving hope to men, by opening the doors of the kingdom so far closed.

When Christ was raised, his ascension into the kingdom is the proof is at this point, it came on the clouds, in glory, surrounded by his angels, and that the generation to which I ' have referred and who lived far in the hell he arrived. The last trial was then held.

The angels then proceeded sorting, separating first the bad guys, they sent into the world of darkness, and good, all those who kept the covenant of God, could go with Christ of the kingdom towards infinity for eternal rest.

All this went well, has taken place in the spiritual world. Christ said, as always really the truth.

Since its advent, the trial is ongoing and involves everyone to the end of their life cycles.

Since the elevation of Christ, separating the wheat from the chaff is actually performed. The son of God, who set up new bases, based on the precepts of God, the word of our father, and especially the truth. Since every man is considered just as he left his body at death of the latter, and the trial which is the subject takes place in the spiritual world, in the transition zone more precisely.

The coming of Christ ended an imperfect ERE, and has opened another.

As it is difficult for a blind move alone, without that he be offered advice and guidance. The problem with men is that of vanity and pride, they will not admit they are too. They have read or heard the word of Christ on the heavenly mysteries, or speech on predictions relating to their ego and their real origin of spiritual entity, following the divine essence of the One God, without that it does not stir or they react positively.

They locked all reality, to remain blind in a world of blind people, mired in matter. Also reasonably consistent in terms of materialism, has the effect of their hide all reality, to stop analyzing the divine in there about removing the quintessence and the full content and isolate the main universe, the spiritual universe.

Their ignorance of celestial data is such that it continues even today to show an apparent inability of analysis and especially interpretation. How in these circumstances can they put it all in their actual contexts.

As I said earlier, the last trial has already taken place and involved the last generation. We belong to the next. Having opened a new era, the advent of Christ gave "birth" so to speak, a new generation of ours, lit it there, has a new track. Therefore, since the ascent of CRHIST, every man at the end of its life cycle will be automatically and systematically considered. We are spiritual beings, therefore, be of crucial importance to a carnal envelope that has a lot less. On the other hand we find in the material universe which is also of limited importance. The real world, the universe is real, and that man will admit it and understand once and for all, the spiritual universe. The reality for most celestial sphere, and no other.

Do not forget my friends, God and Christ, have always and every time, addressed to men as a spiritual entity, and never otherwise.

The lack of men of words spoken by them, like the fact that humans have always incorporated in the material sphere.

To illustrate my friends, have you seen the debates on the possibility that there may be in our material world, other planets in different galaxies that reside there or life, see the presence of 'intelligent beings. And both men in their pride can not accept it. If my friends, there are many in these galaxies of planets inhabited by intelligent beings. We are not alone.

GOD ENTITY pure and simple, and only God in his great goodness, does not wish one of us will lose, offers spiritual entities or two possible avenues for redemption.

The first is given to beings who have passed their earthly journey, their time of existence, those who respected and applied the precepts and who have throughout their lives pure spiritual essence, the honor of entering the kingdom . They deserve the eternal rest promised. God welcomes them into his heavenly home. This last point, namely to purify its spiritual essence rejecting the evil in all its forms, is being provided cinema qua non, because no one can enter the holy kingdom, he is free from any impurity, and penetrated data related to wisdom. This also means that we should send to hate evil and all its components, and of course the sinister Satan.

The second is to give another chance to hi or who do not quite successful in their earthly journey, and those who had a life based on materialism and the philosophy which focuses on the frenzied search for profit or pleasure of the flesh, had also set in the denial of other planes of existence that the material universe in which they operate. These entities I said, will be reincarnated in order to finally achieve a state of arousal.

The others all that which is mean, aggressive, who took particular pleasure and those who shed blood or have deliberately kept the men in a state of total ignorance, now in blindness , forcing them to deny the existence of God, for all these, is the universe of darkness ahead. They will experience the second death.

No one can ignore the truth, because Christ came not only establish but also and above all to save and liberate men. What better form of love than to give his life for the salvation of human beings.

The spiritual world is Holy and you know now divided into several homes or live holy spiritual entities according to their degree of elevation, itself part of God.

So there is no ambiguity and unlike the Gnostics, there is only one GOD, ONE, the only ENTITY PURE. Free of all dirt they can not reach.

Also, all spiritual beings who are addicted to evil, have no chance to access them. They go straight to hell.

Regarding the world of darkness, I can assure you it is terrifying, scary, because it is really a sphere where reign of terror and darkness. Beings who live there are in a state of absolute containment. The space and scope are significantly reduced. There, there is only pain and

suffering. Their vision is practically limited their scope of thinking and their sense of reality exist. Beings who are there are really trapped because no exit or way out there.

God alone holds the key.

Both say that there no question of speaking of joy, mirth, pleasure, hope to project. Hope there are more appropriate. The suffering in this world is a reality.

In contrast, the spiritual entities who were the two A (those who became aware of their reality to be spiritual during their earthly existence, the waking) those who have purified their essence, all those forces will enter the kingdom heavenly, holy to the world that awaits them. They will live for eternity in utter joy, in ecstasy, serenity, love, peace, justice. There the atmosphere exudes a rich fragrance. There is always beautiful, it comes from the pure air of particles scatter in all directions an atmosphere of absolute serenity. The plants are all indescribable beauty. All spiritual beings who have access, have a specific celestial body. They live an ineffable happiness for eternity.

So my friends, do not wait your own judgments with anxiety, choose your path during the course of your earthly existence, resist the forces of evil, you now know the path to Paradise. The doomsday has already occurred and the previous generation has been subjected. Part of the new generation, we will all be judged when we leave our bodies, individually, in the spiritual world of transition and we find then and there, according to our works, we headed to the world for the best St. or to the world of darkness.

JESUS said:

If you are asked, where are you?

Tell them:

We are born of light (God).

Where is the light born of itself it stands right, and reveals in his image (the divine).

If they ask you, who are you?

Answer:

We are his Sons and we are the beloved of the Father, the living.

If they ask you:

What is the sign of your Father which is in us?

Tell them:

It is a movement and rest.

We now know that our biological body is a receptacle. It is therefore important to know why the Father has given men an envelope of flesh color.

Remember my friends that we are on earth to redeem our mistakes, erase from our essence and our imperfections increase our knowledge of data whose scope is to reinforce our gains in definitively rejecting anything that might affect our future, to ultimately achieve the purification of our spiritual being. But that's not all. We must eliminate, reject our spiritual essence, all the air masses or negative consequences of our actions that could accommodate them. Our presence on Earth tends to lead us to absorb many lessons, the main concern good and evil.

They are I grant you that hard to fathom, because often some actions that seem at first glance the benefit of such social, and ultimately prove to actually be negative. They remain the domain of evil. We shall see later.

We must in any case follow the example of some religious iniquitous applying data despicable Satan. Let us not forget that hatred paralyzes spiritual entity, and prevents change, progress and hopelessly locked into matter, that is to say in her biological body.

The creator decided to give the human body different colors, skin pigmentation dissimilar to help men, noble intention, awareness of their realities, and thus they grant to their carnal envelope that relative importance, although of course they must take care.

Second, bring human beings to know in their hearts, they must give the skin color of any superiority or importance of any nature whatsoever, since all bodies are animated by a spiritual being and that As such, they are identical for all from the same divine source, that of God.

Thirdly, if there is one major reason is that which is to give men a lesson in love. The father wanted and make men understand that they are all brothers, and therefore they are all son of GOD. The essential element is to bring human beings to make this a rich diversity by making the inner feelings resurface and eventually allow them to reject all ideas before the materialistic drive to identify with the subject.

Fourth, bring men to enter the basic idea is to understand that man, spiritual entity, is from the divine source of life-giving, which comes from the infinite realm, which is none other than the one and only sovereign God. That is not the same as regards the human body because it is subject, from her, and eventually she will return.

In other words, importance should be given to the spiritual being who we are and to a lesser degree in the human body.

Fifth, what has been said explains the data for the incarnation or reincarnation. Next lessons a spiritual entity will have to learn on earth, it has to be embodied in a specific region of the planet, a body with a specific color. If by chance the spiritual showed a disproportionate racism, it would have to be reincarnated in another region or geographic area, and will have a new body whose color was precisely that it did not. The purpose being that it does more absurd interest with respect to the human body.

Another reason is also of great importance is that which can penetrate the pernicious attitudes or behaviors that, once adopted, poison people and reduce them to slavery of sense, by embedding into the path of materialism.

Buddhism speaks rightly poisons losing men such as greed, hate, mistake, I add the ignorance that often drives human beings on the path of suffering, pain, perdition.

If a political system that divides the owners and the lead on the path of heartbreak, of division, destruction, exclusion, leading those who embrace it to move straight into the darkness, c ' is capitalism that capitalizes on its bosom all the data is negative and all the trappings of Satan.

Observe good men and you will notice that whatever religion (which incidentally have not been established by God, but the fact of only men. God has given them the commandments and precepts telling them to apply). The geographic, ethnic minorities still face the wrath of the ruling class or occupying, and are rejected, rejected, humiliated. They are the object of hatred. Racism struck them and forced to live on the margins of society. This is the time or the spiritual tenets make sense and allow the glue out of materialism in which the man was trapped. The color can naturally arise fundamental questions, and take humans not only to seek another path, but also and especially to recognize the reality of both human and spiritual. If we are identical, this duality must we do finally understand. We have the same source. The pigmentation of our skin should provide an awareness of attitudes, lead man to think otherwise and the result to avoid unjust ways and help to awaken from the lethargy into which he immersed for millennia. The purpose is to bring the man to finally see and hear.

For this reason Christ said:

I stood in the middle of the world and I am revealed to them (men) in the flesh.

I found them all drunk.

No one among them who is thirsty, and my soul was afflicted son on men because they are blind in their heart.

They do not.

Naked they were born, they come out naked.

At this time, they are drunk.

When they have vomited their wine, they rediscover their spirit.

We know that taking complete control of the human body through the spiritual entity that embodies it has instead of a share during the past five months in the womb of the mother, period cinema qua non to have total control that will continue the first two years after birth and also bearing in mind the reality of our spiritual entity revealing the action leaders we have on our bodies.

Let us briefly an entity embodied knowing exactly what she will do on earth, what a lesson they will learn and banned it should be respected. Therefore a body is placed at its disposal (when a woman is pregnant, she creates in her a human body, which will be made available to a spiritual entity who will play them) and allowing it to penetrate , to move and act on the material which owns the land. Yes verily I say unto you, before we incarnate, we know. We know in advance the mother land we have and we will be born. Remember, God made you know when he placed Adam and Eve on earth, also knowing the reasons.

In fact, a waiting period of approximately four months is provided by the above entities to include in the genes for embryo formation, evolving into the belly of the mother, the necessary data to the BEING which has to incarnate or reincarnate it. All these data should enable the entity to take possession of the new body to have all the elements necessary for its development.

From the fourth month, the baby's body is almost ready, the higher entities install a special process within it the BEING must take possession. Since the young mother begins to feel the first fetal movements and soon to tell her husband.

The sensation of the body from being embodied is such that it feels like to feel trapped, imprisoned in a dark room, unable to move, but also to speak, see and especially hear and clearly felt. The break with the spiritual world and is consumed. The entity enters the material, feels a sense of isolation and abandonment. His new environment he is in fact unknown. It slowly forgets where she came from and that throughout the period she spent in the belly of the young mother.

At this point it loses all benchmarks and while thinking about what it is or come back to earth, hear the voices outside the womb of the mother and was thus somewhat perverse if the environment is unhealthy.

You have now understood the human body as such has no life of its own. The animating principle behind it not only penetrates the moment when we move within it.

Our inspection of the earthly body is fully insured and is based on many criteria, including the bases depend on various actions, lessons and experiences assimilated during our earthly life.

All the hardships we are facing helps us to strengthen and ensure this takeover. For this we have at our disposal of specific landmarks such as:

The Ten Commandments, the precepts of God, the rejection of evil in all its forms, control and annihilation of negative impulses generated by the body.

The total annihilation of primary negative actions such as envy, desire, lust. Penetrate, control data relating to pain, suffering that strange as it may seem, are useful and essential for any spiritual elevation. They can then destroying them by reaching a total dedication to take a course, a remedy, thus freeing us of negative impulses that keep us prisoners of our bodies, or we reincarnate until complete extinction.

By putting all this in place, applying them every day, we will achieve a complete cleansing of our essence. It should be understood that our body that plays a fundamental role in relation to our spiritual development. This is definitely not by accident that God has given us.

Only on earth during our incarnation and by mastering the principles of primary treatment of the spiritual essence, cited above, that man can access the celestial spheres. God has given to man alone that rare privilege.

Do not forget my friends that no one can access the celestial universe if its spiritual essence, not even one ounce of negative masses generated by our bad actions. These celestial universe

remain impassable and impenetrable to all entities impure. A fortiori if they have shed the blood.

I reject the concept of some to deny the duality of man. This has the effect of that mislead or make him a dead end. Contrary to the claims of these men, body and now you know life does not by itself, is wrong because the animating principle behind it is twofold.

One comes from the creator himself and comes from the divine essence of it and the other is spiritual being in it. The interconnection is precisely when we penetrate at our incarnation in the womb of our mother land.

The refusal to recognize this duality is essentially maintained between the other man in the dark, keeping it in error and that, I can admit it. This duality is a data set and was brought to the attention of men by God.

Thus saith the Lord GOD to these bones. Here, I'll bring you in spirit and live. I'll give you nerve, I'll grow on you in the flesh, I cover you with skin, I will put breath in you and you will live.

That which is born of the flesh is flesh and what is born of the Spirit is spirit. All flesh is not the same. The flesh of men is different from that of quadrupeds, of the birds, the fish etc. Also different is the spiritual entities if there are terrestrial bodies, know that there are also celestial bodies.

Taking into account this duality allows to avoid any misunderstanding and to analyze accurately the word of God. It opens the way to reality and brings a definite answer regarding the stagnation of man in terms of spiritual evolution of morality.

Our carnal envelope plays a kind of catalyst, in that it is struck by waves and masses of power from various sources, some of the most violent and harmful from the man himself. Since the latter centralizes then send them to the spiritual entity therein. The latter then undergoes the catastrophic effects of these destructive agents and loses little by little sense of reality and loses all benchmarks.

The spiritual entity who has not attained a high degree of development and yet imbued with materialistic data, behaves like an amnesiac, identifying with his body, it will use the latter sending him everything she has and will have negative an aggressive attitude.

This interaction occurs in conjunction racists, people steeped in their persons, those who seek power and money. They generally attach little importance to small and people are very seldom compassionate. The pursuit of profit, financial results, the material wealth is their only creed.

The human body is for those beings as a screen they refuse to kill. They have so much accumulated wave or negative masses, join them with full force and suffer their deleterious effects they externalize. They are locked in a matrix in which they are unable to escape. Since these men are sealed to all truth and do not particularly want to hear about the error or admit that they are next to the plate. The influence of the human body has become so widespread that these entities have become blind drunk and, as so aptly CHRIST.

SCALE OF CONDUCT

LEVEL		STATE	CONDUCT
1		SERENITY	<ul style="list-style-type: none"> - Perfect entity. Calm, serene, having reached the inner peace and wakefulness. - Entity in total harmony with spiritual awareness, and communicating with God.
2		CANCELLATION	<ul style="list-style-type: none"> - Mastery of matter, denial of self. - Posting of all basely material data (money, power, property, etc.). - Entity willing to provide assistance and support. - Awareness of the spiritual state.
3		ACTIVITY	<ul style="list-style-type: none"> - Entity emerging from field. - Active entity, ready and willing to invest and grow. - Entity still attached to material goods, with further evidence of selfishness, vanity and jealousy. However, it became aware of others and gives importance to them.
4	MATTER	RISING	<ul style="list-style-type: none"> - Entity very attached to material goods. - Total loss of his real identity. - Be still blind, for whom sex, money, power is a reason for being. - Being indifferent to the interests of others, racist, arrogant, rejecting his disability and his mistakes on others. - Entity to frequent tantrums, not hesitating to return or cause evil. - To be violent, aggressive, imbued with his person.
5		THE ABYSS	<ul style="list-style-type: none"> - Entity has lost all sense of reality. - This will be in any society and its apparent inability and ignorance of positions, acts, violent decisions, not hesitating to cause trouble. - Total refusal to understand others. - Entity deeply mired in the material, assuming that the world wants to hurt him badly. - Entity is sneaky, evil, ready to remove those who would interfere. - Entity is ignorant and closed to all understanding. - Unable to locate in space-time.

Before going further, let me make one additional statement regarding our spiritual essence. It is useful and important to note that the latter obeyed other criteria than those existing or dependent earthly plane. I mean is that between the molecular structure different from our earthly body, we have another characteristic size, we do not have sex.

In the spiritual world this figure is meaningless, has no basis for procreation is reserved for a fact material spheres whose land is, the primary aim to provide those who need it or embody reincarnate himself a body capable of receiving and thus enable them to evolve.

The land belongs to the plane covered by the material. Thus any spiritual being can take without changing a body specifically tailored.

The entity who leaves his plane of existence to that of the earth, will find a body being prepared and made available so that it can perform its work.

The man and woman who each received during their training with a specific gender GOD in this case play an important role, that of progenitors. The same goes for all living things on earth. You know now my friends that the spiritual essence of the entity that we did not have sex because our role is not to generate. This function is vested in the woman and man.

On the contrary on the spiritual plane, it belongs to God alone, who is the living, spiritual entities engender.

I said earlier that our spiritual essence enjoyed a rare privilege, the right not aging. Yes, we are the static, which does not move, do not change and remain in the state. The spiritual universe as the spiritual beings who remain steeped out of time, for there, this data is nonexistent. We are immersed as the pre-world city, outside of space-time, which is data specific to the material world.

Now that you know who is really God, now you know that all spiritual and material worlds are in God. Therefore you also understand that the divine essence of God, washed and enlivens all this and more universes saints because we are in the infinite universe and that it is none other than God himself DIVINE itself.

You understand now why our spiritual essence can not age, because we have within our essence, the animating principle of God which allows him to self-regenerate.

Remember my friends saw our father, God is an eternal being that has life in him: He and he alone possesses.

Christ said so aptly:

For as the Father has life in himself, so he gave the son to have life in himself. But you know now that God has made known to men taking a human body. Christ is in fact GOD HIMSELF.

DIVINE GOD who has no beginning or end, in whom the life has created the spiritual entity that we are identical to him and placed it in the animating principle that emanates from him. I see has the immense love that God shows us.

The Father in his life and this life-giving spring flows also in our spiritual essence and it was through her that we too can be the Father wanted to live and remain in the state that is say the BEINGS remain static unchanging. Christ said:

If they ask you:

What is the sign of your Father which is in you?

Tell them:

It is a movement and rest.

To close this subject, I conclude by saying that in the celestial world, data on age do not exist. As discussed above, the spiritual entity be static and asexual, does not, since it does not belong only to God. Therefore, any entity that is also a body different from the one he had on earth, but qualifying criteria specific to the spiritual world.

All people who move are young and still. Their ages are around thirty. There is there neither children nor elderly.

On land we use for our misfortune, people with warlike intentions that we deviate from the truth intentionally, arbitrarily claiming that anything is wrong, that they are not fabrications, the sole purpose of going astray and have a total control us. In recent drive men to deny the existence of God and also claim that life after death does not exist or is no utopia.

In my sense is probably the result of reflection for not believing in something for reasons of crass materialism, but also in terms of our lack of knowledge of celestial mysteries.

Having faith is an essential offering to the entity that inner light that many have not. It also provides something of far greater still. It gives the access key to the mysteries hidden. The entity then enters the hidden meaning of things, words of GOD, and meeting as I had the honor of saints and spiritual beings as angels.

The alert, which therefore is part of elected demonstrated naturally humble and do not draw glory. Feature wise, sensitivity, simplicity, serenity, not seeking any personal satisfaction and rejecting everything that belongs to the world of men, his only desire remains to be the ardent desire to evolve, to grow spiritually in accumulating data received spiritual God or through angels, spiritual assistants of the Supreme Being and therefore transmit in turn to men to help them work in the last light. My goal, wish that man is liberated from the satanic philosophy.

I can say and I am the witness that what Christ said is true.

So, having asked the father (God) to show me the path that led him to the latter in his great goodness I listened and allowed me to visit the spiritual world where I had a chance rare meetings of the angels whose mission was to GOD they send me data on the incarnation.

Here is the story of this encounter and education that I have received.

While I was sleeping that night, I was transported in spirit in a spiritual universe that I never knew the location, distance from the earth, unless there is data on this, I mean - There she has no relation to the concept of distance that we have.

I found myself on the terrace of a house very comfortable with the style reminiscent of tropical regions. The people held there, chatting gaily, letting himself be lulled by the trade winds. It was fine that day, a magnificent sun shone throughout the region. I can not say what came from the sun light, but one thing is certain, the weather was splendid.

Unless I am mistaken and as far as I can remember, I think it was slightly below level with the sea or what took place. On the sides and apparently the back of the house, there were large trees with branches Ambrogi and plants of floral beauty. One thing is sure, this spiritual universe gave me a strong impression at the point of wanting to remain living there.

There was before me four angels who had invested, was it for the fact I can not say, a feminine appearance. They were like sitting on woven mats on the floor for two of them, the third was standing leaning on the wall surrounding the terrace, and stood to my left, and the fourth was sitting, legs dangling, on the same wall but in front of me and even the opening that led into the garden. I was standing and the four angels were facing me.

I do not remember taking the floor first, or if my presence in this unknown place surprised me. Actually after thinking I was surprisingly calm. My interlocutors were themselves calm, quiet. It is as if she wanted to create and maintain an atmosphere of total serenity, anxious to put me at ease, one of them who spoke to me said:

You have a child who is waiting for you.

I was already surprised by the encounter in this strange place, that these words surprised me greatly.

I have a child, I expressed surprise, how is this possible?

I plunged into my memories, trying clumsily that could be the mother. While reflecting, I turned slightly to my right appeared on the country where I imagined the presence of this child. Another angel was standing with his right as a giant map of the country concerned.

Again this appearance does not surprise me, as if it was natural for me. In fact I can not say precisely whether it was a card or if it was really the country in question which was before

me. Unless this is a material projection of my thoughts. This last point seemed likely. Was I not in the spiritual world. At least I've said that in this universe the divine beings can take gigantic size, the land they appear tiny.

Throughout the life of my reflection, the angels were calm, serene and silent. They do not want, apparently it influence the course of events and knew clearly that I did not understand the exact meaning of their words. I must confess that I was at that time still heavily imbued with materialistic data. In fact I was out of ignorance, transposed both worlds, thinking I was still on earth.

It was very hard to separate the two worlds where my inability to understand and correctly interpret their words and a fortiori to enter their message. I was still hesitating and reflecting the presence of this child whom I never knew existed. I had to share things and putting everything in context and especially trying to understand where I am.

Now the only memories I had of all things or human contact, living in the earthly sphere, that is to say in the material universe. So naturally, I continued to think in human beings and not as a spiritual entity. I unconsciously transposed by my irrational behavior and near ignorance, land information to those on this world holy.

Angels during that time remained silent, aware of my disorder. I had a child and now I did not react as I have. My interlocutors were waiting patiently for me to understand at last, with me in spirit entity, then this in his real world.

After all, I said, addressing the angels, if I have a child, why not.

I was finally willing to accept this situation when I saw happen to my right a lovely little girl. She walked slowly toward me. The angels were watching the scene, certainly relieved my behavior. I am humbled and I took the little girl in my arms. I could only love him, does not she represented innocence and virtue pure.

This first contact with the angels delighted me as much later, mulling over these events, I realized the scope of this meeting and made more confidently knowing finally what had really happened, the message clear that I passed my interlocutors and the evidence they wanted me to live and penetrates.

But then I am I said, how this event, this meeting, this contact Will it result in the material universe and the earth in particular.

My two daughters, the eldest and youngest were both desperate not to bear children. They both apparently had tried without success. How many times they made me know they were sad.

Other girls have the chance to have children and not us, "they said. They were really very unfortunate. And if there was a relationship between this encounter with the angels and my two daughters I said.

I was part of the few elected or insider, chose to enter this mystery, living not only witness but also to be an actor. I had to draw from this encounter its essence. I became aware of this rare privilege, and especially ought not to glory or some satisfaction, because this contact was to be the definitive account of the education that I passed my FATHER, the one true God. I must therefore pass this knowledge to men, that they finally have a clear picture of reality.

My approach was more intellectual impression of hesitation, but would nevertheless assert during the events and become clearer as and extent of my encounters with heavenly beings.

Perhaps I've said, that the child gave me the angels was simply a spiritual entity selected and ready to incarnate. The celestial bodies made me just living the event fit in the process. They passed me and teaching unknown men and they are unaware of the scope.

In other words, taking this spiritual entity in my arms, I was doing with the help of assistants celestial actresses actual operation, this transfer. One of my daughters was thus the chosen mother.

Three or four months later, after this first contact with the angels, I must have confirmation of what I imagined. My youngest daughter, happy, informed me that she was finally pregnant. I quickly came to the relationship and not only understand but also and especially to have proof that the entity that introduced me angels and I had taken my arm was just one that 's embody in the future of my baby girl.

I was happy for both my daughter and me, because I lived there, something extraordinary.

Since I became aware of the rare privilege that God gives to an entity incarnated as me. I was now part of those elected, these insiders selected by the father to receive a heavenly doctrine, with the imperial duty to transmit to my turn to men to help them leave the state of ignorance in which they bathe and they finally know the truth.

I met again three times and the heavenly bodies. These heavenly assistance of GOD, that whenever I was somehow associated with the future incarnation of the BEING offered me and for each of these meetings, a new concept taught me.

But during my second encounter with them, I ignorantly, interrupted the normal process of incarnation of the spiritual entity that angels were placed in the fetus that was my daughter. Obviously this body being set up was now the fifth month. I had understood much later.

In the universe all the celestial bodies therein, who live there are filled with love, honesty and of course, are evidence of a strong sense of justice. I ignorantly put an end to the process of equitable distribution of births that angels were created. While celestial bodies showed me the spiritual being who was very quickly incarnate on earth and that this time it's my eldest daughter who had been chosen as a mother, I had a crazy reaction.

You are mistaken, I said, this is not that one, I need another.

Calmly, without saying anything, an angel came to me and I took the body that I wanted and went with it toward an area where I have to admit, not having access. The celestial assistant returned moments later with another entity and I was tense.

YES, it is this, I replied, taking her in my arms as taking leave of celestial beings.

I had unknowingly committing a huge mistake. In fact my thoughts and intentions remain focused and directed to my youngest daughter. I had not realized that my conduct forced the Angels to terminate the pregnancy of my youngest daughter, because the entity that had first presented the angels and had rejected, was incarnate in the baby that would be my oldest daughter.

I was quite upset, interrupting the proceedings. I had unknowingly put an end to the baby that my daughter was younger.

Two days after this encounter with the angels, my son called me very early one morning, saying he had been obliged to bring my daughter to the hospital, the latter could no longer feel her baby moving in her belly. After reviewing the doctor, who confirmed the death of the baby. The concern of my daughter was unfortunately justified. An autopsy was performed to determine the exact causes of death of the baby. The medical examiner does not detect anything abnormal and has informed my daughter that he did not understand why the baby was dead.

But I knew and I deeply regret my decision. I had to hurt not only my youngest daughter who had just lost her baby but also the spiritual entity to whom I refused the right to incarnate, taking away any chance of change. I was not proud of me.

I calmed down and the morale of my youngest daughter giving it another insurance for another baby soon and this time she will keep. I have no luck Dad, says my daughter, I shall never have a baby.

If thou shalt have one soon, I said, trust me, you will shortly mom.

I now had more confidence and interpretation certainly the message conveyed to me the angels. I assert myself and now taking my position as a spiritual entity and now had a real

conscience. All that showed me and taught celestial entities have proven accurate to the point now that doubt had vanished from my mind.

My real being slowly but surely taking the place that is his on the material, the body is now relegated to second place and to be playing its unique role, that of "vehicle".

I told my younger daughter to cause her miscarriage and asked forgiveness, explaining the circumstances that led me there. I told him not to be sad is that unborn baby was already programmed into the spiritual world.

Indeed, seven months later she phoned to tell me all happy that she was pregnant again but still afraid of losing. I gave him the assurance that it will not and this time lucky, it will really Mom.

I met one last time assistants celestial close to the area reserved for angels. I was somehow in a waiting room. Being still a spiritual entity incarnate, I easily understand the reasons for which it was not possible to follow the celestial bodies in space where they went. I must confess that I loved going there to learn more. An angel came out, holding in her arms the spiritual entity of which the next incarnation was planned. The taking my turn in my arms I went taking leave of angels who allowed me to enjoy, to live, and enter data on the mysterious incarnation.

This time I knew that my eldest daughter was the choice made by the celestial bodies. I will spare you his joy at the idea that she would finally mother. I am one of those rare spiritual entities incarnated, who can say in truth I know where are my three little children and who they are.

You see my friends, if the Father, the supreme god, the one and only true God wanted me to live these events, it is ultimately for me to enter a knowledge unknown to men, but for me giving a duty to transmit these data to humans.

The lesson we can learn from these contacts has several aspects.

The first lesson to be learned from these meetings, concerns the role and played exclusively by angels in the process of incarnation of spiritual entities. You know now that a spiritual entity, in essence, has no sex, as this aspect in the spiritual world has no meaning since it only concerns the human body, man and woman, whose primary function and principal is specifically and essentially creating an envelope carnal likely to receive an entity so that it can incarnate.

Also, if I said at the beginning of this narrative that the angels had paved a feminine appearance was only for me to see them better. The masculine or feminine being linked to a given material world. In the spiritual world, things are totally different. A spiritual entity (us) or a celestial being (an angel), for example, are essentially invisible to the material universe as identical with God.

That is why a body is also given to the entity residing on land that resides in the spiritual world. Each body is adapted to the sphere to which it belongs.

God has assigned angels to perform the role of the incarnation of the spiritual entity, such as removing it from its fleshly envelope if necessary. They matter a pivotal and deserves our respect.

The second lesson helps reveal the possible role of certain people-initiated, which in agreement with the holder of the father's life and from which emerges the vivifying principle are capable of influencing the course of events allowing through heavenly helper to a spiritual entity to incarnate or not.

They have the power prescribed by Christ.

If you have faith as a mustard seed, you say to this mulberry tree

Be uprooted and transplanted you up in the sea and it would obey you.

Knowing that the human body and the spiritual essence of all entities within them the spark of life-giving God, it is easy to understand that all existence is possible only with the consent of the Supreme Being. Without the animating principle of God, no life is possible.

Also, if the father gives the initiate any power because he knows that this last step on the right path and keep him in his precepts. On the other hand he holds data unknown to most men.

Also any incarnation is possible with the consent of God. If the Father has enabled spiritual entities to work freely, he gave them life, so they remain in the material universe, only on loan. It will be final and eternal, unless they operate by observing the philosophy of God, preserving the holy word and finally rejecting the forces of evil. Then the Father will give the body the ability to achieve great things. Finally they will be children of God.

Christ said:

When life is created in you life you save. If you have no life, no life will kill you. The vine planted outside the FATHER is not quickened.

It will be torn from the root, it will perish. Narrow is the gate and narrow the road that leads to life, and there are few who find them.

The third lesson concerns the awareness of the preservation of life, because no one has the right to terminate, except God alone.

Among the acts is definitely to be avoided:

Abortion, suicide and crime.

These three offenses are treated as a crime because they have the effect of removing a voluntary spiritual entity of her body, remove it from the temple that God gave him, putting an end to life as the God of heaven had granted to his hi.

Contrary to popular belief, the incarnation is not a coincidence, or nonsense, but a realization concerted, planned in advance as we have seen above, the angels are the masters of Works.

The aim sought by the entity that is embodied obvious and clear. For the lessons learned and hardships overcome, it seeks to purify his spiritual essence, cine qua non condition for entering the holy kingdom

I alluded to abortion a moment ago, because people are unaware of the disaster and the suffering they inflict spiritual entities engaged in the act. They condemn the entities they were removed from their bodies by their gestures mean and irrational, isolation, denying them as the basic right to the incarnation and thus also achieve salvation.

Any act (abortion, suicide, crime) to take the life of a spiritual entity incarnate, is not only harmful to the entity itself, since a term has been his life and its evolution, but also the author of the monstrous act.

God offers us the chance to be on earth, correct our mistakes, to purify our spiritual essence to the promise hi, so why should we deny it to others. It is more an act of weakness and cowardice, since these BEINGS seen their young ages, may not react or defend themselves.

What right do we prevent them enjoy the same opportunities as us.

Let us refrain from practicing abortion, let us work to prevent us from committing suicide, because suicide we condemn ourselves to isolation and seeks to delay our progress.

The spiritual entity that was incarnated and that this basic right was denied, back in a specific area of the spiritual universe and must wait until another opportunity arises. So avoid as much as this little, to suffer.

Yes my friends, I invite you to take away from your mind any desire or intention reckless, causing the suicidal act, for this gesture can only hurt you and delay your progress.

You know now that we arrived on planet earth is not due to chance since it is the result of a desire, a personal choice and a concerted action with the celestial bodies and of course, in agreement with GOD.

The purpose is to learn a series of lessons needed to see themselves confronted with certain events (poverty, suffering) whose aim is to strengthen our essence.

It is obvious that you're all leaving a huge desire to succeed and complete your training. The first lesson is to resist the forces of evil, to remove from your path the BEINGS whose mission is deliberately lying to you, keeping you in total ignorance of the truth and real data of the spiritual world.

It goes without saying that you will face many difficulties inherent to the son of Satan and avoid pitfalls in rejecting the evil, hypocrisy, greed, unbridled pursuit of power and material goods, sources of failures.

You live on Earth some time (the time known only PERE) stay during which various steps taken and difficulties will be overcome.

Do not think the length of your journey on earth is the result of a given arbitrary. No, this time you can not know for your own sake, must remain secret.

On the other hand, this time must be utilized by each entity to track the different milestones in life. These data are of great importance in the development and progress of all.

Each step represents a specific knowledge that the entity must assimilate.

These steps are

- 1) Discovery: the period from birth to adolescence.
- 2) Maturity: corresponding period in adulthood.
- 3) Transmutation: awareness of the entity data to its essence and real purpose it pursues.
- 4) Wisdom: period corresponding to the so-called third age. She brings to the entity data for the wisdom and real ME.

Further success by the willingness of each entity to reject the forces of evil, on the contrary solidating their gasoline release negative mass, opting for a final compliance with laws and ordinances of the FATHER.

The transformation or transmutation of your gas at that price, and only at this price. However, these data can be acquired only by hard work, strong will to go to the Father, to apply its precepts and may no longer recommence the same mistakes. This action must be continuous, permanent, spontaneous and deeply rooted in you.

The laws and ordinances of God, providing the weapons needed for your success, without it being necessary for your sorrow and your loss, or follow the advice're rambling explanations and intentionally false, men who do not purposes other than mislead you by directing you to plan on the wrong track. These men are easily recognizable. These are people with ideas crass materialistic, power-loving, greedy, money represents for them a vital interest. They do not share and are generally indifferent to the suffering of children.

We must therefore follow a joint life plan, consisting of various steps described a moment ago. In addition this plan lessons specific to us. Be strong enough to be willing to learn by overcoming your failures. You must therefore follow the complete plan of life, through stages, assimilating all data phases of life, because it is in fact a whole.

I repeat emphatically, that in reality a whole. But from the moment you end your life, kill yourself, you break a cycle accurate, after obviously different beings.

This interruption cut your earthly journey as a student who left the university in full school year. Obviously it will necessarily take the course of his studies he wants to continue training and complete. It will therefore be obliged to resume his studies next year and again at the interrupted school year, losing a period stupidly. In your case, is exactly the same thing but with a particularity.

The consequences in your case are much more serious because they harm you. By committing suicide, you have created negative masses, which have seriously affected your gas, further delaying your return to earth. After the washout period and adaptation that you followed, you will return to planet earth, you are reincarnated to complete the cycle that you have stopped.

This new incarnation is only the termination and completion of the previous. This new life will last only the time you initially left to live.

Consider an example: an entity on earth responding to the name of Marcel, who committed suicide for reasons X at the age of 44 years. What a mess is not it?

Not only the suicide does not solve your problems but it has the effect of delaying your progress, to prevent any meaningful discussion, and any subjective reasoning. It creates around you masses negative isolate you from the real world, transforming your environment you hiding the real universe, or modifying the structures of the latter by optical effects permanent.

This forces you to reincarnate again to finish your last incarnation. Another detail: not only you will need to reincarnate, but in your own interest, you will resume your studies if I may say, under the same conditions, the criteria remain unchanged.

Let me explain. If you were on earth to learn what poverty is, you reincarnate in the same conditions and be poor again until complete success.

You will be given a new body, with similar characteristics and same sex. You will have the same lessons to learn in the same social milieu. You will encounter the same pitfalls, the same problems and need this time to resolve.

Stay optimistic and determined to succeed this cycle, your evolution depends. To do this, refer to the texts of laws and ordinances of God. You'll find the weapons necessary to your success. Remember, my friends, the difficulties, suffering and pain strengthens your essence. You must be overcome, mastered and sent to annihilate them. You will of course, remain on the path of Christ.

It is written: "God alone gives life, God alone again." "Know ye not that ye are the temple of God and the spirit of God dwelleth in you? "

As for the murder, if the author does not repent of his act and correct, it will in the world of darkness. No reason can justify a murder. Whether passion, revenge, greed, murder of a state or an incitement to murder instigated by a religious etc.. a crime before God has no justification.

Is it not written:

Thou shalt not kill.

But all religious sponsor a murderous act and the perpetrator, who claim to act on behalf of God, obey in fact a false god who answers to the name of Satan. These two beings, religion and the author of the crime, will go directly into the world of darkness found their father satan.

Nobody has the right to take the life of anyone in any way whatsoever, because life belongs to God and him alone.

As I wrote above, the SUPREME BEING, the ONE, the ONLY TRUE GOD, we are ready for a life time known only to himself, to us to deserve to be careful in making any implemented throughout our existence, so we can enter the kingdom saint, and therefore, in our second birth deserve and keep forever.

Remember, my friends, the importance of this last point.

The fourth lesson is that all operations related to the incarnation or planning an end of existence, take place in the spiritual world. All decisions are taken.

We all come as spiritual entities, the same source with invigorating GOD alone is the giver. If our starting point is in the spiritual world, we have on earth, to strengthen our spiritual essence, to purify, to be able to return this time in the holy kingdom.

As I've said before, this celestial sphere is pure and free from waves and negative mass, all defilements, all impurities. The evil in all its aspects can not penetrate. So any spiritual entity, having in it even one ounce of negative masses, there will never access.

We are on earth to complete our training and mystical struggle as Christ has shown us, against Satan and his son. So glad God will welcome us, and we can say with pride.

I am not of this world.

Because I have been personally living proof these real events, not only my belief would have been strengthened, my faith has solidified my duty as God is calling me to transmit all the data. I fulfill this task with great pleasure and love for men.

To succeed in our earthly journey, we must confront a series of tests. Another step is to learn and master all data relating to good and evil, pain, suffering, rejection of greed, envy, desire, all attachment to materialism, the establishment caste stigma with the basis for excluding a large part of mankind, and the importance accorded to the wicked color. From the moment that all these points are established, applied in a state of total detachment and renunciation of self, the entity can unlock its essence and its carnal envelope, therefore, acts as such.

Another step, certainly the hardest and most important, is to be confronted with the negative points mentioned above, by solving, by adapting a natural attitude based on the rejection of these defects and achieving total self-denial in annihilating them all.

The acquisition of mistakes and misdeeds, no place on earth during our incarnation, and does that man.

The last step is to implement all these data, managing to destroy all these flaws, constantly placing us on the path of good and rejecting the forces of evil. The goal is the extinction of all these negative points of any critical sense, and leaving us bathed by the calm and inner peace. Doing evil has no basis or justification. Do not make the mistake of following the advice of religious unfair, that you push to shed blood in the name of GOD. In reality they only implement the philosophy of a false god, their god Satan.

These despicable religious, I tell you truly, do not know GOD. They act on behalf of their father, the prince of darkness and do not wish one thing, losing men.

It is important to master all the forces of good and evil, knowing the various components. It is clear that our behavior, our actions, our thoughts are factors cause effects that are harmful to our spiritual essence, if focused on the evil and beneficial otherwise.

I'll tell you now the law of equilibrium, allowing the spiritual entity not only positioning but also create ideal conditions enabling them to position themselves in a given environment, a specific space to evolve with ease by being able to avoid any wrongdoing, and trying as much as some, not to harm his fellow men.

The balance is a factor that must be applied in all circumstances in all areas of everyday life, both material (social, professional, family, relationships, etc..) Spiritually. It allows men to keep up a calm atmosphere of mutual respect, love, sharing, and excluding the evil in all its forms.

It gives entities the opportunity to become more open to spiritual data by releasing the gas, to better perceive the dangers and evils that retard development and progress of spiritual beings, and thus have access with ease by an open mind to knowledge. It allows men more aware of their real existence, that of their peers, having a behavior marked by justice, love, and equality in their ways. On the other hand, it can reject all the false information conveyed by Satan and his son among men and especially those who deny the existence of God, the heavenly world that prevent people from right path and hinder their development . It is also evident in the false direction and plans for working bellicose forces of evil.

Can be defined and the law:

Attitude, behavior, thinking of an entity located in the central point of equal and opposite forces, controlled and directed in all directions.

It is clear that any entity that would implement this law, would provide a better life around him and would establish a climate of love and serenity permanently. There would be more justice, fairness and sharing.

We owe so much to implement, so that the opposing forces remain of equal values and that in no case there is disruption. Our actions should be in all circumstances, not to destroy it is planned or not, and therefore useless, but to a constant search to maintain this equality. The

non-application or interruption of this data, result in chaos, the differences of opinion, discord, clashes, wars.

Mastery of all phases of this law added to the commandments and precepts of God, requires time, patience, but it opens all doors. Only study and work permit men to advance, knowing that the earth is a huge school, and that men are certainly not there by chance.

I will now address a topic related to the law of balance, I called waves or masses negative or positive.

Indeed these bodies are of importance because they shape our lives, play an important role in our future, are the source of our feelings, our actions, our decisions and have a strong influence on our physical body and our spiritual essence.

When we speak and think, we emit waves of mass negative or positive as I have said before, a very strong influence on the material, including our fleshly envelope and detrimental to spiritual entities incarnated either by isolating more the spiritual world by strengthening the existing wall and create an accumulator containing all the forces of evil, either by releasing the body of the vehicle if the human chooses well, increasing his powers of perception, reasoning, an open mind, changing it to better collect data related to knowledge, gradually freeing the grip of material and thus enable it to recognize its existence and reality of its spiritual essence.

Bodies issued by men, cause these adverse effects they do not suspect the scope. I obviously want to talk about negative mass.

Waves or masses are made positive by men caring, good, fair, despising the evil in all its forms, always willing to serve, to bring aid and comfort to their neighbors. They therefore emit masses positive waves positively charged, which not only protect the masses would be negative against them, but freed the spiritual beings, the freeing from the shackles in which they are imprisoned.

The masses are negative on the contrary issued by evil men, ruthless, hypocritical, devious, treacherous, deceitful, aggressive, nasty, always inclined to criticize without reason and so bitter, acting for the sole purpose of harming others seeking their own benefit.

These masses influence people to whom they are directed to the point of harm, both materially and spiritually. Unlike the waves or masses positive, negative masses strongly influence the behavior of men who emit up to hurt the people to whom they are issued, then inevitably return to the issuing entity.

Therefore they penetrate matter, I am of course talking about the human body, and as a thick cloud, the spiritual entity binds to its carnal envelope, preventing him from arguing with objectivity, accuracy, condescendingly towards people around them.

Because they are negatively charged, resulting in clear thinking, which allows us to know that they contain in them all the flaws related to the forces of evil, and release a total package of the entity, adverse reactions, devastating and full of aggressiveness.

The entity is therefore trapped in the material, and to some degree a slave of the various negative currents prevailing there.

Thus it will respond to any minor is a latent aggression, and find himself constantly driven by materialistic impulses such as:

Envy, desire, lust, sexual drive, research and conservation of reckless power, the action involves the exclusive setting up everything for ourselves and nothing for others, hypocrisy, lies, rampant commercialization, contempt for the human race.

We could assimilate the masses to a negative force that would exert intense pressure, continuous and permanent spiritual entity, enclosing in its carnal envelope, insulation and more space in which it operates, and away of the celestial universe, and then putting it back on realistic data.

All those who delight in wickedness, must think carefully. Not only do they hurt others, but they mostly ignore the masses they have released negative, will inevitably return against them. I call it the boomerang effect. The negative masses surround the body, prevents and act freely, hindering its development, maintaining a state of total dependence and makes the blind to the truth and the world around them. It is as locked in a halo of negative waves. It is therefore under the influence of constant negative forms, and suffers the effects.

Professor Edward Zarifian in an interview published in Life Science and Occasional No. 236 of September 2006 stated:

Call (which may be silent or gestural) access to built our psyche since childhood. And it only allows access to the psyche of another, that is to say, the performances of its own, unique. It is in this sense that I could speak of "the miracle of speech" because its power is enormous. The word may heal but also injure or kill her because it hurts where it can not touch my unique individuality.

Entity issuing
negative Masses

It is written:

It is beyond anything the man that entering into him can defile him. But what sort of man is what defiles.

The good man does good to his soul, but man cruel troubles his own flesh.

The language perversely shatters the soul.

Therefore, rejecting all contamination and spillage of wickedness, receive with meekness the word that has been planted in and you can save your souls.

The power of thought and speech is known, scientists who, in experiments conducted on humans, particularly in the medical field with specific devices, were able to capture and measure the waves and vibrations and determine the rate of cause and effect they can shape the behavior of human influence, destroy.

I now turn to another important point, which can not be dissociated from the law of equilibrium. I mean the key of wisdom. Properly used, they can develop both materially and spiritually, a calm atmosphere and gradually frees our essence which can therefore take another dimension.

Beings who want to throw off the shackles of matter and leave the world of darkness where they are stuck must respect and implement the following five principles:

1 / Compliance with and enforcement of the commandments and precepts of God.

2) Implementation of the ideal behavior:

- The right understanding
- Just thinking
- Just say
- The right action
- Feelings just
- The fair trial.

3) Perfect knowledge of the usefulness of pain and suffering.

4) The rejection and the total annihilation of desire, envy, lust.

5) The establishment of permanent loyalty, honesty, righteousness, goodness.

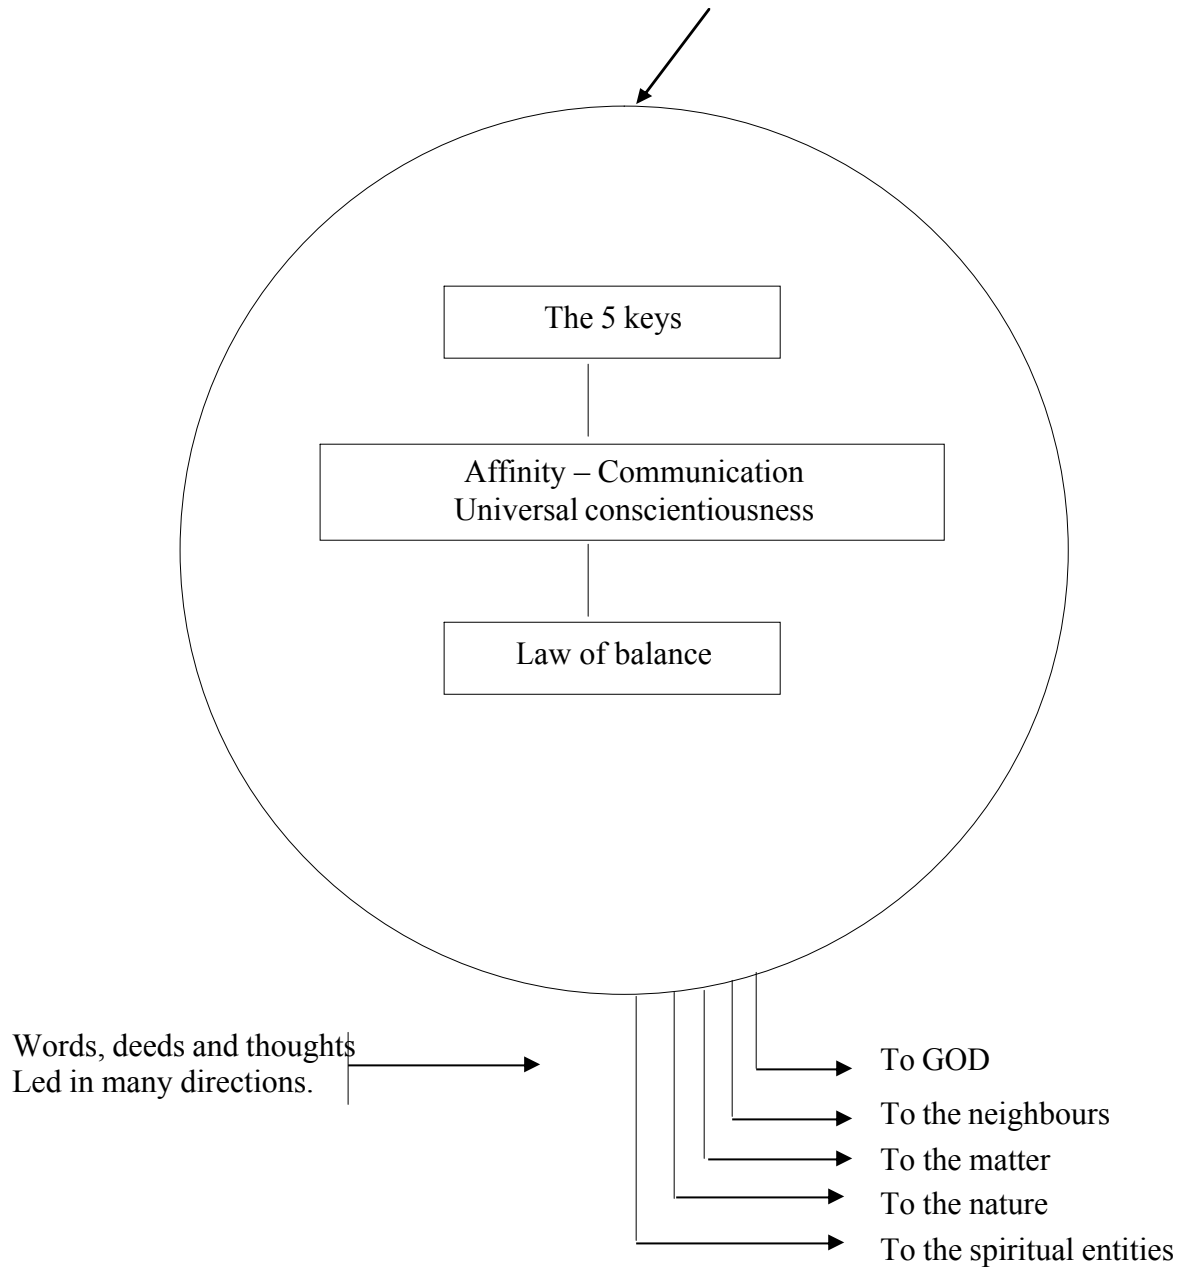

The five keys above, must be used alongside the law of equilibrium, and used as cement. The strong link that binds all, happens to be bathed forces and masses are positive:

- Affinity: sentiment pushing the entity to help others. Pulsion useful and indispensable to the body allowing it to remain in perfect harmony with his fellows.
- Communication: Action pushing the body to build a network of relationships between himself, his fellows and his environment.
- The universal consciousness: feeling inside, the inner self, bringing the body to remember the data on knowledge and their implementation. It also provides a direct link with the divine principle uniting with him and reap the knowledge and life-giving spark.

Ultimately, the ideal behavior of the spiritual entity, through the establishment and implementation of all the moments of the trilogy follows:

The 5 key more affinity, universal consciousness, more equilibrium law.

THE SPIRITUAL ENTITY

What's more natural and human, to recognize the existence of others and admit they have the same rights as you. The trilogy is meant to rule over all the activity of entities and allow them to love and respect each other. The purpose is our progressive and safe.

It is the same today as it is still too often flouted, particularly by those who indulge in the pleasures of money, sex, power, life easy, not hesitating to crush minorities, the weak, to deprive the name of the king money and power mean and absolute.

Let's avoid those errors and apply the trilogy and the precepts of God. They are fair and go far beyond the terrestrial sphere, as they reach and penetrate also the celestial spheres, developing bodies in a revival of their essence and their conscience.

The principle is as follows:

- Endorse the trilogy and the precepts of God, applying them respectfully in life everyday, at all times, permanently.
- Link to our argument that the trilogy and the precepts of God, so is it in us to penetrate the deeper meaning, to act selflessly for the good of all.
- Be penetrated so that they are our reason for being, so that in parallel to our government and our actions, they allow us to reject the forces of evil, particularly the feelings tinged with meanness, racism, greed, deceit.

The perfect knowledge of the drives, mostly negative, to carry the body to express a feeling just a right understanding, right thought, just a word, a right action requires the assimilation of different passions, whether negative or positive, understand its scope, in order to position the midpoint of the forces that represent all positive and negative impulses, for profit entities requesting his intervention or receiving assistance.

It is obvious that the result is positive and reaches its full dimension when the entity has first obtained the prior posting of the area by a full awareness of its essence and its real existence as a separate spiritual.

The result obtained by transcendence, selflessness and real knowledge of its presence on the planet. Since the entity operates with matter and in parallel with it, giving it the balance struck by the possibility of controlling his own feelings to express to the well-being of people with honesty and accuracy.

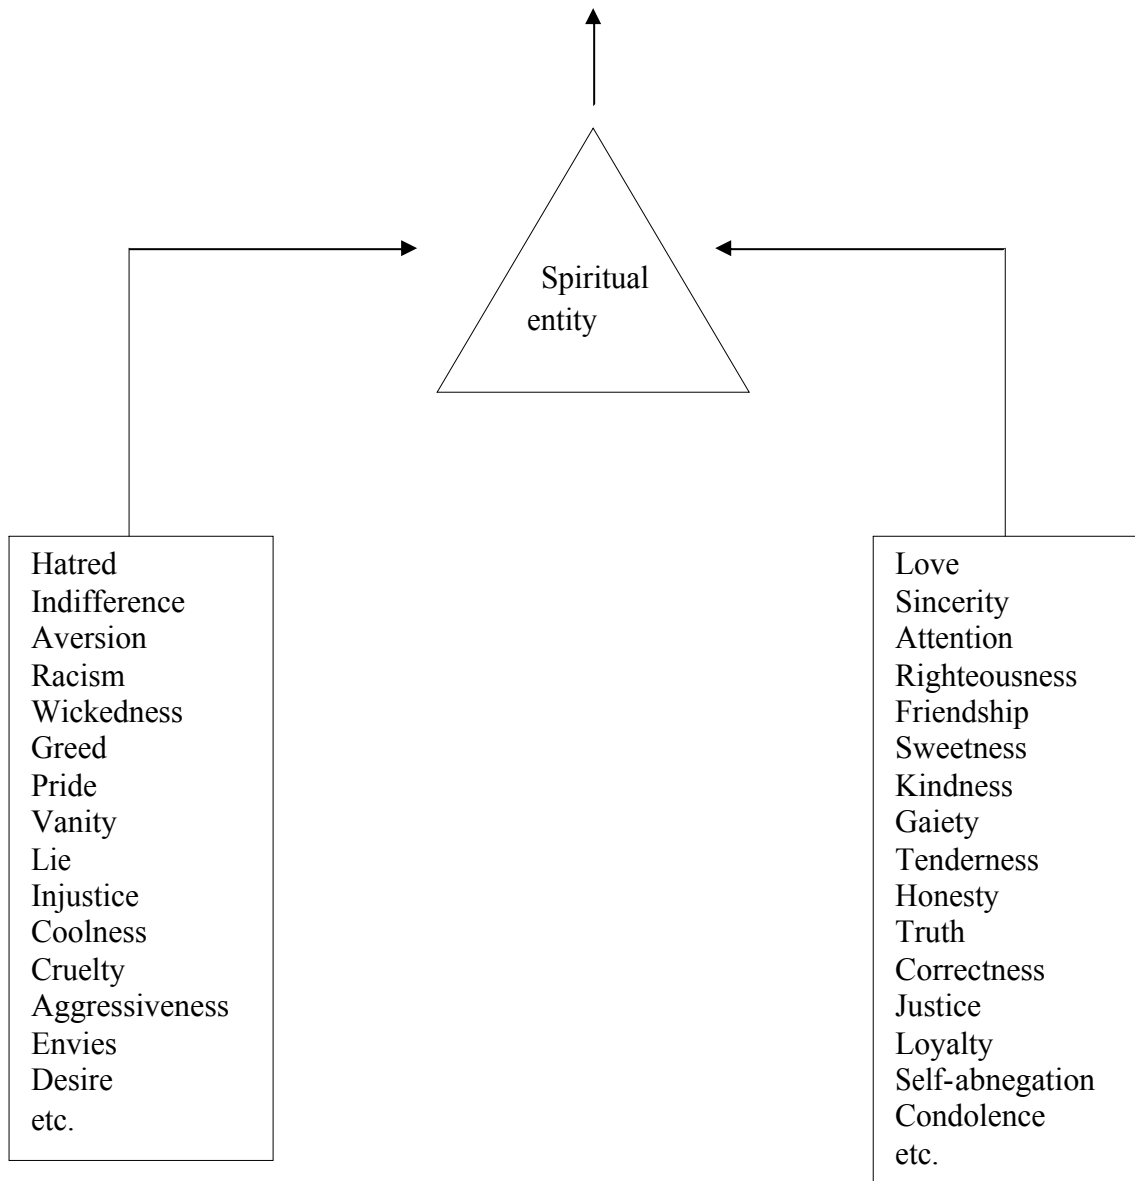

The end result is the denial of self for the benefit of others, all linked to the universal level and benefit the healthy and peaceful evolution of humanity.

It is written: *"Step aside from your mouth falsehood, away from your lips detours. "Let your eyes look in front, and your eyelids before you run. "Ponder the path of thy feet, and all your are being resolved. "Do you away to the right or left, and removes your foot from evil."*

There must of been a total union of all men, resulting in a sincere mutual love of all times.

POSITIVES MASSES

Thoughts – Words - Actions expressed and directed for the good for all, everywhere

If the man penetrates and apply God's teaching, he will have new knowledge, to find new data bathed, and have access to the various heavenly principles which create new opportunities, it can transmit on earth. This is the real waking.

The rejection of materialism password also and especially through the implementation of the UN, understand the uniqueness. That is to say, think, reason and act as a spiritual entity.

Now you know what you really are, so to achieve uniqueness, it is imperative to reject, to annihilate all the negative impulses particularly those focused on the harm, or much rooted in materialism.

This also means taking into account the existence of the universe major integral component of the infinite realm happens to be the HOLY SPIRIT, the invisible spirit and pure, that nobody saw, even the angels, the one and only true God.

All our thoughts, actions and wishes should be directed towards him, and our only real father, with compelling reasons to return. Our presence on earth is temporary and due to be evil, I named Satan.

Only all actions, all thoughts, all based reasoning and placed on the spiritual plane to allow the entity to achieve. The purpose is to lead man to isolate himself completely from the material and thus its carnal envelope, but also of women, which it definitely will stand out and vice versa.

You now know that a spiritual entity essentially has no sex, and given that this only affects the human body, man or woman. Thus a spiritual entity is achieved naturally stand out from materialism, and therefore will grant the body a relative. As the spiritual entity made, yet embodied in the envelope of a carnal man will have no contact with the woman, let alone sex. This reality should bring the man throughout his life, when he wants to move towards wakefulness, to minimize the role of his body by not giving him that his only function, that of vehicle. At this stage, man must act, think, think, reason as a separate spiritual and otherwise. Christ said precisely on this subject:

"If you make the two one, you son of man. And if you say mountain stay away, she moves away. When you make the two one, and you do the inside out, outside as inside, above or below, if you will of male and female single one, so that the male is not a man and the woman is not a woman, when you have eyes in your eyes, one hand in your hand and one foot in your foot, an image in your image, then you will enter the kingdom. "

These words of Christ are clear and explicit, because they clearly illustrate the importance of the spiritual essence, the rule it has on the human body, and recognizes the role that should take the spiritual entity.

Making the two one is to make sure of reaching for the man to forget the very existence of his own body, that he loses any importance and that eventually it disappears completely. At this stage, the body forgets the existence of its envelope and carnal acts consciousness as a spiritual entity. Her body and become one.

The envelope is returned carnal slave to the entity, the latter is now entering a new era.

Thus, the male is no longer a man, the woman is no longer a woman, but has again become what it has always been a spiritual entity of choice.

The two A is achieved.

Since time immemorial man has not ceased to ask many questions, and even today attempts to answer the existential questions that govern its existence, one of which is culminating in the reincarnation, or simply certain incarnation. A major factor if he is, explaining the presence of humans on earth, and highlighting its development, its land journey, his spiritual elevation and different opportunities that are offered with respect to redemptions of its faults, or tests on consolidating its achievements.

However, we must make a clear, by referring to the past of mankind, man has consistently focused its attention on its hardware development at the expense of spiritual fate. Pernicious

attitude, which took effect to make progress in material terms, in defiance of data that have yet spiritual importance for its development.

You now know this phrase, there is nothing hidden, which is revealed to men. By this phrase, Christ has meant to humans that they could penetrate all the celestial data, and hence that all the mysteries of a spiritual nature within their reach. All those aware of their reality, have access. Also embodied spiritual entity having produced the two A, and thus attained the awakened state, enters the hidden data and access to the spiritual world. SLIC alluded to when he told the apostles:

"Blessed are your eyes because they see and your ears because they hear. I tell you in truth, many prophets and righteous men longed to see what you see, and have not seen, hear what you hear, and have not heard.

It may well discover other worlds different from that in which it operates, has knowledge of a more important and will inevitably meet other spiritual beings such as angels, when they are of GOD, transmit their messages, new knowledge, new teaching.

Christ said:

"The angels will come to you and the prophets, and they give you what is yours."

I started this book, focusing on the ignorance of man and his amazing ability to take pleasure. Of course, his pride, his vanity, his self-satisfaction there are many, yet must it being aware, and recognize that the mass of his knowledge is small and it still bathed in the 'intellectual blindness. Admittedly, much of the artlessness by men, is the subject of attack and manipulation by demonic entities whose mission is to Mantua effort to get as many remain blind and deaf .

Those, particularly denial, s'affublent pride the title of intellectual or scientific opinion, are most affected by these infernal entities as more able to help.

What is distressing about all this is the persistence of man to remain in blindness, his perseverance, his kindness to focus his attention on trivial data such as materialism and / or technology confined to the advantage, data that would open spiritual doors of reality.

Just go back to the creation of our universe-bit hardware to be convinced that the entities involved in the blindness and ignorance are vanity, pride and wanted to take them for what they were not putting himself at back the being of light who had warned of adverse outcomes that could cause any irresponsible acts.

Accordingly, these celestial bodies at the head of which was the ignoble Satan caused disorder in the universe, celestial forcing the Being of Light to expel them by sending in the material universe-binary. GOD by this action sought to restore order and cohesion in the heavenly kingdom, and established new rules heaven. Now, can access the universe celestial entities consolidated with the cleaning of their spiritual essence and proven by their actions that they reject the forces of evil in all its forms.

The culmination of negative actions causing harm and thus destruction is the result of reckless behavior, which causes the confinement of spiritual beings in the universe-bit hardware and to evolve there must necessarily be of carnal envelope. These are therefore trapped in the world ruled by matter.

To us now assume our actions, and be under the divine law of the being of light who wants all spiritual entities doing wrong, suffer the consequences of their misdeeds.

That is why we must listen to God, reject Satan and work for good.

Let us not make our suffering brothers.

That is why from the beginning and the establishment of man on earth, the one true God has given orders not to touch the spiritual beings we are, and made every effort to ensure that the information, knowledge, truth we are provided so that after our earthly sojourn, we can leave this binary universe to go finally to the one we're from.

God has therefore ceased to multiply contacts with ADAM and EVE, addressing them directly, without intermediaries, concerned about their welfare and teaching them little by little data to know, including those that allow them to differentiate between good and evil, and the consequences that can lead the forces of evil.

Unfortunately our first earthly parents have not entered the exact meaning of the words of God, preferring to live in ignorance, unable to send their children to the data for the truth that God inculcated.

It is noted that some of their descendants have continued or preferred listening to the prince of evil, others have happily followed the advice of God, including:

Enoch, Noah, Moses, Elijah, etc. ...

As for others, and even today, they preferred to listen to and serve this to be despicable, I named Satan, his emphasis and Clark a usurped title, that of God.

It must be said that he had lost all its prerogatives, that attribute to men, playing with the fiber naive of them, their inculcate false data and take them to see him as the creator god of heaven and earth.

This has the effect of increasing the gap between people, setting up two categories of people, those who work with the one true God, and the son of perdition who choose to follow a false

god. The sole interest of Satan, keep men blind and deaf, and prisoners of this world, preventing them from finding the door of the holy kingdom.

This is unfair be reached in large part, simply for that, even today, to see the behavior of men who prefer to work for evil, arguing that God does not exist.

We have seen above different reasons now the man blind, deaf and heavily mired in matter.

Other parameters are grafted and are largely due to the false god that continues to enslave men, believing they praise the HOLY SPIRIT, and thus put under unfair precepts based on aggression, malice, the beggar, the dogma of the eye for eye, tooth for that, where data materialistic leading men to ignore their true inner self, that is to say the 'spiritual entity they are actually giving the body a disproportionate importance and thus leading to bloodshed.

After all, how can you love this world?

How can I rent a certain being called God and Satan?

If you know the Holy Spirit as I the only one who under God must be given, you'd quickly the difference with the prince of the underworld, and you quickly realize that he (God) will save you while Satan wants your loss.

Satan is still some pedantic, full of his own being, pride, and constantly in search of honors.

These features suggest a level of spirituality relatively low.

God is a being of goodness out of the ordinary, beyond the conceivable. It is a BEING from a height of wit and depth of the heart, which explains why it is slow to anger and he forgives his children we are their mistakes. He is so humble, he never wanted to receive the honors. It is far too great wisdom to behave as a false god that serve men.

Why he would seek the honors?

It is above all, it is ALL there is nothing above him, for he is the fullness.

The Secret Book of John says if just the SUPREME GOD:

It is the SPIRIT. It is inconceivable to think like God or similar terms, because he is a GOD. It is a power over which no power because there is nothing before him.

He did not need what comes after him. He did not need life, because it is eternal. He did not need anything because it is imperfectible, since it does not lack that makes perfect.

As you can see, our true Father God is above everything, and as such, it has EVERYTHING.

Everything, everything that exists in all different universes existing, comes from him, and found him. It needs nothing, since it has everything. It wants one thing on the contrary, it is our happiness that we finally live forever with him in the kingdom infinity.

It is easy, but friends make the difference between the one true God, and the false god that people still praise, using the philosophy of this false god Satan based on violence and the cult of the dead.

If GOD wanted to give spiritual beings trapped in the material universe-binary, knowledge, knowledge of any truth is to preserve, protect, Satan and other demonic entities, and also offer them data that can help prevent the infernal beings do not dominate and have no control over them.

Christ said:

The tares are the son of the devil, the enemy who sows them is the devil.

During the temptation, Christ reminded the morning to take his place as follows.

Get behind me Satan. Thou art a scandal, because your thoughts are not thoughts of God, but of men.

Thou shalt not tempt the Lord thy God. Thou shalt worship the Lord thy God and serve thee alone.

Our Father, God is above all desire, except that we do not lose. He wants us to be saved and released.

Remember, this is why he came among men, taking a man's body, coming to earth in the guise of the being of light, making himself known to men in the holy name of Christ.

Therefore he often said:

I am the light, no one can go to the Father except through me. The Father did not want any of his children perish.

What brand of love is not it?

When you look at a man in his behavior, his attitude, his actions, you know who his father because he has the SIGNE

God is a being of goodness, kindness, gentle ineffable. It is just and right. It is of absolute serenity. He hates violence, aggression, cruelty, evil in all its forms.

He loves not those who shed blood.

Her children alike, and all bear his mark.

On the contrary, Satan is the opposite, he is the prince of evil, he is the master creator, instigator, the giver. Everything about him exudes malice, aggression, cruelty. It is absolute evil, and has all the components. It provokes and incites people to pay without the name, claiming to be God. And then he rejoices when he sees action.

Those who obey him, and acting on its behalf, are also a sign of evil. They are always aggressive and react with aggression and violence.

The gates of paradise they are closed.

Taking as a starting point NOE, we see that God has consistently not only make themselves known, but also for increased contact with men to help them and make them aware of reality.

What was his sadness and disappointment, noting that his message did not pass. The prophets, wise men, in their time had enormous difficulties in communicating and explaining the message of God with their own.

And therefore it is the main reason, having no other alternative, that the being of light decided to come among men, both for better awareness by revealing to them but also to better communicate new data. This contact was also of major significance, since men would last what God if misunderstood, and penetrate a previously unknown celestial knowledge.

Admittedly, despite the knowledge transmitted through the centuries to men, it remained to be materialistic agenda on what affects the man over his fellow man or the material universe.

The man has had enormous difficulties to penetrate them, to assimilate, understand, and especially to admit reality.

On the other hand, the man needs concrete visible example of a tangible reality to accept a truth as obvious. If not seen, not touched, he will say arbitrarily, taking as its basic lack of knowledge that is false. Apart from our material universe-binary, which he ignores, moreover, the different components, it is difficult to admit the existence of other universes, let alone that of GOD.

It is for this reason that most HOLY SPIRIT decided to come among men, taking the fact a human body. Thus, it is said, alongside them, among them, walking beside them, it will be easier for me to know, to show their works unknown to transmit verbally new knowledge, new data concerning the kingdom of heaven, they just say the words of truth.

The scope is even stronger, that GOD will finally walk among men and they know it exists. GOD knew that his approach would be difficult, since he says:

"I stood in the middle of the world and I am revealed to them in the flesh. I found them all drunk. Because they are blind in their heart and they do not. "

If you knew how true that is because today, men still do not know who they really are.

However, what's easier then to God, being among men, to choose among them the most awake spiritually, to be listened to them and finally understood. The men accept this fact more easily knowledge communicated by someone they see, they hear, which produces works out standards, and is among them.

The other difficulty is for God to wake them up, to get them to recognize the reality of the words they utter, and their own realities, those of spiritual entities.

As a man, spiritual entity of choice will not be conscious of this reality, and he let himself be dominated by his fleshly envelope, he will remain deaf and blind. It is for this reason that Christ told the men they are drunk, and they do not see.

CHRIST also met resistance intellectual whose central axis is ignorance, moral, mental, a total lack of sense of reasoning and a limited ability to understand, largely due to the apathy of men. One reason for such behavior is a part of that man, spiritual entity, has remained too long locked in her body, and ending by identifying with him, on the other hand, a absence of real data, specific for different components of universe, the existence of the heavenly kingdom, and the link that connects to God, and the source from whence it came.

Apart from waking insiders, the man still known today that they are, where they come from, what are its origins and where he goes when he leaves his body at the latter's death.

It is written:

Blessed are the unified, and elected officials. You will find the kingdom, you are from him, you go back. Many among men, have not yet realized the depth and spiritual significance for it is they are the gift of Christ's self against men, when he offered his life on the cross.

The act of unimaginable scope, is actually several aspects. It is in this major act, the desire to strike the minds of men, leading them to question the truth revealed by Christ, to position itself even more penetrating philosophy, and words of God, to realize that this mystical act remains a solid inking them and now they can follow, because it is really light. They also realize that a new era for them, because the doors hitherto closed giving access to heaven just opened.

The importance of this gift of self, also allows Christ to attract the attention of those who are undecided and are subject to error on the part of scribes and monks imbued with wicked satanic philosophy that put all effort to keep them in blindness, far from the truth. But by offering his life, Christ wants people finally know who he really is, and finally penetrate his words, which are words of truth.

On the other hand, it will happen at this point, what people know, Christ, share the major significance of his Divine Being, will establish, or rather do what he alone can create opening a link between our physical universe-bit, and the kingdom of heaven. Then establish the kingdom is endless, allowing the latter to assert themselves by entering our material world in its fullness, but also and above all the whole world in all its components, including man.

The people who still saw Christ essentially a man of flesh, would suffer a shock in finding three days later that this man is actually a Divine Being, the Holy Spirit himself. This major will enable men to realize that something divine occurred, an extraordinary spiritual value. Therefore they really know who is GOD.

A new generation of man is born. Now they know who they really are. By this action, Christ gives them another message. He tells them he came to save the free world and that they were held prisoner, and his blood shed, creating a new alliance that now binds man to God.

CHRIST also wanted to make men understand the balance of the heavenly kingdom on the material universe, by making them understand that they should remain there only a short time. Their future lies exclusively in the kingdom of heaven.

I conclude this chapter you will be achieving the promise of GOD. Precisely on that day, the day he was crucified, as Christ showed to the people he loved. At the moment it left his fleshly envelope, just before the spark of life is removed from the latter, took place on the spiritual heavenly act as fabulous CHRIST.

The body of God turned into food for the men, that is to say that the being of light has released its vivifying source, the latter fell like a flame of life, penetrating the spiritual entities incarnated in men, giving them eternal life. It is written:

For the bread of God is that which descends from heaven and gives life to the world.

When I am lifted up from the earth, will draw all men unto me.

I would like to make a final point, anything done on the divine radiance of the spiritual entity of heavenly LIGHT occupying the body of Jesus.

As I wrote above, the divine being has left the carnal envelope before the angels of that respect impair the spark of life. This last gesture that allows the body to be recognized died. When Christ left his body, the spiritual entity, occupying the first body she found herself alone, has expressed his sadness by saying:

My God, my God, why hast thou forsaken me?

With these words, the spiritual entity Jesus brought the men to present evidence that the Holy Spirit, the single supreme deity was among them, and they have not acknowledged.

Finally, regarding the promise of Christ's return, the men have not yet understood the real meaning of the words of God.

Remember, my friends, the real universe, the worlds leading the main universe is not ours, but the heavenly universe, the celestial kingdom. To use an image, we're kind of in the side of the celestial universe, and aspire to go to the other side, the bright side of the celestial universe, our true home.

So when Christ said he would not only he did, but he really kept his promise.

It happened in the invisible side of our universe, what I call the spiritual material. It is actually made there in his glory, surrounded by his angels, liberated, liberating the prisoners celestial bodies from the dead. A recent as the word of life has been issued.

YES CHRIST returned as he had promised, but that men ignore.

Listen to these words because they are clear.

Speaking to his apostles:

I tell you truly, you will not have gone through the cities of Israel, the son of man comes.

There are many mansions in my Father's house. I go to prepare a place. And when I go and I'll get you ready, then I will come and take you with me, so that where I am you may be also.

While the apostles asked when will the new world, Christ said:

What you expect is already come, but you do not know.

Try, my friends, organize a symposium, a debate on aggression, violence, evil men and their consequences.

You would be unpleasantly disappointed to hear some people assistance, provided they are part of the high percentage of people aggressive and violent, addicted to inflame hatred of wickedness, to clear customs or to the source material on on behalf of others. It's never them, but others who have been wrong, Christ said so aptly:

Before removing the straw from your neighbor's eye, first remove the beam in yours.

Such defects generally arise in envy, lust, greed, the spirit of superiority, whose central axis is ignorance and incapacity, sufficiency, hoarding, hatred, l'aversion, etc.. people who support them by making them his own, blacken their spiritual essences, and never recognize that they are the primary cause.

You witness a fiery exchange of words, persons who use false pretenses and unfair to justify their aggression, claiming that the company is well made, or that religion gives them the right.

Regarding this last point, we're dealing with religious lower floors, which are advocating a satanic philosophy, claiming to act on behalf of God.

Since the foundation, the cement foundations of monotheistic religions are the same, ie based on the word of God, the One God, the use and application of the precepts whose central core is LOVE; how can we, to justify violence, talking about religion or pretend to do so in the name of GOD?

Unless these so-called religious have a personal interpretation and therefore arbitrary word of God, or interpretative inspiration, finds its source from the prince of evil. In this case, have the honesty not to mention religion, but put forward a concept from arbitrary or a heretic guru

whose philosophy is rooted in the depths of the universe of darkness and / or the guru is the abject Satan.

In this case it is clear, we know that vehicle on the planet, these obnoxious and pernicious thoughts. The monks who convey false words of God, incur the wrath of God, for them there will be no forgiveness.

As regards the heads of states and governments and all decision makers, choosing violence, aggression, as a mode of action and expression, and wanting to flaunt their power, are generally motivated by pride and vanity, two defects in addition to others.

They are, but they ignore it, the weaklings who have only this means of expression, strength, to be heard and express power. The beings in the spiritual high, are entities in the image of God, calm, peaceful, rejecting violence, especially seeking peace and unity among men. Only weak men feel the need to shed blood to be heard. They are not God but the prince of evil.

Since we pay the blood, killing during a military attack, civilians including women and children, it commits an act of cowardice. This behavior does not build peace, the more it stirs up hatred and dividing people. In shedding the blood, these makers build their tombs.

There is no justification for violence, wickedness, crime, except by agreeing to apply currents of thoughts from destructive beings filled with hatred of mankind and not wish that his loss.

Do not listen, and do not follow the guidelines of the men of Satan, because like their father the devil, they want your final resting place is the universe of darkness. I know religious men who taught hatred and contempt for others, up to ask them to shed blood on behalf of a false god, and who are now in hell. Do not follow the religion of Satan.

There is an important thing to understand, Satan drew generally or intervenes with ambitious men, imbued with the person, who love to talk to them, who like to put under the spotlight in search of power and profit, anything to achieve this, unscrupulous, and spiritual level low or nonexistent.

It helps by providing a force of nature as they can scan everything on their path so they can get everything they want and asking them to return the application of its own destructive and deadly designs.

However, as sure as the prince of evil advocates the philosophy based on the absolute materialism, he arouses in man the violence, envy, desire and urge them to implement them. It excites those who embrace it and stir them in all these flaws until they die completely. Satan to achieve his ends, made sure to make men blind and deaf, and managed to close their heart, making them hard and not compassionate.

It says:

You hear your ears and you do not understand, because the heart of this people has become insensitive. They have hardened their ears and they closed their eyes lest they see with their eyes and hear with their ears, they do not understand their heart, they are converted and that I the cure.

The Holy Spirit has often placed the men on guard against this being infamous, prompting them to respond and stay ahead of the philosophy of the Satanic entity.

Christ said:

The old man will not hesitate to ask the child seven days about the place of life, and he will live. The day you'll be naked as newborn children who walk on their clothes, then you will see the son of the living. For you, there will be no fear.

In other words, the day you become aware of your reality of spiritual entity such as newborn children know, ignoring the existence of the carnal envelope, then you will see the son alive. Reject once and for all, the Satanic creed whose watchword is: An eye for eye, tooth for tooth. Many men who praise today, thinking to serve the true and only God.

Given what I just said, data is obvious. The man must imperatively establish ethics. By ethics, I mean an attitude, a moral and civic behavior than men to follow individually or collectively, to get them to love and respect. It requires them to carefully follow specific rules giving everyone; rights and duties, including penalties for such failure.

Its purpose is to allow spiritual entities to improve and grow in loving and respecting each other. The establishment of ethics leads inevitably to the order, fraternity, respect, equality that encourage men to enter data relating to justice, honesty. Therefore manifest themselves naturally the concepts of sharing, honesty, courtesy, affinity.

Imagine for a moment my friends, a young man eager to learn, questioning his father about the roots of evil. With the approach of the great century, as many men and women it raises many questions about its future. How not to be outraged, disgusted by such wickedness.

I can not open a newspaper thinks it, listen or watch television news without it being a reported a variety of gruesome facts, acts of violence without real foundation, if not the only order to satisfy his libido. Like many son in this case, he turns to his father and asked him the following question:

Why is man so bad? What is its basis?

Think my son, you know the answer. Analyzes the behavior of man with objectivity, honesty, integrity, non-judgmental? The answer is not only material. Back to the origin of evil, my son's father answered, then you will find.

Like many kids his age, he feels a visceral contempt against evil forces and their manifestations and ramifications sprawling. For now he said, but believes the answer to your father and find the origin of evil. Then the scene of temptation through his mind. But yes, he said, is the first point, disobedience?

This is not in itself reprehensible since it does not affect the development of the spiritual entity on its similar or persons they rub.

The act of disobedience to add a state of ignorance notorious actions inevitably harmful to both the person who disobeys that those around him. The provocative or inciting disobedience is all the more reprehensible in this case it uses for petty mercantile, or just pure malice, lack of knowledge manipulated for the sole purpose ulterior to lose keeping them in ignorance and blindness.

With further its reflection, our young man realizes that he can associate with disobedience, besides ignorance, pride, vanity, conceit, stupidity, flaws that repel men of quality first enacted Through Christ I am talking about love and humility.

The wise man naturally associates. But this penetration of mind when implementing the entity provides an opening on knowledge, greater understanding of the truth. Otherwise, the defects mentioned above, pushing son to turn not only against their fathers, but also against any form of authority. While addressing these topics, our waiter suddenly feel the jealousy. But yes, he said, jealousy is linked to all these facts, because it causes many clashes, disagreements, bursting, tearing. It leads men to commit the worst abuses, highlighting in their mind, aggression, cruelty and causing considerable pain and suffering.

At this stage, men are closed to any form of reason, listening, understanding.

If in addition to the defects cited entity adds envy and desire, then it will commit acts irreparable, which sank deeper still into the material making blind and deaf.

It is written:

And they, it is against their own blood they rise from the snares, it is their soul they tend traps? These are our iniquities have separated between us and God. It is our sins that we hide his face from us listen. Everyone who does evil hates the light, neither cometh to the light, lest his deeds should be reproved. It is vital that the man do his self-criticism and a list of all its

shortcomings. It must be able to highlight its lack of dialogue, linked to an understanding of heavenly mysteries which is conspicuous by its absence.

The misunderstanding is sadly evident at all levels on the earth plane and many policymakers and parents are simply evidence of loosening, abandonment, merely to work for themselves, demanding results from conspecifics, ignoring as much as it can their difficulties. How in these conditions does not understand that after a while boiling stagnant in the minds of men, gives rise to clashes, social movements, explosions of all kinds. This condition does not manifest a major development of the human race, a nation on the whole of humanity.

Now we are seeing more and more a widening gulf between rich and poor that it does stir policy makers and affluent. Better still, because often they are the same.

Is this normal?

But understanding and compassion allow one hand to better penetrate the problems and difficulties of men, but also to better understand them, understand them, raising the grievances of the latter, their needs, their wants, their aspirations and in making their terms of real concrete ways, solid, safe and sustainable by providing dignified and durable solutions. This approach must be conducted without calculation selflessly, with compelling reasons to work for the good of the needy and especially their future. Ultimately, this action should be extended towards all men.

It is imperative for all decision makers at whatever level they are, remove the injustice, the suffering it engenders, the gap in social, professional and human. This course goes through listening entities to analyze the desire, claims, difficulties and sufferings of the latter.

Listening can remove to free himself, gives the feeling of being finally understood, making it more accountable, give him more confidence and makes him especially his dignity. It then covers his calmness, his serenity and rejects any aggression or outbursts of negative masses. A climate of sincerity, loyalty, sympathy, honesty prevails, the concept of sharing, equality makes sense.

At this stage, it is crucial to help the spiritual entity to take in hand by making him aware of the realities of the exact place she occupies in society and the role it plays.

This requires of course, by taking better account of the mistakes of relaxations that can animate and seeking the easy life that leads inexorably to chaos, destruction and have the final result that delaying his spiritual evolution.

It is therefore important to impart knowledge on how to recognize the liars who have one goal, running in leading them to perdition.

The material universe-is ultimately a bit role in the spiritual evolution of man. Not only was his presence on earth is not a fluke but as you know now, this incarnation has been the subject of careful preparation on the part of angels. The place of our birth, social background, country and parents have chosen the subject of research prior to a successful incarnation, whose goal is to enable us to get all the basics and have all requirements to perfect our spiritual evolution. The earth gives men the foundations of knowledge and ability through tests faced and mastered to strengthen and purify their spiritual essences.

They can therefore make allowances for things perceived good and bad to take their essence, and a penetrating mind sharp, be able to reject all the negative forces of evil expressed by making a choice, emerge from the world equipment or otherwise remain deeply mired.

The time has come for man, as Christ said, not to work blindly, having now a sensible, based on knowledge, the holy word is truth, bearing in mind that its attitude determines its future spiritual. I've already said, the material universe, the sphere where we live, the universe is not major, but happens to be the lowest.

The world of higher levels and especially the heavenly universe, place of residence if I allow myself to God, Christ, God, are healthy spaces of all impurities and any spiritual entity is access, if they do not previously purified their species but also learned penetrated, assimilated

and made their, words and precepts of God but not indulge yourself and come to the counter and reject achieving a perfect self-control in acting without calculation or ulterior motive, unselfishly.

That is why our presence on earth is a chance for us, because God gives us the opportunity to learn the lessons necessary for our purification being confronted with evil, knowing what it represents, in penetrating these harmful and destructive effects so that eventually we are able to reject the hating, as God himself hates him and those who give. Finally, we must reject materialism in all its aspects.

Do not most of these blind men my friends, who all too many weakness and ignorance, blame God for all the ills and disabilities of men. They are recognizable because they say too often when confronted with various pain:

What have I done to God, why do you make me suffer so much.

The pain and suffering extend over all the earth, where is God?

Mas friends, do not accuse God falsely, for there is nothing. Those are charges of shameless and unfounded, based on ignorance and refusal to admit that we ourselves have an important responsibility on what happens. Men wicked son of Satan, attribute to God that emanates from their heart.

An American lawyer, then a defender sentenced to death, had told his people: our society is sick because she was afraid of seeing his own inhumanity against others.

Yes, man has become insensitive to pain, the suffering of others and express their inhumanity against others if it affects a member of his family.

Christ had said about the wicked:

Woe unto you wicked men, because you clean the outside of the cup and platter but within they are full of extortion and excess.

Cleanse first the inside of the cup and platter, that the outside also may become clean. Outside you appear righteous unto men, but inwardly you people full of hypocrisy and iniquity.

Do not follow the perverse reasoning of those who claim or justify the wickedness of man as natural, for conformity with what transpires in society. This is simply petty and monstrous.

Make way for these people.

Remember that our presence on earth is precisely due to evil, whose mentor is none other than Satan. One major reason why we are on earth, is mainly to learn the various facets of wickedness, to be confronted, in the matter. The ultimate goal is not to return evil we have suffered, whatever the circumstances and to hate evil in all its forms.

The earthly life offers us this opportunity, hard indeed difficult but necessary. Thanks to the difficulties, bullying, insults, humiliation, suffering from the evil that we build our spiritual essence and pay little by little purer. Remember the words of Christ:

First wash the inside of the cup and platter.

But many are poor, poor, needy, who feel abandoned by God, or who complain about their conditions. The latter does not simply render account, they are on the right path, one that leads to the liberation of the spiritual entity. They are the best school, one that opens the mind, which gives access to reality, indeed. They need to consider their situation as an opportunity, because it leads to a greater awareness, namely to enable them to enter data about the rejection of materialism, those pernicious that the man away from light. They can reach a state only they can know. Humble by nature, they know what is the inner light.

Christ said:

Do not labor for food that perishes, but for that which endures to eternal life, and the son of man will give you.

Woe unto the world because of scandals, because it is necessary that offenses come, but woe to that man by whom the offense cometh.

As for those who choose the path of evil, opting for the evil as a means of expression, I tell them, quickly abandon this path, because it certainly leads inevitably to the world of darkness. Yes I know it is a false data, commonly prevalent among men who have made violence, aggression lifestyle, claiming that it is the only possible way to enforce this. Let me just say this is false because it is actually a sign of weakness.

Do not follow Satan and his son. They exhort us to return evil for evil, or hate a man of another color and belonging to a different race. They want to lose you. Remember my friends, the prince of evil, hates men and wants one thing, their loss.

This is not because someone made you suffer, you have your turn to do the same, you're no better. Not only is it a sign of weakness, but you use just the thoughts of Satan.

Christ said:

"Learn what it means, I take pleasure in the mercy and not sacrifice."

Nothing happens by chance, because in the field of spirituality, luck does not exist.

So my friends, do you not take God at every turn, when you suffer, or that misfortune falls on you or your family. The reasons for this attitude are many and varied.

Suffering, misfortune, pain, poverty, are due to two main factors.

The first result of the conduct of the entity itself, which throughout its present existence, or at its latest incarnation, has shown malice, cruelty, contempt for others, racism, since she had experienced little or consideration towards people with different skin color, or belonging to a race other than his own. As I said earlier, a man who behaves well, emits waves or masses negative, if they reach their targets or entities to which they are led, inevitably return to him. It is a law which is divine suomi man. No one can escape if.

The second round results from testing, to ensure that the topic not only reached a high level of spirituality, allowing it to enter the celestial data and he has understood and assimilated, but and above all he is able to cope with various difficulties, or various pitfalls staked on the land that are suffering, pain, poverty, envy, desire.

The entity is facing, must prove they can cope with calm, serenity, humility, it can solve these pitfalls, but they turn reach, making in all circumstances and selfless self-denial. Whatever happens, his inner calm must prevail.

These tests as you can see, is useful and beneficial because they enhance the essence of the spiritual entity, and it certainly achieves the state of arousal. It no longer belongs to the material world.

Therefore my friends, now that you are better informed about earthly things, you better know your true Father God, do not falsely accuse, because he not only loves you, but his only desire is the fact that we left the material universe-bit, and we would finally find our true home, in the celestial world, where we expected.

It is written:

"I urge you as aliens and strangers on earth, to abstain from fleshly lusts which war against the soul.

If encountered by the tests on earth you discard all greed, envy, desire, etc., you purify your essence, you have nothing to fear.

If by the spirit you feed the actions of the body, ye shall live.

Happy is he who has been tempted, he took in life.

Blessed are you when men hate you, when they persecute you, nobody will find this place where you are not persecuted. "

To conclude this chapter, I would like to highlight an important point. Since time immemorial, and through the centuries to our days, man has gradually forgotten who he was, eventually identifying with his body, so to speak from his real self as a be foreign to him deputy. But GOD SPIRITUAL BEING par excellence, the primary source and vivifying

where we all come, it's always been known to men as a spiritual being, and it is also always sent to men as such.

There was therefore from the outset and that since Adam and Eve, and until the advent of Christ, two forms of thought, one spiritual and expressed from GOD, which when addressed to men, was on actually an exchange between him expressive spiritual entity SUPREME and other spiritual beings living in a fleshly envelope.

Men unable to comprehend its meaning, change and transform the words of God, translating them in materialistic terms. As a spiritual thought initially became humans, materialistic thinking, the misunderstanding has been from the outset TOTAL, and continues today. Even Christ had difficulty understanding this, because he spoke to men in spiritual being and knowing it could not be included, frequently expressed in terms imaged or parable.

Remember what it was once said to Peter, the latter having not grasped the real significance of his words:

"Get behind me SATAN, thou art a scandal, because your thoughts are not thoughts of God, but of men."

It has always been so.

Men still continue to reason, to think in terms of materialism, which is likely to change, to distort the divine thought, the divine word. Instead of receiving clear, carefully, analyze and interpret the word of God as it should be, and finally to act spiritual entity, the man emerge from the material universe-bit and especially its material body where it is held prisoner. He came out of ignorance and blindness when he was stationed. He then perceive reality, grasping the exact meaning of the divine word.

Woe to you scribes and Pharisees, hypocrites, for you close to men the kingdom of heaven, you do not enter yourselves, and you do not let those enter who want it.

So now you know you loved all spiritual entities, from the divine essence of your true father, God, be like him. Also argue, think, express yourself in the same way, act primarily spiritual beings, I repeat again, what you are. Then you will understand much better the word of God, you know more clearly the meaning and scope, you better penetrate the fullness, everything appears clearer.

I remember reading, long ago, a book of famous alchemist Nicolas Flamel, devoted to the study of the philosopher's stone. This book was actually an open letter to his son, and was intended to enlighten on the real motivations that must have the neophytes and the real purpose of one who embarks on the quest for the philosopher's stone.

In this work, Nicolas Flamel explains in detail, but voluntarily in the confusion, the purification process of the vile material. Contrary to the belief of many men and especially those who are interested or give themselves to this science, the ultimate goal of the alchemist is not and has never been gold, or transformation, transmutation lead into gold. This stone is actually after treatment, a powdered saffron. It especially allows the alchemist to discover the key to the celestial world.

Nicolas FLAMEL expresses this truth, and says this to his son:

"Do not forget my son, when you proceed to the purification of the vile material, follow the same path in parallel.

Our famous alchemist as many insiders, had understood the duality of man to have penetrated the secrets and therefore wanted to share this knowledge to men, making them understand that they can not cross the door that those who took awareness of their realities, and purified their spiritual essences.

Access to the celestial spheres and at that price.

Nicolas FLAMEL truth reveals a fundamental fact. It is one of the first to convey to those who engage in the quest for the philosopher's stone, like those who go in search of the Grail, it

is important not to remain on the material or materialistic thinking in terms to achieve because the truth is on the spiritual plane.

The path taken by the applicant is actually the link between our imperfect world where illusion is the master and the real world. The philosopher's stone and the Holy Grail, have no value as such. On the contrary, they allow the spiritual entity that went into it, to free themselves from earthly constraints, to move away permanently from materialism to finally enter the heavenly world, and being in contact with, as pointed Nicolas Flamel the universal consciousness. That is to say God.

The purification process of such vile material that expresses our alchemist, is actually a transposition of the path that must follow the spiritual entity, and highlights an essential previously enacted by Christ, who is to do everything implemented to achieve inner peace, peace of heart by beating the field. I have explained above how.

The process of purifying the material base or impure, which allows for the philosopher's stone that is truly for the alchemist, that obtaining or discovery of the hidden key that opens the gateway to heavenly kingdom. To better understand and reach the ultimate goal, the alchemist implements the treatment process in its innermost being and am in the same parallel path. Its essence is spiritual undergoes a transmutation and detaches from its fleshly envelope.

Man must change their behavior and change their habits based on selfishness, greed, envy, desire, instincts largely driven by ignorance, and start loving. When men understand that they live, they exist in a binary universe, which happens to be somewhat anti-chamber of the universe. Principal or predominant. We are identical to the peoples who live in the rainforest, and are confident of being alone in the world, or no more developed civilization existed.

When you understand that you are wrong?

To love is to give fully to others, is to take upon himself the sufferings and pains of others.

Love is compassion. To love is to have a pressing duty to relieve the others by giving assistance in humbly offering solutions. To love is to give to others without calculation, without ulterior motives, without asking anything in return. To love is to provide others with love.

Thus and not otherwise, that man can definitively reject the forces of evil in all its forms, and he will join the son of God. The true God who is love, justice and peace.

Then we become what we have been from the beginning, plus the state of holiness has purified the meantime our spiritual essence and consolidated state.

CHRIST uses images to explain the situation in which the entity is reaching that level. This therefore rejects everything that touches and concerns the material universe-bit, giving everything to others, and refusing to receive.

CHRIST exposed as follows:

"My disciples are like kids who have entered a field that does not belong to them. When the owners come, they say:

Leave us our field. Then they take off their clothes, they recognize themselves naked before them, leave the field and make them. "

GOD noting the aggressive behavior of men, raising intentions, reasoning, erroneous view of reality and materialistic ideals of these landowners working for their own losses and especially of mankind, let them make that decision, taking disastrous and irresponsible resolutions, cause of actions and results monstrous, to create in the collective consciousness of a position, positive feedback, and a moral revolt on the part of men, so that they put an end to actions unaware of the religious leaders or agents of SATAN. For men they lead to disaster, blindness, personal interest in putting forward false reasons or for spurious reasons.

GOD let go, because man is now supposed to know the truth, able to differentiate between good and evil, capable of recognizing the son of light, those of destruction. GOD finally hoped that among men, just stand and make their voices heard, and put in writing the true

motives of these leaders so unfair that the human conscience is shaken, and that they will finally awaken from their lethargy and displace these statesmen and judges them for their crimes. Peace, justice, love, spiritual development must now lead the men. It is high time.

GOD said there was already long:

"What do you expect to reject evil, you who would have been a long time teacher, I still hear you like children."

I have one last up to tell you my friends, the latter is significant and crucial for its ultimate success depends on your final entry to paradise, to live and you will rest for eternity.

Everything I told you so far is very important because it somehow receive data directives that allow you to walk on the path to the light with confidence, knowing what it takes to purify its spiritual essence and remain in a state of spiritual holiness necessary because salutary. But this is not the first phase.

The second flow the previous because it opens new opportunities and gives access to hidden knowledge in the spiritual world for too long remained hidden from men. At this stage, the spiritual entity reaches a state of arousal, and few enter as often as desired, the first level of the spiritual universe saint looks better, and receives his encounter with angels, a know unknown men. It is then initiated either directly by God, or assistants that are heavenly angels. These are then mission of the being of light transmitting the spiritual entity, the knowledge about the truth. This can range from the revelation about the incarnation of the spiritual entity and its implementation in a fleshly envelope specific approval by the entity in the spiritual world, so it can penetrate and especially to see her reality, or by the revelation about the proposed follow all entities having left their bodies at death of the latter, and they follow the orientation is towards the universe holy to those who have chosen the right path or to the world of darkness, for those who have done evil.

Angels we can take a little more confident, more penetrating reality, the truth about the universe age, and know that everything God says is true. Then the body knows it is on the path to liberation, and it reaches the final stage.

At this stage, the alert gets something of a last test, to ensure that it has reached a state of total treatment, and that whatever the circumstances, it does not succumb, and that it is irreversible. This test ensures that despite the various temptations, the entity will remain in perfect condition and full of holiness. The entrance to paradise is the price.

For the implementation of this last test, the being of light calls to specific entities, whose task is to offer spiritual entity candidate for eternal rest, to meet a specific test, it will not only overcome the traps, but the resolve and especially not to succumb.

Christ showed us by example, showing us the way, when he was tempted by Satan. And although it is well for us during the final phase. The entities that make us pass this test, do not belong to the celestial world, but are not part of either the world of darkness.

They have a clear role to play and stick there.

This test takes place in the first level of the spiritual universe. As I've already said, the material universe-bit or we find is actually the lobby of the worlds leading the heavenly universe. If this test takes place at this particular location is to ensure that we have cut all ties with the material universe, and we do not use more. For this reason Christ said often:

"Whoever does not release his father and mother can not be my disciple. Whoever does not release his brothers and sisters and does his cross as I wear it, is not worthy of me. "

Anyone who knows the world discovers the body. But he who discovers the body, the world is not worthy of him.

Entities to make us pass this test will use a variety of fireworks, and will make every effort to make us fall into their trap. All they will focus on materialism and tends to check if we are still bound to our fleshly envelope, to the opposite sex etc.. We have to demonstrate that the human body whatsoever, plays no role for us.

Until this link carnal envelope-spiritual entity remains, persists, persists, there can be no liberation possible. This is in fact the ultimate test we have to spend its entities.

The Holy Spirit knows how difficult it is to reach this stage, but unfortunately he has no choice and we are obliged to offer all its tests, because too many of our imperfections. In the beginning, if the heavenly kingdom was divided into five regions celestial, celestial bodies all who lived there were free of all actions and movement, also making their free choice, just as humans later.

One of these celestial beings with thoughts bellicose wanted overstepping its prerogatives, even to challenge the choices and actions of God. We now know what he did to the man he hates. I am of course talking about SATAN. Having polluted the kingdom of heaven waves and negative mass, God drove him from the world holy, so that this universe remains holy. Then he made sure that all access is impossible for any spiritual entity impure.

Since that time, all the spiritual entities who wish to enter the holy kingdom must meet all requirements. The beings who enter must imperatively be in harmony with the overall philosophy, the thought of the Holy Spirit. They are like the Father, hate evil in all its forms. As I said in the preamble GOD knows how hard it is to achieve a state of arousal. Also in loving father, he helps us, advise us by sending his angels to transmit what we know, teaches us the mysteries of heaven, or directs us on track. Then he gives the spiritual entity equipped with this knowledge, the time to assert themselves, to make every effort to ensure that his thoughts, his actions resonate in harmony with the vibrations and heavenly precepts. I will now tell you what happens during this last phase that I lived, and you can have a clear idea.

Remember my friends, what I've said about the two UN. And of all spiritual entity must meet to wakefulness discharged, be separated from matter, that is to say first of its carnal envelope, but also respect our material universe.

In fact, it is primarily and it follows from what I have said, cut all ties and carnal intercourse with any man.

That is why Christ said:

"There are men who are eunuchs for the kingdom of heaven."

Yes my friends, this is essential. It is necessary to get rid of all impure thoughts, which could harm our spiritual essence. As you understand now, treatment is primarily mental. The thoughts can destroy and damage. But he who has attained the state of arousal, has extinguished all thoughts of war and harmful. It is the sine qua non for any spiritual liberation. This phase was used to test for me.

For a while, I happened to escape from this world I hate, because it is bathed by the suffering and pain, delivered by unscrupulous men without conscience who like to crush their fellows. So I'm going in the direction of the celestial universe, at peace, calm, serenity, joy of living. BEINGS The skirts that I express kindness, gentleness. He exhales them vibrations of love, yes indeed I am. This place is so relaxing that I intend to go there and stay there if the father permits me, definitely.

That day, I realized, a question to rest vicissitudes of land in a beautiful garden. I was so happy to be there, I have not even tried to inspect it, as will any entity arriving in an unknown location. No, I was calm, serene, and meddled in other people who walked as if I knew this place well. I stayed a moment to watch people move slowly, happy. Plants and flowers were really beautiful. If men could learn all this, they quickly abandon their search of ephemeral earthly pleasures. More importantly, they have proof that the path of evil they have chosen actually lead to perdition.

Here there is no violence, no aggression, because here the evil has no access. At one point, having found a table laid on the lawn, I decided to dwell for a moment, just installed, others men and women came to sit beside me at the table. I must confess, having no recollection of

the conversation we held, but I guess we talked about things and others, and of course the problems on earth.

At a time when I was not expecting it, a woman sitting beside me had a very inappropriate gesture and ventured towards a part of my anatomy, that decency forbids me to name here. I was both surprised and amazed, as the scene unfolded in front of everyone. What was even more surprising is that those present did not seem surprised, and looked calmly, silently. Other, contrariwise, looked at me strangely, expressing deep embarrassment, wondering if I would react by releasing the hand of the girl.

First I had recoiled, surprised by what happened, trying to understand. After all, I was not on earth, what it all meant. Then I realized that I was subjected to a test, to check if I had cut the bond that bound me still in my carnal envelope. What I lived was virtual, but so real. My reaction would have been immediate, which was not the case because I was slow to react. Being still in a body and this earth, there was certainly a lot. Now I know I need to cut this last link is to be completely liberated. This temptation was salutary for me, because I became aware of its reality, and control that we acquire. I must say that I did not know until then, commits to conducting these tests, in what circumstances and by whom. I had yet to respond as Christ said, be unified, simplified.

If you successfully pass this third and final phase of my friends, you will have reached level ground, a total detachment, you could say:

"I am not of this world, because I return to the vivifying source of where I am after."

This book is the result of the revelation that God in his great goodness, allowed me to know. His dearest wish is that we are all free from this material world-binary, we are all saved. So as Christ said, what I found, your turn transmit it to others.

It is written:

"Therefore every scribe instructed in what concerns the kingdom of heaven is like a householder who brings out of his treasure things new and old things."

Christ said:

"What you hear in one ear, said to the other ear, proclaim from the housetops. Nobody lights a lamp and put it under a bushel or a hidden place, then put on a stand so that the inside and the outside we see the light. "

I'll finish this work by sharing with you my friends for a major revelation with the being of light gave me the honor to receive the premiere. It gives me unspeakable believes that grant me the father in me revealing the secret of heaven, which finally allows men to not only better known but also to better penetrate the reality and divinity of God.

You can imagine my friends, I feel immense joy to be the first to be received this revelation of light. I remember these words of Christ:

"What you hear in one ear say to the other ear, proclaim from the housetops."

Blessed is he who is first to exist.

You have in effect five trees in Paradise, which change neither winter nor summer, their leaves do not fall. He who knows them, will not taste death.

If I am referring to the sacred books, there is mentioned the trinity of God. The men are based in expressing the reality of the Trinity, on arbitrary data, and misinterpretation as based on ignorance of knowledge and reality of heaven and above on a misunderstanding of the Holy Spirit.

Now you know God better, and also know that this is another form or representation of him, I am of course talking about the being of light, which made all the creations. So it is just, and our Father God wants, that we know best, which is unfortunately not the case.

I told you about the Holy Spirit, the first in what is, by saying so imperfect and incomplete that it is its particularity as to the reality of his divine essence, I referred briefly to the celestial essence of God, saying it was a union, even if it seems wrong word, five divine entities.

YES, the FIRST, the Holy Spirit is divine in its essence, a component of FIVE CELESTIAL BEINGS IN ONE.

The Holy Spirit has a single divine essence, which gives it the exclusive opportunity to intervene, contact, offering support and guidance to spiritual entities, throughout the entire kingdom of heaven infinite, since it is the fulfillment, the entire component. The interior and exterior of the cup as correctly put by Christ the full and total component of the kingdom infinite, the universe of heaven.

This unique ability is explained by Christ, when he told the apostles:

"If you love me, keep my commandments. And I will pray the Father, and He shall give you another Comforter, that he may abide with you, the Spirit of Truth that the world can not receive, because it neither sees him nor knows him. But you know, for he dwells with you and will be in you, the Comforter, the Holy Spirit, whom the Father will send in my name, will teach you everything and remind you all that I told you.

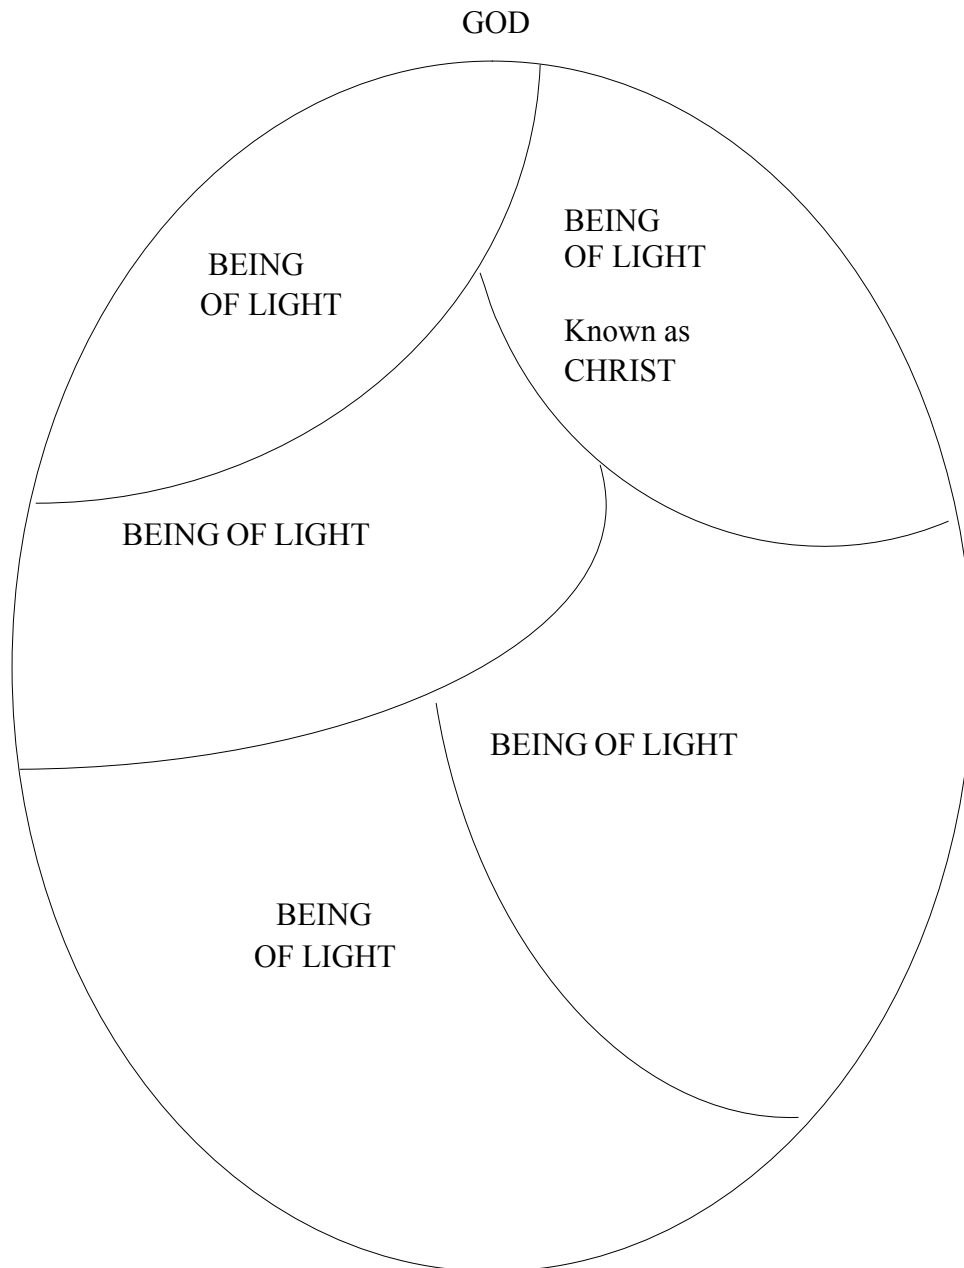

When the Comforter is come, the SPIRIT OF TRUTH, it will lead you into all truth ... "

God communicates with men, especially those who walk on the path of light that reached the state of arousal, by transfiguring. It acts through one of its five ENTITIES OF LIGHT, to breathe in the essence of spiritual entities, the word of truth, wisdom, openness, knowledge of heavenly mysteries, and Learn about the being of light, that is to say of himself.

Thus the being of light, itself one of five being of light and therefore one of five forms or representation of the one God gave me to know not only the divine mystery, but also my Parents, let me know with certainty that I am coming from the source which is refreshing in it, so I am out of him.

The five trees referred to Christ, are actually five components of the divine essence of the Holy Spirit of FIRST, the ONE and ONLY TRUE GOD.

God is One, and his divine essence is a union of five BEINGS OF LIGHT in only ONE DIVINE BEING.

GOD is both:

The verb, the creator of all things. It is the active force of God.

The spirit of truth, also called Christ, "the Comforter". He teaches all things and remind spiritual beings, everything that Christ said and taught. It shows people the truth. It is also one that provides evidence and data relating to sin, evil in all its forms, justice, the trial. It transmits the hidden mysteries of heaven.

He is the owner, the owner and the propagator of the germ or spark of life that allows everything, including human life.

It is the first and the source of everything. It is the absolute component of all, the first principle, the container and the contents of all things, including mankind.

It is the source and the major principle of wisdom, knowledge, science, knowledge. He is the master of wisdom, justice master of time. IT is love.

The men are all you know now, the major spiritual entities, and are as such, all of the source from which God is quickening sole owner, since it remains within it.

As such, they are sisters and do not suffer any difference. Therefore God has had to constantly tell people they should love each other because they are all brothers. Also, the time has come for them to understand that if they want to walk on the path to light, they must overcome divisions arising from ignorance, religions iniquitous growing spiritual entities to proselytize shameless, arguing that such a religion is superior to another, and therefore more easily leads to God.

It proves that religion does not simply know God and do not understand despite all interventions.

But I already had to say, God never told the men that gave them a particular religion. Also those who claim otherwise, would only highlight the thoughts and actions of their belligerent father SATAN.

On the contrary, the Holy Spirit has given to men to help and guide them better, precepts, commandments. At no time GOD as CHRIST has talked about religion.

The men, spiritual entities par excellence, having the same origin, must first understand that love should inspire and connect with each other. Different religions have suffered for some of the deviations are dominated by men, and are meant to divide human beings, especially if they keep within them, clerics who advocate or professes hatred, leading the faithful towards evil. Any man who kept his heart in the covenant of God, conveyed by his actions to the precepts, the word of the being of light, which breathes the love of God led in all directions, and having renounced materialism, now works on the path of light.

To better convey to men the lost knowledge, and enable it to emerge from the material sphere in which they are held captive and isolated worlds spiritual heavenly, the being of light has made every effort, using various means and methods to contact spiritual entities incarnated. GOD has tirelessly tried to find among humans, who distinguished himself by his wisdom, his humility, his love for mankind, his sense of justice, and continually seeking data related to the truth.

The BEING OF LIGHT coming towards him, and send him a specific instruction, precise, based initially on the ground knowledge, thus bearing on the place of man on earth, reports that must be in respect of his fellows, by correlation with matter and the universe where he resides, and the real existence of One God. Then continued his training mystic, by inculcating data on celestial mysteries.

These words of truth, precisely to enable the initiate by God as a guide to communicate this knowledge to men so that they emerge from isolation and ignorance in which they are confined, especially in making them aware consequences that may result in their actions towards them and their peers.

We have seen above, these contacts have always occurred, and few periods or guides, bearers of new knowledge, had listened. The men unconscious, did not measure the approach and scope profound teaching that they revealed the prophets, nor the opportunity available to them, to finally learn the truth.

Therefore, given the apathy which had plunged in men, and their inability to reflect with objectivity, clarity, God has sometimes been forced to come on earth among men, making himself known to them without really revealing. His works and know that he dispensed with spiritual entities, foreshadowed his divine self, and could arouse the attention of men, leading them to ask questions about this new teaching, the scope of these new words. Indeed, on this new knowledge, provided that finally took into account their own development, evolution, and which highlighted the possibility that they were offered access to a better world of love, just peace. They could finally learn more about the true GOD and the universe where he resides.

The first real approach to the being of light always takes place today, because your servant is the witness. It aims to awaken the consciences of men, closed orders, mired in the material and sealed to all teaching on the truth.

Therefore BEING OF LIGHT chose to apply to men as would a father to his children know limited. It was initially transmit the knowledge and the truth gradually, first primary data, elementary but sufficiently accurate and complete, with the obvious aim to reframe human beings, and place them on the right path.

Remember my friends, the words held to DANIEL envoy GOD:

"Look up the words, and seal the book until the end time. Many will read it, and increase knowledge. "

At that time, men were wicked, individualistic, corrupt, faithless, proud, eager to amass material goods, constantly in search of profit, power, fomenting plots tirelessly, and deviated from the path of God . His laws and precepts were forgotten or discarded. Some of them have posed this question:

"But where is the God of justice? .

His presence among men, I am of course talking about the being of light, is often passed virtually unnoticed. Are primary purpose was not only to choose among the men most awake, most wise, to make a guide. The latter usually head of a community, transmitted to members of the latter, knowledge, teaching and words of truth, with a mission to spread and make known to other peoples around the world.

Do not we say that God is:

Love, peace, justice.

It is written in the book of the Lamb:

"The prophets are working to show that the son of man is the master of justice, Shiloh, whose word is the word of God, and it is larger than its predecessor, Moses."

It must be said that this time there was a lot of turmoil, and the agitated state of men was such that within this nation, a holy community and faithful to the LORD, knowing that God would send MESSIAH, was reserved for the latter title that best characterized it as only he could wear, that of:

MASTER OF JUSTICE.

Isaiah says he does not have the being of light:

"Justice shall be the girdle of his reins.

He will announce justice to the nations.

He will announce justice according to the truth. He was not discouraged and did not slacken until he has established justice on earth. "

GOD is the ONLY monarch worthy of the name, to whom the title of KING OF KINGS is worthy to be granted not only because it is the FIRST of ALL, but also and especially because he is the holder of knowledge, absolute knowledge, and that he alone knows and reveals the truth. Based on this axiom, no one else is worthy to reign in all the infinite universe of the kingdom.

But what characterizes God or Being of Light is the example he gives to men, even if they are not aware. HIM who lacks nothing, since he has everything and everything is very small, showing humility when it comes to human beings, if proof were needed, just love it their manifesto.

Why do you see a dim, or find a strange community, which alone remained faithful to him, offered him the supreme title for them, namely:

MASTER OF JUSTICE.

It is obvious that the members of this community, knowing the writings of the prophet Isaiah that the Messiah (savior) was next offered him this title because it was the only one who can wear it. It must be admitted that few members unfortunately were only to be recognized.

For them, the Teacher of Righteousness was naturally the MASTER, as holder and dispenser of knowledge and truth, because he taught men the data hitherto unknown, and JUSTICE since he came to save and liberate men darkness that was also defeated.

CHRIST, MASTER OF JUSTICE and Savior of mankind, to the materialism in which they were mired advanced.

Men do not always know who they are, where they come from, and where they go. They know what they do and what will the worlds to come. They darkness to light.

Whatever their race or skin color, all those taking part in the hope of resurrection they shall be my people, the people of Israel that I assemble around my name for the save. I speak of the circumcision of the heart of the world. I am the God of Israel.

Thus saith the LORD, who stretched out the heavens and founded the earth and formed the spirit of man within him.

The Essenes were the only ones to recognize the Messiah, and respect, he attributed the title of MASTER OF JUSTICE.

The Teacher of Righteousness and Christ, are one. What I say will surprise many, but do you know about the being of light, the Holy Spirit, the One God?

You know all about him.

If you came here today, and he has done, you would not recognize even know hidden for new men to relieve it. You know all the love it bears to spiritual entities.

I am one of the few entities to whom the spiritual BEING OF LIGHT reveals the truth, said that he is, as would a father against his son, to whom he revealed his inner self.

Yes verily I say unto you, the being of light is made known to men long ago already, and continuing even today. But then, you do not.

It is written:

"The people elected, consisted of men who wandered as blind as people who seek the path groping. God considered their work as a perfect heart, they had searched, and raised them up a Teacher of Righteousness to lead them in the way dear to his heart and to make known to generations past, what would the last generation. "

Coming complete God's work of putting up a new heaven, a new generation Land, Christ, the being of light, showed the men he was indeed the foundation, foundations, cement, stone corner light.

As I've said before, the BEING OF LIGHT has ended the first great generation, and set up another one to which we belong, indicating that it was subject to new rules, respect the laws enacted and revealed by Moses, applied literally, the precepts and commandments.

The last great generation has new provisions introduced since the advent of Christ. The spiritual entities have now become one, and will be judged individually according to their works. The kingdom of God is now effective, and spreads throughout the kingdom of heaven. The BEING OF LIGHT finished his great work and God, in saving and releasing the spiritual entities incarnated (men) and those who were prisoners of Hades. He opened the door of heaven closed until then, and that prevented the spiritual entities having access to the heavenly universe.

It is written:

"Then a new heaven will appear, all the powers of heaven shines a hundredfold. Then come many centuries, countless, endless. "

Whoever sent me asking me to show you what you have always escaped, so I saved the few elect who is among you, and also for the whole world to hear.

Word of God to Moses:

"Only take heed to thyself, and keep thy soul, all the days of thy life, lest thou forget the things your eyes saw, and they depart from thy heart. Teach them to your children and your children's children. "

God wants above all, that the words of truth are reported for men. But most of the prophets have failed to reveal to them, essentially. It does not only reveal to men the real existence of One God, to tell people to respect and apply the precepts, laws and ordinances, the commandments of God, but also and above all make them aware of what they really are, and identify with their persuasive force, that their deeds, their works are often causal. Indeed, as you know now, you're not on earth by chance. Also before the evil that is growing, the BEING OF LIGHT has established a law of God, bringing spiritual beings to reap the fruits of their works.

In other words, those who follow the path of good will be rewarded for having treated their spiritual essences, and thus progressed by moving on the path to light, they go into the holy heavenly universe, to eternal life, and live in total happiness.

Conversely, those who follow the path of evil, who follow the path prescribed by the son of Satan, these religious unfair to men who ordain in the name of a false god of bloodshed.

These profess falsehood. Do not follow these government leaders and policymakers who are corrupt as well and also work for the evil in all its forms, and all those who follow their examples. For all these, it will end. These spiritual entities are directed towards the world of darkness, home of the infamous Satan. Their will be lots of suffering and destruction forever.

Behold, the days come, saith the LORD, when I will raise unto David a righteous Branch.

He will reign as king and prosper. He will practice justice and equity in the country, here is the name that we call:

The LORD our righteousness.

Follow me rather in the realm if indeed he inspires you, because then there will be more sects and traditions, most of the golden calf, more idols, no authorities or powers domination over men. God alone will reign over all the families of people gathered around his law and his love.

It is my duty to remind you again, and I'll never do enough for those who choose to engage in evil;

That works the negative lead certainly in the world of darkness.

Today, the being of light gives me the opportunity, knowing that I am the bearer, to shatter the yoke that maintains the blind and deaf man, and lift the veil that covers the area of humanity.

The BEING OF LIGHT, when he came among men, becoming known as Christ, to set up a new heaven and new earth. The one we know now, that has nothing to do with it before its advent.

For new land, means a world where the invisible and therefore undergoes a spiritual change, transformation, and that a path previously closed, has been created, now giving the opportunity for spiritual entities holy access to enter into the celestial universe. On the other hand, the BEING OF LIGHT, took the opportunity to establish new rules, new divine laws that govern the new generation to which we belong.

A new era is born, willed by God, love for the man to help him out of the blindness in which he is confined.

The man was built aided by the pernicious philosophy of Satan, based on lies and denial, a fake universe, unreal, imaginary, it can be consolidated in his mind, ending up believing that there is none else. This has meant through the centuries to keep people in ignorance of the truth, keep them away from reality, and they avoid the look, consolidating in their mind, philosophy Holocaust denier.

The man was lost for many years now, all benchmarks, and works without real purpose, became indifferent to pain, suffering, since they only affect the others. It is enclosed in a deep individualism and focus his life on the desire and the desire to acquire material possessions or power and where the pleasure of the senses is highlighted, see Search.

The man entered if I may say so, a new cycle, using a path that leads inexorably into the abyss. As strange as it sounds, it has improved technologically, it stagnates, and to be honest I would rather say it is declining in terms of morality, ethics, humanism, the spirituality.

Not only knowing in general vehicle badly in humanity, but the fundamentals are not included and even abandoned by family heads, who did more to inculcate their progeny. Or, if they do, they alter the meaning.

Policy makers, whether managers of multinational companies, government, religious, seek only their own interests, without taking more account of the precepts, ordinances, fundamental laws that govern society and who incidentally was established by God to help all people to advance, leaving the bottom side of the road, small, needy.

They act with indifference, make promises that are never kept. Better, they prefer to implement a policy and financial system, based on the benefit of a minority, while productivity goes, where the office is totally excluded.

The man of today not only declined, but became insensitive selfish, individualistic, malicious, contemptuous, haughty, conceited, not compassionate. He advances on the path of life, devoid of reference, forward aimlessly, without purpose, without any human value and above all spiritual on what to hang. It works blindly, not looking that well-being, do not hesitate to rob, to crush, to suffer its next, as he admits and acknowledges the existence of the latter.

Ignorance of the real data, egocentrism, greed and power, hegemony and totalitarianism sprawling grow these decision makers, to deliberately ignore the needs of needy, low income people for whom they have little of respect.

Capitalism philosophy that Satan is the instigator and the master thought, is the system that is more pernicious, because it creates division, excites the desires, causing collisions and leads to the murder for which indulges in the obvious aim of enriching themselves. It is the basis of global disruption, creates in humans disorder that causes adverse reactions for humanity.

Arise when feelings of hatred, racism, indifference, contempt, aggression, resentment that led the leaders to foment rebellion in advancing arguments sometimes misleading and false ideals.

Intolerance, the spirit of superiority that drives some to believe that one race is superior to another, or bigotry advocating the primacy of one color over another, one culture over another, can that cause and exacerbate hatred, highlighting the ignorance of the truth of those who develop these ideas, which have the effect of lead men to decline and spiritual isolation. All these pathways drive man to remain in a state of blindness known, and prevents this respectful behavior and reasoning carefully. The spiritual entity is so deeply mired in his body, and eventually lose all taken.

Another major factor is the cause of global unrest, violence and sectarian strife. It emanates from a philosophical movement whose mentor is none other than Satan himself. The latter was established millennia ago, and succeeded in inking in the minds of religious materialists, whose designs have nothing to do with the being of light, nor the actual precepts of God, much less power to send men to the holy word.

These religious unfair, apply the philosophy of their father based on lies, violence, crime, rejecting the truth that the purpose for those who have the misfortune to follow is the closed and spiritual isolation. The ideals developed by these false religious but true son of the prince of evil, tends to cause friction between people of different faiths, drawing on their thugs to whom they give a false interpretation of the word of God in order to use them with a false promise, but mainly using them as soldiers of Satan, for the son of Satan, love is a weakness. The prince of evil, despicable being par excellence, managed to get into the spirit of these religious iniquitous implant (thinking skills) hidden among them all objectivity, critical thinking, all reasoning makes sense, any emotion, any emotions, the opportunity to work for truth, all morality and ethics, any sense of justice, related to any notion of love, compassion. These so-called religious have long since turned away from God, and serve his and mine enemy, Satan.

He has succeeded in bringing them to preach to an audience in search of God, remarks that have nothing to do with scripture, as derived from misinterpretation of the word of the BEING OF LIGHT. These sermons greatly alter the precepts of God, and are miles away from what BEING OF LIGHT wishes for men, and seek to remove them from the path to the light for the direct to the kingdom of darkness who is their father.

By their cynicism, aided by the thought of Satan, the false religious were able to develop, nurture and maintain in the minds of some men, waves of resentment, bringing some human beings to fight against others. The prince of darkness has also been successful and has been for a long time already, to cast in the house earth philosophy revisionist, obscurantist, and this hatred towards men in order to get them not only to deny the existence of God, but also to reject everything that concerns the reality, truth, forcing them to work, turning to materialism, by making them believe it is the only focus of interest, which has the but (and this is the desire of Satan) to hold prisoners of the material universe binary.

Obviously, those who accept and practice these ideals, wander aimlessly, without benchmarks. At this stage, these lost souls, do not hesitate to spread the seed of evil in all its forms, without ulterior motive, without remorse. Making others suffer for them is a meaningless concept, and second nature. They know where the truth lies and falsehood. How do otherwise, when one is devoid of morality, humanism and love.

When you love men, it is incapable of love for them, their hurt, and make them suffer. The lack of belief in God, leads people to behave, to act, to think in terms of materialism, without building their spiritual life, and where morality, love, compassion are completely missing.

These religious unfair, these unscrupulous makers, these deniers ignorant of the exact scope of words, and the effects they induce, the ideals they convey and their specific effects on the psyche of men.

The ignorance of man is not only the mysteries of heaven, but it also relates to the terrestrial sphere in which he knows he is still part of the cut sky, and he influenced. It is largely the provider of air masses and negative influence material, and which is enclosed.

This knowledge is now perfect and complete God, must bring the man to change his behavior, rejecting the satanic philosophy to that of God, based on righteousness, justice, love.

It is written:

What a man soweth, that shall he also reap. He who sows to his flesh shall of the flesh reap corruption.

But he who sows to the spirit, the spirit reap life everlasting.

Let us not tire of doing good, for we shall reap the expected time, if we do not lose heart.

If time is a period marked by the succession of events such as days, months, years, nights, seasons, hours etc.. This figure is however specific to the material universe binary, and does in any celestial universe, let alone God.

Time can be defined in terms of past and future, which related to the present, defined a movement, is within a range. Stay at the moment, there position, confine them naturally without change one iota, is the unique ability of GOD, and five BEINGS OF LIGHT.

It is while living in the moment, given fixed and immutable, which continues to penetrate the past and the future without being affected or suffer the effects, since these last two phases are somehow two elements of this is why God said so aptly.

I am the first and last, the alpha and omega, the beginning and end.

Time has no impact, can affect or reach, as is rest and motion at a time, the absolute master of time because this data remains at its level to the static state.

Another fundamental fact characterizes God, and gives it individuality.

Given only that God is everything, the composition of all container and contents at the time he has in him not only all principles of truth and knowledge, the source so invigorating. But also that time-bound. If the weather can affect humans and the latter suffer the effects, it is because it is external to it or if it is washed and can not escape it.

Unlike God, who is the master in that time and its three elements, remain in him. For this reason, God is the only constant in this life, knowing the two elements are linked and dependent on past and future.

As I have explained above, the Supreme Being as a spiritual entity MAJEURE owner and holder of the life-giving source, is eternal essence. Time has no effect on him because he remains within it.

On the other hand, God in his goodness and his love for men, wishing to see them evolve and grow spiritually, then release the binary material universe, takes his time with the spiritual beings we are. This desire that we grow in wisdom and intelligence, our moral sense develops, before we pass new knowledge, new revelations through his messenger. The obvious reason is to allow men to get answers about the mysteries of heaven, from God himself to know him better, and thus allow the men to finally enter the data hitherto unknown. What man does not impatient, and did not feel that God is slow to listen or act. The BEING OF LIGHT knows and sees everything, but gives the men time to repent of their mistakes and correct them accordingly.

Verily I say unto you, that he who has eyes to see, ears to hear, said the actions of God, because they are visible.

The BEING OF LIGHT transmit timely and gradually and continuously new knowledge to men. This contribution is evident therefore that the actions of evil forces are at their peak. The time I said, is data that has no meaning on the spiritual plane, which explains the patience that God develops against men and her desire late or more exactly calculated to better awareness of spiritual beings (men) by revealing himself as, in a timely and accurate so that they penetrate the truth.

If God waited until now to bring these revelations to men, but also because the time has come for BEING OF LIGHT transmit to humans an ultimate truth and thereby to conceal the final fate of the infamous Satan .

To better penetrate these revelations, it is necessary or even indispensable to reason, think in terms of spiritual and not materialistic, then open to seeking the truth.

The time has come for man to learn about the real motives of Satan and hell beings who attend. It is time for humans to better dissect the destructive philosophy, the pernicious character, behavior, attitude marked by aggressive meanness, cruelty, lies, deceit, cynicism and the real intentions of the Prince of darkness, to detach and to reject it definitively. Armed with this new more complete, more accurate, he can now better respond and position themselves in knowing the destructive forces of evil, and they generate.

You are the new generation, the first to finally really know God.

2000 years ago, the being of light has come on earth among men, making himself known to them, revealing himself to them as Christ. At that time, he made a great work, is to save and liberate men as well as spiritual beings trapped in hell, and also putting in place a new heaven, new earth, and the latter a new generation of men, and this latest offering, new rules, new laws which divine justice is the foundation, and of course the new alliance.

If at that time, Satan has been judged and sentenced, you also know that when he expected to be released to test men. They must of course resist him and reject his philosophy. His time is now coming to an end, just see what happens on earth to see that being filthy there.

So my friends, given the importance of these new revelations, I can assure you that a new era for men.

Today's defeat of Satan was established and brought to light.

God had warned the men in these terms:

Wash you, make you clean. Remove from my eyes the wickedness of your actions. Cease to do evil.

Learn to do good, seek justice.
